THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE ORISSA PORTS FOR THE YEAR 1908-09.

No. 2590Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 4th November 1909.

RESOLUTION.

Administration Report of the Orissa Ports for the year 1908-09.

READ—

Letter from the Commissioner, Orissa Division, No. 440C., dated the 22nd July 1909, submitting the Report on the Administration of the Orissa Ports for the year 1908-09.

The receipts of the ports during the year amounted to Rs. 8,917-9-7, as compared with Rs. 6,522-3-9 in the previous year. Deducting the Government contribution of Rs. 2,980-5-7, which was sanctioned to meet the deficit of 1907-08, the net total receipts amounted to Rs. 5,937-4.

The port-dues realized during the year amounted to Rs. 5,926-14, as compared with Rs. 6,518-3-9 in the preceding year. There was a decrease of Rs. 1,601 at Cuttack (False Point) and an increase of Rs. 1,144 at Puri. The former is attributed to the late export of rice due to bad crops in the previous year and to the preference given to the Chandbali-Calcutta route, and the latter to the British India Steam Navigation Company having started a weekly passenger steamer service between Rangoon and Puri.

The expenditure during the year amounted to Rs. 17,432-12-3 as compared with Rs. 17,732-5-3 in the preceding year. Comparing the receipts with the expenditure, the net result was that there was a deficit of Rs. 11,495-8-3, which was met by a contribution from Provincial Revenues. The question of bringing the financial position of the Orissa Port Fund into a state of equilibrium is under the consideration of the Government.

2. The value of trade during the year was Rs. 59,87,487, against Rs. 54,45,337 in the preceding year. The increase was due to the importation of a large quantity of Burma rice and paddy during the early part of the year, owing to the prevailing scarcity in the districts of the Orissa Division, and also to the favourable outturn of rice which was exported from Balasore during the latter part of the year. The trade to Balasore was carried on by steamers running under general passes, which entitle them to run for 30 days on one payment of port-dues. Consequently the increase in trade did not increase the port-dues.

3. The number of vessels which entered the ports during the year was 173, with an aggregate tonnage of 106,767, as compared with 157, with an aggregate tonnage of 69,550, in the preceding year, the increase being due to the passenger steamers between Rangoon and Puri. There was an increase in the passenger traffic inward in the ports of Chandbali and Puri.

4. The Port Officer of Calcutta, who inspected all the ports and lights during the year, found them to be in a satisfactory condition. The erosion of Shortt's Island on the seaface continues.

By order of the Lieutenant-Governor of Bengal,

T. BUTLER,

Secretary to the Govt. of Bengal.

GENERAL SUMMARY.—There were light showers in parts of Midnapore, Nadia, Murshidabad, Balasore and Puri. There was no rain in the rest of the Province. Paddy on high lands is being irrigated in Patna and Darbhanga and more rain is wanted for high land paddy in Bankura and Bhagalpur and for *rabi* crops in Palamau. Sowings of *rabi* crops are in progress. Harvesting of early winter paddy has commenced in Shahabad, the Sonthal Parganas, Puri, Sambalpur, Ranchi, Palamau, Manbhum and Singhbhum. Prospects of the crop are on the whole good. The price of common rice has risen in Nadia, Jessore, Shahabad, Hazaribagh and Palamau and has fallen in Hooghly, the 24-Parganas, Patna, Gaya, Muzaffarpur, Darbhanga, Monghyr, Cuttack, Ranchi, Manbhum and Singhbhum. Cattle-disease is reported from Burdwan, Midnapore, Nadia, Patna, Gaya, Muzaffarpur, Darbhanga, Bhagalpur, Purnea, the Sonthal Parganas, Cooch Behar and from the Orissa and Chota Nagpur Divisions, excepting Balasore, Ranchi and Singhbhum. The fodder and water-supply is sufficient throughout the Province.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

The 15th November 1909.

No. 17.—In exercise of the power conferred by section 6 of the Indian Councils Act, 1909 (9 Edw. 7, Ch. 4), the Governor-General in Council has, with the approval of the Secretary of State for India in Council, made the following Regulations for the nomination and election of Members of the Legislative Council of the Lieutenant-Governor of Bengal:—

REGULATIONS FOR THE NOMINATION AND ELECTION OF MEMBERS OF THE LEGISLATIVE COUNCIL OF THE LIEUTENANT-GOVERNOR OF BENGAL

I (1) The Members of the Legislative Council of the Lieutenant-Governor of Bengal shall ordinarily consist of— Number of members.

A.—Members elected by the classes specified in Regulation II, who shall be twenty-six in number ;

B.—Members nominated by the Lieutenant-Governor, with the sanction of the Governor-General, who shall not exceed twenty-two in number and of whom

(a) not more than seventeen may be officials, and

(b) two shall be non-official persons to be selected one from the Indian commercial community and one from the planting community.

(2) In addition to the forty-eight members above specified, the Lieutenant-Governor may nominate two more persons, whether officials or non-officials, having expert knowledge of subjects connected with proposed or pending legislation, to be members of the Council:

Provided that it shall not be lawful for the Lieutenant-Governor to nominate so many official persons under these Regulations that the majority of all the members of the Council shall be officials.

II. The twenty-six elected members specified in Regulation I shall be elected as follows, namely :— Elected members.

(i) By the Corporation of Calcutta ...	1 member.
(ii) By the University of Calcutta ...	1 member.
(iii) By the municipal commissioners ...	6 members.
(iv) By the district boards	6 members.
(v) By the landholders	5 members.
(vi) By the Muhammadan community ...	4 members.
(vii) By the Bengal Chamber of Commerce	2 members.
(viii) By the Calcutta Trades Association	1 member.

III. The election of the members specified in Regulation II shall be effected by the electorates and in accordance with the procedures respectively prescribed in the Schedules annexed to these Regulations. Electorates and electoral procedures.

IV. No person shall be eligible for election as a member of the Council if such person— Ineligible candidates.

(a) is not a British subject, or

(b) is a female, or

(c) has been adjudged by a competent civil court to be of unsound mind, or

(d) is under twenty-five years of age, or

(e) is an uncertificated bankrupt or an undischarged insolvent, or

(f) has been dismissed from the Government service, or

(g) has been sentenced by a criminal court to imprisonment for an offence punishable with imprisonment for a term exceeding six months, or to transportation, or has been ordered to find security for good behaviour under the Code of Criminal Procedure, such sentence or order not having subsequently been reversed or remitted, or the offender pardoned, or

(h) has been debarred from practising as a legal practitioner by order of any competent authority, or

(i) has been declared by the Lieutenant-Governor to be of such reputation and antecedents that his election would, in his opinion, be contrary to the public interest;

Provided that in cases (*f*), (*g*), (*h*) and (*i*) the disqualification may be removed by an order of the Lieutenant-Governor in this behalf.

Qualifications of candidates.

V. No person shall be eligible for election under any sub-head of Regulation II unless he possesses the qualifications prescribed for candidates in the Schedule regulating elections under that sub-head.

Disqualifications of voters.

VI. No person shall be qualified to vote at any election held under these Regulations if such person,—

(*a*) is a female, or

(*b*) is a minor, or

(*c*) has been adjudged by a competent civil court to be of unsound mind.

Oath of office.

VII. Every person, who is elected or nominated under these Regulations to be a member of Council, shall before taking his seat make, at a meeting of the Council, an oath or affirmation of his allegiance to the Crown, in the following form, namely,—

I, A. B., having been elected/nominated a member of the Legislative Council of the Lieutenant-Governor of Bengal, do solemnly swear (or affirm) that I will bear true allegiance to His Majesty the King, Emperor of India, His heirs and successors and that I will faithfully discharge the duty of the office upon which I am about to enter.

Power to declare seats vacant.

VIII. (1) If any person—

(*a*) not being eligible for election is elected under these Regulations, or

(*b*) having been elected or nominated subsequently becomes subject to any of the disabilities stated in clause (*c*) (*e*) (*f*) (*g*) or (*h*) of Regulation IV, or fails to make the oath or affirmation prescribed by Regulation VII within such time as the Lieutenant-Governor may consider reasonable, the Lieutenant-Governor shall by notification in the local official Gazette declare his election or nomination to be void or his seat to be vacant.

(2) When any such declaration is made, the Lieutenant-Governor shall, by notification as aforesaid, call upon the electorate concerned to elect another person, within such time as may be prescribed by such notification, or shall with the sanction of the Governor-General nominate another person, as the case may be.

(3) If any person elected at such fresh election is not eligible for election, the Lieutenant-Governor may, with the like sanction, nominate any person who is eligible for election by the electorate concerned.

Candidates elected by several electorates

IX. (1) If any person is elected by more than one electorate, he shall, by notice in writing signed by him and delivered to the Chief Secretary to the Government of Bengal, within seven days from the date of the publication of the result of such elections in the local official Gazette choose, or in his default the Lieutenant-Governor shall declare, for which of these electorates he shall serve, and the choice or declaration shall be conclusive.

(2) When any such choice or declaration has been made, the votes recorded for such person in any electorate for which he is not to serve shall be deemed not to have been given, and the candidate if any, who, except for the said votes, would have been declared elected for such electorate, shall be deemed to have been duly elected for the same.

Term of office.

X. (1) Save as provided in clause (2) and subject to the provisions of Regulation XVIII, the term of office of a member shall be three years from the date of his election or nomination, as the case may be.

Provided that official Members and Members nominated as being persons who have expert knowledge of subjects connected with proposed or pending legislation shall hold office for three years or such shorter period as the Lieutenant-Governor may at the time of nomination determine.

(2) A member elected or nominated to fill a casual vacancy occurring by reason of absence from India, inability to attend to duty, death, acceptance of office or resignation duly accepted, or otherwise, or a member nominated on failure of an electorate to elect an eligible person, shall hold office as long as the member whose place he fills would have been entitled to hold office if the vacancy had not occurred.

XI. (1) When a vacancy occurs in the case of a member who represents any interest specified in Regulation II or at any time within three months of the date when such a vacancy will occur in the ordinary course of events, the Lieutenant-Governor shall, by notification as aforesaid, call upon the electorate concerned to elect a person for the purpose of filling the vacancy within such time as may be prescribed by such notification. Vacancies.

(2) When a vacancy occurs in the case of a nominated member, the Lieutenant-Governor may, with the sanction of the Governor-General, nominate any person to the vacancy.

Provided that when a casual vacancy occurs in the case of an elected Member the election shall always be made by the same electorate as that which elected the Member whose place is to be filled and shall be subject to the same conditions in respect of eligibility of candidates for nomination as those which governed the election of such Member.

XII. If within the time prescribed by a notification issued under Regulation VIII, clause (2), or Regulation XI, clause (1), the electorate concerned fails to elect, the Lieutenant-Governor may, with the like sanction, nominate at his discretion any person who is eligible for election by such electorate. Failure to elect.

XIII. The power of making laws and regulations or of transacting other business vested in the Legislative Council of the Lieutenant-Governor of Bengal shall be exercised only at meetings at which— Quorum.

(*a*) the Lieutenant-Governor, or

(*b*) the Vice-President appointed by the Lieutenant-Governor under section 4 of the Indian Councils Act, 1909, or

(*c*) in the case of the discussions referred to in section 5 of the said Act, a member appointed to preside in pursuance of a rule made under that section,

and ten or more members of the Council are present.

XIV. (1) No election shall be valid if any corrupt practice is committed in connection therewith by the candidate elected. Corrupt practices.

(2) A person shall be deemed to commit a corrupt practice within the meaning of these Regulations—

(i) Who with a view to inducing any voter to give or to refrain from giving a vote in favour of any candidate, offers or gives any money or valuable consideration, or holds out any promise of individual profit, or holds out any threat of injury, to any person, or

(ii) Who gives, procures or abets the giving of a vote in the name of a voter who is not the person giving such vote.

And a corrupt practice shall be deemed to be committed by a candidate if it is committed with his knowledge and consent, or by a person who is acting under the general or special authority of such candidate with reference to the election.

Explanation—A "promise of individual profit" includes a promise for the benefit of the person himself, or of any one in whom he is interested.

XV. No election shall be invalid by reason of a non-compliance with the rules contained in the Schedules to these Regulations, or any mistake in the use of forms annexed thereto, if it appears that the election was conducted in accordance with the principles laid down in such rules and that such non-compliance or mistake did not affect the result of the election. Non-compliance with rules.

XVI. (1) If the validity of any election is brought in question by any person qualified either to be elected or to vote at such election on the ground of the improper rejection or reception of a nomination, or of a vote, or of any corrupt practice in connection with such election, or for any other cause, such person may, at any time within fifteen days from the date of the publication of the result of such election in the local official Gazette, apply to the Local Government to set aside such election. Disputes as to validity of elections.

(2) The Lieutenant-Governor shall, after such enquiry (if any) as he may consider necessary, declare by notification as aforesaid whether the candidate whose election is questioned or any or what other person was duly elected, or whether the election was void.

(3) If the election is declared void the Lieutenant Governor shall, by notification as aforesaid, call upon the electorate concerned to elect another person within such time as may be prescribed by such notification.

(4) If within the time so prescribed the electorate fails to elect, the Lieutenant-Governor may with the sanction of the Governor-General nominate any person who is eligible for election by such electorate.

Finality of decisions.

XVII. The decision of the Lieutenant-Governor on any question that may arise as to the intention, construction or application of these Regulations shall be final.

First elections

XVIII. (1) As soon as conveniently may be after these Regulations come into force a Council shall be constituted in accordance with their provisions.

(2) For this purpose the Lieutenant-Governor shall, by notification as aforesaid, call upon the electorates referred to in Regulation III to elect members in accordance with these Regulations within such time as may be prescribed by such notification.

(3) If within the time so prescribed any such class fails to elect, the Lieutenant-Governor may nominate at his discretion for a period not exceeding six months any person who is eligible for election by such class.

SCHEDULE I.

[*See Regulation II, sub-head (i), and Regulation III.*]

RULES FOR THE ELECTION OF A MEMBER BY THE CORPORATION OF CALCUTTA.

1. The member specified in Regulation II, sub-head (*i*), shall be elected by the Commissioners of the Corporation of Calcutta in accordance with the procedure hereinafter prescribed :—

2. On or before such date as may be appointed by the Local Government in this behalf a special meeting of the Corporation shall be convened by the Chairman of the Corporation for the purpose of the election :

Provided that not less than fifteen clear days before the date fixed for such meeting the Chairman shall send to each Commissioner a written notice informing him of the time and place fixed for such meeting.

3. (1) Any person not ineligible for election under these Regulations, who is a Commissioner of the Corporation, may be nominated as a candidate for election.

(2) Such nomination shall be made by means of a nomination paper in Form I annexed to this Schedule which shall be supplied by the Chairman to every Commissioner applying for the same.

(3) Each nomination paper shall be subscribed by two Commissioners as proposer and seconder :

Provided that no Commissioner shall subscribe more than one nomination paper.

(4) Nomination papers which are not received by the Chairman at least seven clear days before the date fixed for the meeting shall be rejected.

5. (1) If one candidate only is duly nominated, the Chairman shall forthwith declare such candidate to be elected.

(2) If more candidates than one are duly nominated, the Chairman shall forthwith prepare a list of such candidates containing their names and addresses, and shall cause such list to be posted in a conspicuous place at his office.

6. At the meeting at which the election is held the Chairman shall read out the names of all nominated candidates.

7. The voting shall be by ballot, and each Commissioner shall have one vote only.

8. When the counting of the votes has been completed by the Chairman, he shall forthwith declare the candidate to whom the largest number of votes has been given to be elected.

9. Where an equality of votes is found to exist between any candidates and the addition of a vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Chairman and in such manner as he may determine.

10. The Chairman shall report the result of the election to the Local Government, and the name of the candidate elected shall be published in the local official Gazette.

5. (1) On the date and at the time and place appointed by the Local Government for the scrutiny of nomination papers every candidate and his proposer and seconder may attend, and the returning officer shall allow them to examine the nomination papers of all candidates which have been received by him as aforesaid.

(2) The returning officer shall examine the nomination papers and may, of his own motion or on objection made, reject any nomination paper on the ground that it does not comply with the provisions of rule 3, sub-rule (3), and his decision shall be endorsed upon such paper, and shall be final subject to reversal by the Local Government in the event of the election being questioned under Regulation XVI.

Voting.

6. (1) If one candidate only is duly nominated, the returning officer shall forthwith declare such candidate to be elected.

(2) If more candidates than one are duly nominated, the returning officer shall forthwith publish their names and addresses in such manner as the Local Government may prescribe, and shall further cause their names to be entered in voting papers in Form II annexed to this Schedule.

(3) On or before such date as may be appointed by the Local Government in this behalf, the returning officer shall send by registered post to each elector then residing in India whose address has been registered at the office of the returning officer one such voting paper signed by the returning officer:

Provided that such a voting paper shall also be supplied to any such elector on his applying to the returning officer for the same at any time before the day appointed for the counting of votes, and that no election shall be invalidated by reason of the non-receipt by an elector of his voting paper.

7. On the date and at the time and place appointed by the Local Government in this behalf, every elector desirous of recording his vote in the presence of the returning officer shall attend for the purpose, and after recording his vote on the voting paper in the manner prescribed therein deliver the same to the returning officer.

8. Any elector not desirous of recording his vote in the presence of the returning officer may send his voting paper by registered post to the returning officer after recording his vote thereon in the manner prescribed therein :

Provided that voting papers which are not received by the returning officer before the day appointed for the counting of votes shall be rejected.

Counting of votes and declaration of result.

9. (1) On receiving the voting papers, the returning officer shall examine them to see whether they have been correctly filled up.

(2) The returning officer shall endorse "rejected" on any voting paper which he may reject, on the ground that it does not comply with the instructions on the voting paper.

(3) The returning officer shall fold the lower portion of every paper, whether valid or invalid, along the dotted line on the back, so as to conceal the name of the elector, and shall seal down the portion thus folded with his official seal.

10. (1) The returning officer shall attend for the purpose of counting the votes on such date and at such time and place as may be appointed by the Local Government in this behalf.

(2) Every candidate may be present in person, or may send a representative duly authorised by him in writing, to watch the process of counting.

(3) The returning officer shall show the voting papers sealed as provided by rule 9 to the candidates or their representatives.

(4) If an objection is made to any voting paper on the ground that it does not comply with the instructions therein or to the rejection by the returning officer of a voting paper, it shall be decided at once by the returning officer, whose decision shall be final, subject to reversal by the Local Government in the event of the election being questioned under Regulation XVI.

(5) In such cases the returning officer shall record on the voting paper the nature of the objection and his decision thereon.

11. (1) When the counting of the votes has been completed, the returning officer shall forthwith declare the candidate to whom the largest number of votes has been given to be elected.

(2) Where an equality of votes is found to exist between any candidates and the addition of a vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the returning officer and in such manner as he may determine.

12. Upon the completion of the counting and after the result has been declared by him, the returning officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months, and thereafter cause them to be destroyed, unless otherwise directed by an order of competent authority.

Publication of result.

13. The returning officer shall without delay report the result of the election to the Local Government, and the name of the candidate elected shall be published in the local official Gazette.

Appointment of dates, times and places.

14. The Local Government shall appoint and shall notify in such manner as it thinks fit such date, and, if necessary, such time and place as it may think suitable for each of the following proceedings, namely:—

SCHEDULE III.

[*See Regulation II, sub-head (iii), and Regulation III.*]

RULES FOR THE ELECTION OF A MEMBER OR MEMBERS BY MUNICIPAL COMMISSIONERS.

Preliminary.

1. (1) "Attesting officer" means such officer as the Local Government may, by notification in the local official Gazette, appoint to perform all or any of the duties of the attesting officer under these rules, and includes any officer deputed for the time being by the attesting officer to perform his duties; and

(2) "Returning officer" means such officer as the Local Government may, by notification in the local official Gazette, appoint to perform all or any of the duties of the returning officer under these rules, and includes any officer deputed for the time being by the returning officer to perform his duties.

2. Of the six members specified in Regulation II, sub-head (*iii*)—

(*a*) one shall be elected by the Municipal Commissioners of each of the following five divisions, namely, the Presidency, Burdwan, Patna, Tirhut and Bhagalpur Divisions; and

(*b*) one shall be elected alternately by the Municipal Commissioners of the Chota Nagpur and Orissa Divisions, the former Commissioners having the first right of election:

Provided that the right of election conferred on Municipal Commissioners shall be exercised only by those Commissioners who represent municipalities which are notified from time to time by the Local Government in the local official Gazette as having a local income amounting to not less than five thousand rupees per annum.

Explanation.—For the purpose of this rule "local income" means the total income of a municipality, excluding the opening balance of the Municipal Fund, grants and contributions, and receipts under the account heads "Extraordinary" and "Debt."

3. (1) The election shall be made by the votes of delegates to be selected, in the manner hereinafter prescribed, by the Commissioners of the municipalities in the said divisions other than (*a*) the Chairman, if an official, and (*b*) the Commissioners appointed *ex officio*.

(2) Each delegate shall have the number of votes assigned to the municipality by the Commissioners of which he is selected in accordance with the following scale, namely:—

		Rs.		Rs.		Number of votes for each delegate.
Municipalities with a local income of		5,000	and less than	10,000	...	1
Ditto	ditto	10,000	ditto	20,000	...	2
Ditto	ditto	20,000	ditto	50,000	...	3
Ditto	ditto	50,000	ditto	1,00,000	...	4
and for every additional 50,000 or part thereof in excess of 1,00,000					...	1

(3) The number of votes to which each delegate is entitled on the said scale shall be notified from time to time by the Local Government in the local official Gazette.

Selection of delegates.

4. (1) On such date and at such time as may be appointed by the Local Government in this behalf, the Commissioners of each such municipality other than (*a*) the Chairman if an official, and (*b*) the Commissioners appointed *ex-officio*, shall meet for the purpose of selecting a delegate.

(2) At such meeting the attesting officer shall attend, and, after explaining the rules, shall sign and deliver to each Commissioner present a voting paper in Form I annexed to this Schedule, and shall thereafter withdraw.

(3) The Commissioners present shall then proceed to elect from among themselves a Chairman, who shall call upon such Commissioners to nominate persons for selection.

(4) Any Commissioner may be nominated for selection as a delegate by any two other Commissioners of the same Municipality as proposer and seconder, and the names of all persons

so nominated and their respective proposers and seconders shall thereupon be entered by the Chairman in a list which shall be read out and signed by him.

(5) If one candidate only is duly nominated, such candidate shall be deemed to be selected as delegate and the Chairman shall forthwith inform the attesting officer of the name and address of such candidate.

(6) If more candidates than one are duly nominated, the Commissioners present, including the Chairman, shall record their votes in the manner prescribed in the voting paper and deliver the voting papers to the Chairman.

(7) The Chairman shall then inform the attesting officer who shall thereupon return to the meeting, and the Chairman shall make over to him the list of candidates nominated together with the voting papers.

(8) The attesting officer shall then examine the voting papers and count the votes in the presence of the Commissioners, and shall mark "rejected" on voting papers which he rejects, on the ground that they do not comply with the instructions on the voting paper.

(9) Where the counting of the votes has been completed, the attesting officer shall forthwith declare the candidate to whom the largest number of votes has been given to be selected.

(10) When an equality of votes is found to exist between any candidates and the addition of a vote will entitle any of the candidates to be declared selected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the attesting officer and in such manner as he may determine.

(11) Upon the completion of the counting and after the result has been declared by him, the attesting officer shall seal up the voting papers and list of nominations, and shall retain the same for a period of six months, and thereafter cause them to be destroyed, unless otherwise directed by an order of competent authority.

(12) The attesting officer shall without delay report to the returning officer the names and addresses of the delegates selected (hereinafter referred to as electors), and the said names and addresses shall be published in such manner as the Local Government may prescribe.

Qualifications and nominations of candidates.

5. (1) Any person not ineligible for election under these Regulations and having a place of residence in the division for the representation of the municipalities of which he is a candidate, may be nominated as a candidate for election if he is a Commissioner of any one of such municipalities other than (*a*) the Chairman if an official, or (*b*) a Commissioner appointed *ex officio*.

(2) Every nomination shall be made by means of a nomination paper in Form II annexed to this Schedule which shall be supplied by the attesting officer to any Commissioner qualified to vote for the selection of a delegate for the division who may ask for the same.

(3) Every nomination paper shall be subscribed by two such Commissioners as proposer and seconder, and shall be attested by the attesting officer in the manner prescribed on the face of the form :

Provided that no Commissioner shall subscribe more than one nomination paper.

(4) Nomination papers shall be presented for attestation on or before the date and at the time appointed by the Local Government in this behalf, and when duly attested by the attesting officer shall be despatched by him without delay by registered post to the returning officer.

(5) Nomination papers which are not received by the returning officer before the date and time appointed for the scrutiny of nomination papers shall be rejected.

Scrutiny of nomination papers.

6. (1) On the date and at the time appointed by the Local Government for the scrutiny of nomination papers, every candidate and his proposer and seconder may attend at the place appointed, and the returning officer shall allow them to examine the nomination papers of all candidates which have been received by him as aforesaid.

(2) The returning officer shall examine the nomination papers, and may, either of his own motion, or upon objection made, reject any nomination paper on the ground that it does not comply with the provisions of rule 5, sub-rule (3), and his decision shall be endorsed upon such paper and shall be final, subject to reversal by the Local Government in the event of the election being questioned under Regulation XVI.

Voting.

7. (1) If in any division one candidate only is duly nominated, the returning officer shall forthwith declare such candidate to be elected.

(2) If more candidates than one are duly nominated, the returning officer shall forthwith publish their names in such manner as the Local Government may prescribe.

(3) On such date and at such time as the Local Government may appoint in this behalf, the electors desirous of recording their votes shall attend for the purpose at the office of the returning officer.

(4) The returning officer shall thereupon deliver to each elector a voting paper in Form III annexed to this Schedule, in which shall be entered the names of the candidates.

(5) The elector shall then sign the declaration on the back of the paper in the presence of the returning officer in accordance with the instructions on the face thereof, and the returning officer shall attest his signature in the manner prescribed by the same instructions.

(6) The elector shall then proceed to a place screened from observation which shall be provided by the returning officer, and shall there record his vote on the voting paper in accordance with the instructions thereon and shall then deliver it to the returning officer.

(7) Neglect on the part of the elector to comply with any of these instructions shall render the vote invalid.

Counting of votes and declaration of result.

8. (1) On receiving the voting papers, the returning officer shall examine them to see whether they have been correctly filled up.

(2) The returning officer shall endorse "rejected" on any voting paper which he may reject and mark "discarded" against any vote which he may discard on the ground that it does not comply with the instructions on the voting paper.

(3) The returning officer shall then fold the lower portion of every paper, whether valid or invalid, along the dotted line on the back so as to conceal the name of the elector, and shall seal down the portion thus folded with his official seal.

(4) The returning officer shall attend for the purpose of counting the votes on such date and at such time and place as may be appointed by the Local Government in this behalf.

(5) Every candidate may be present in person, or may send a representative duly authorised by him in writing, to watch the process of counting.

(6) The returning officer shall show the voting papers sealed as provided by sub-rule (3) to the candidates or their representatives.

(7) If an objection is made to any voting paper or vote on the ground that it does not comply with the instructions on the voting paper or to the rejection by the returning officer of a voting paper or the discarding by him of any vote, it shall be decided at once by the returning officer whose decision shall be final, subject to reversal by the Local Government in the event of the election being questioned under Regulation XVI.

(8) In such cases the returning officer shall record on the voting paper the nature of the objection and his decision thereon.

(9) When the counting of votes has been completed, the returning officer shall forthwith declare the candidate to whom the largest number of votes has been given to be elected.

(10) Where an equality of votes is found to exist between any candidates and the addition of a vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the returning officer and in such manner as he may determine.

(11) Upon the completion of the counting and after the result has been declared by him, the returning officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months, and thereafter cause them to be destroyed, unless otherwise directed by an order of competent authority.

Publication of result.

9. The returning officer shall without delay report the result of the election to the Local Government, and the name of the candidate elected shall be published in the local official Gazette.

Appointment of dates, times and places.

10. The Local Government shall appoint and shall notify in such manner as it thinks fit such date and, if necessary, such time and place as it may think suitable for each of the following proceedings, namely:—

(*a*) the selection of delegates under rule 4;

(*b*) the attestation of nomination papers under rule 5;

(*c*) the scrutiny of nomination papers under rule 6;

(*d*) the attestation of voting papers under rule 7; and

(*e*) the counting of votes under rule 8.

SCHEDULE V.

[See Regulation II, sub-head (v), and Regulation III.]

RULES FOR THE ELECTION OF A MEMBER OR MEMBERS BY THE LANDHOLDERS.

Preliminary.

1. (1) "Attesting Officer" means such officer as the Local Government may, by notification in the local official Gazette, appoint to perform all or any of the duties of the Attesting Officer under these rules, and includes any officer deputed for the time being by the Attesting Officer to perform his duties ; and

(2) "Returning Officer" means such officer as the Local Government may, by notification in the local official Gazette, appoint to perform all or any of the duties of the Returning Officer under these rules, and includes any officer deputed for the time being by the Returning Officer to perform his duties.

2. The five Members specified in Regulation II, sub-head (v), shall be elected by landholders as follows, namely :—

Group A by the landholders of the Presidency and Burdwan Divisions....... two members ;

Group B by the landholders of the Patna, Tirhut and Bhagalpur Divisions......two members ;

Group C by the landholders of the Orissa and Chota Nagpur Divisions......one member.

Qualifications of electors.

3. The election shall be made by landholders qualified to vote and having a place of residence within the electoral group concerned who—

(a) pay either land revenue or road and public works cesses as follows, namely :—

(i) in the case of Group A (the Presidency and Burdwan Divisions), pay land-revenue amounting to not less than seven thousand five hundred rupees or road and public works cesses amounting to not less than one thousand eight hundred and seventy-five rupees per annum ;

(ii) in the case of Group B (the Patna, Tirhut and Bhagalpur Divisions), pay land-revenue amounting to not less than four thousand rupees or road and public works cesses amounting to not less than one thousand rupees per annum ; and

(iii) in the case of group C (the Orissa and Chota Nagpur Divisions), pay land-revenue amounting to not less than six thousand rupees or road and public works cesses amounting to not less than five hundred rupees per annum ; or

(b) hold titles conferred or recognised by the Government not lower in rank than that of Raja or Nawab :

Provided that no elector shall have more than one vote though he may possess more than one of the qualifications above described.

Electoral roll.

4. (1) On or before such date as may be appointed by the Local Government in this behalf, an electoral roll for each electoral group in Form I annexed to this Schedule shall be published by the Returning Officer in the local official Gazette.

(2) As soon as may be after the publication of the said roll in the local official Gazette a copy thereof shall be posted in a conspicuous place at the office of every District Magistrate in each electoral group and in the case of Calcutta at the office of the Chief Presidency Magistrate.

5. In determining the eligibility of a landholder to have his name entered on the electoral roll for any electoral group—

(a) only such estates and shares of estates as are held by him as proprietor in his own right and not in a fiduciary capacity, and are registered in his own name in registers maintained under the Land Registration Act, 1876, whether such estates or shares are situated in one or more Divisions in the same electoral group, shall be taken into account;

(b) if the amount paid by the landholder in respect of any such share of an estate is not definitely known, the District Officer of the district in which such estate is situated shall estimate the amount so paid in respect of such shares, and his decision shall be final; and

(c) if a landholder pays land-revenue or cesses in respect of estates or shares in estates situated in two or more electoral groups, and if his payments in none of such groups reach the amount prescribed for such group, his payments within all the groups shall be aggregated, and if such aggregate equals or exceeds the amount prescribed for the group in which he makes the largest payment, he shall be entitled to be entered in the electoral roll for that group.

6. The electoral roll shall be conclusive evidence for the purpose of determining whether any person is an elector or not under these rules.

Revision of electoral roll.

7. (1) The electoral roll published under rule 4 shall be subject to revision from time to time as the Local Government may, by notification in the local official Gazette, direct.

(2) At the time so notified any landholder whose name does not appear on the said electoral roll and who claims to have his name included therein, and any person who objects to the entry of any name in such roll, may, within fifteen days after the publication of the notification under the last sub-rule, forward to the Returning Officer, either direct or through the District Magistrate of the district in which he has a place of residence, a statement of such claim or objection, as the case may be.

(3) The Returning Officer shall consider and decide upon all such claims or objections, and his decision shall be final.

(4) As soon as may be after the disposal of such claims and objections, the electoral roll, as added to or altered on such revision, shall be published and be posted as provided in rule 4.

Qualifications and nomination of candidates.

8. (1) Any person not ineligible for election under these Regulations, whose name is on the electoral roll, may be nominated as a candidate for election in the electoral group in which he is qualified as an elector.

(2) Such nomination shall be made by means of a nomination paper in Form II annexed to this Schedule, which shall be supplied by the Returning Officer or any District Magistrate to any elector in that group applying for the same.

(3) Every nomination paper shall be subscribed by two electors in that group as proposer and seconder, and shall be attested by an Attesting Officer in the manner prescribed on the face of the form:

Provided that no elector shall subscribe more than one nomination paper.

(4) Nomination papers shall be presented to an Attesting Officer for attestation on or before the date and at the time appointed by the Local Government in this behalf, and when duly attested shall be forthwith despatched by registered post by the Attesting Officer to the Returning Officer.

(5) Nomination papers which are not received by the Returning Officer before the date and time appointed for the scrutiny of nomination papers shall be rejected.

Scrutiny of nomination papers.

9. (1) On the date and at the time appointed by the Local Government for the scrutiny of nomination papers, every candidate and his proposer and seconder may attend at the place appointed, and the Returning Officer shall allow them to examine the nomination papers of all candidates which have been received by him as aforesaid.

(2) The Returning Officer shall examine the nomination papers and may, either of his own motion or on objection made, reject any nomination paper on the ground that it does not comply with the provisions of rule 8, sub-rule (3), and his decision shall be endorsed upon such paper, and shall be final, subject to reversal by the Local Government in the event of the election being questioned under Regulation XVI.

Voting.

10. (1) If in any group the number of candidates duly nominated does not exceed the number of candidates to be elected, the Returning Officer shall forthwith declare such candidate or candidates to be elected.

(2) If the number of candidates duly nominated exceeds the number of candidates to be elected, the Returning Officer shall forthwith publish the names of such candidates in such manner as the Local Government may prescribe, and shall further cause their names to be entered in voting papers in Form III annexed to this Schedule.

(3) On or before such date as may be appointed by the Local Government in this behalf, the Returning Officer shall sign and send by registered post to each elector one such voting paper :

Provided that such a voting paper shall also be supplied to any elector on his applying to the Returning Officer for the same on or before the day appointed as the latest date for the attestation of voting papers and that no election shall be invalidated by reason of the non-receipt by an elector of his voting paper.

(4) On or before such date as may be appointed by the Local Government in this behalf each elector desirous of recording his vote shall sign the declaration on the back of the voting paper in the presence of an Attesting Officer in accordance with the instructions on the face thereof, and the Attesting Officer shall attest his signature in the manner prescribed by the same instructions.

(5) The elector shall then record his vote on the voting paper in accordance with the instructions on the face thereof, and after placing the voting paper in an envelope and closing the same shall deliver it to the Attesting Officer.

(6) Neglect on the part of the elector to comply with any of these instructions shall render the vote invalid.

(7) The Attesting Officer shall, at the close of the day appointed as the latest date for the attestation of voting papers, despatch all the envelopes so delivered to him to the Returning Officer by registered post in a packet securely sealed with his official seal.

(8) On the day following the Attesting Officer shall also despatch to the Returning Officer by registered post a list in Form IV of the electors whose voting papers he has attested.

Counting of votes and declaration of result.

11. (1) On receiving the voting papers the Returning Officer shall examine them to see whether they have been correctly filled up.

(2) The Returning Officer shall endorse "rejected" on any voting paper which he may reject and mark "discarded" against any vote which he may discard on the ground that it does not comply with the instructions on the voting paper.

(3) The Returning Officer shall then fold the lower portion of every paper, whether valid or invalid, along the dotted line on the back, so as to conceal the names of the elector and the Attesting Officer, and shall seal down the portion thus folded with his official seal.

12. (1) The Returning Officer shall attend for the purpose of counting the votes on such date and such time and place as may be appointed by the Local Government in this behalf.

(2) Every candidate may be present in person or may send a representative, duly authorised by him in writing, to watch the process of counting.

(3) The Returning Officer shall show the voting papers sealed as provided by rule 11 to the candidates or their representatives.

(4) If an objection is made to any voting paper or vote on the ground that it does not comply with the instructions on the voting paper or to the rejection by the Returning Officer of any voting paper or the discarding by him of any vote, it shall be decided at once by the Returning Officer, whose decision shall be final, subject to reversal by the Local Government in the event of the election being questioned under Regulation XVI.

(5) In such cases the Returning Officer shall record on the voting paper the nature of the objection and his decision thereon.

13. (1) When the counting of the votes has been completed the Returning Officer shall forthwith declare the candidate or candidates to whom the largest number of votes has been given to be elected.

(2) Where an equality of votes is found to exist between any candidates and the addition of a vote will entitle any of the cand dates to be declared elected, the determination of the person or persons to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

14. Upon the completion of the counting and after the result has been declared by him, the Returning Officer shall seal up the voting papers and all documents relating to the election, and shall retain the same for a period of six months, and thereafter cause them to be destroyed unless otherwise directed by an order of competent authority.

Publication of result.

15. The Returning Officer shall without delay report the result of the election to the Local Government, and the name or names of the candidate or candidates elected shall be published in the local official Gazette.

Appointment of dates, times and places.

16. The Local Government shall appoint and shall notify, in such manner as it thinks fit, such date and, if necessary, such time and place as it may think suitable for each of the following proceedings, namely:—

(a) the publication of the electoral roll under rule 4;

(b) the attestation of nomination papers under rule 8;

(c) the scrutiny of nomination papers under rule 9;

(d) the sending of voting papers under rule 10;

(e) the attestation of voting papers under rule 10; and

(f) the counting of votes under rule 12.

7. (1) Any person whose name is on the electoral roll may be nominated for selection as a delegate by the electors of the district or, in the case of districts grouped together in the above table, the group of districts in which he resides.

(2) Such nomination shall be made by means of a nomination paper in Form II annexed to this Schedule which shall be supplied by the District Magistrate to any elector applying for the same.

(3) Every nomination paper shall be subscribed by two electors as proposer and seconder, and shall be attested by an attesting officer in the manner prescribed on the face of the form:

Provided that no elector shall subscribe more than one nomination paper.

(4) Nomination papers shall be presented to an attesting officer for attestation on or before such date and at such time and place as may be appointed by the Local Government in this behalf, and when duly attested shall be despatched forthwith by the attesting officer.

(5) Nomination papers which are not received by the District Magistrate before the date and time appointed by the Local Government in this behalf shall be rejected.

8. (1) If one candidate only is duly nominated, the District Magistrate shall forthwith declare such candidate to be selected.

(2) If more candidates than one are duly nominated, the District Magistrate shall forthwith publish their names in such manner as the Local Government may prescribe.

(3) The District Magistrate shall forthwith enter the names of the candidates in voting papers in Form III annexed to this Schedule, and sign and send to each elector by registered post a voting paper bearing his number in the electoral roll :

Provided that such a voting paper shall also be supplied to any elector on his applying to the District Magistrate for the same on or before the day appointed as the latest date for the attestation of voting papers under this rule and that no election shall be invalidated by reason of the non-receipt by an elector of his voting paper.

(4) On or before such date as may be appointed by the Local Government in this behalf, each elector desirous of recording his vote shall sign the declaration on the back of the voting paper in the presence of the attesting officer in accordance with the instructions on the face thereof, and the attesting officer shall attest his signature in the manner prescribed by the same instructions.

(5) The elector shall then record his vote on the voting paper in accordance with the instructions on the face thereof, and deliver it to the attesting officer.

(6) Neglect on the part of the elector to comply with any of those instructions shall render the vote invalid.

9. (1) On such date as may be appointed by the Local Government in this behalf, the District Magistrate shall examine the voting papers and count the votes, and shall mark "rejected" on voting papers which he rejects on the ground that they do not comply with the instructions thereon.

(2) When the counting of the votes has been completed, the District Magistrate shall declare the candidate who has got the largest number of votes to be selected.

(3) Where an equality of votes is found to exist between any candidates and the addition of a vote will entitle any of the candidates to be declared selected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the District Magistrate and in such manner as he may determine.

(4) Upon the completion of the counting and after the result has been declared by him, the District Magistrate shall seal up the voting papers and all other documents relating to the selection of the delegates, and shall retain the same for a period of six months, and thereafter cause them to be destroyed unless otherwise directed, by an order of competent authority.

10. The District Magistrate shall without delay report the result of the selection to the returning officer, who shall cause the names of the delegates selected for each district or group of districts to be published in the local official Gazette, and also to be posted in a conspicuous place at the office of every District Magistrate of every district and of the Chief Presidency Magistrate of Calcutta.

Qualifications and nomination of candidates.

11. (1) Any Muhammadan not ineligible for election under these Regulations may be nominated as a candidate for election if he has a place of residence in the electoral area for which he is a candidate, and possesses one of the following qualifications, namely :—

(a) is a member of the Legislative Council of the Lieutenant-Governor of Bengal; or

(b) is the holder of any title conferred or recognised by the Government or is a member of the Order of the Star of India or of the Order of the Indian Empire or the holder of a Kaisar-i-Hind Medal; or

(c) is an ordinary or honorary Fellow of the University of Calcutta; or

(*d*) owns land in respect of which land revenue amounting to not less than seven hundred and fifty rupees is payable per annum; or

(*e*) owns land in respect of which road and public works cesses amounting to not less than one hundred and eighty-seven rupees and eight annas are payable per annum to Government either directly or through a superior landlord; or

(*f*) pays on his own account income-tax on an income of not less than six thousand rupees per annum; or

(*g*) is in receipt of a pension for service as a gazetted or commissioned officer of the Government.

(2) Such nomination shall be made by means of a nomination paper in Form IV annexed to this Schedule, which shall be supplied by the returning officer or by a District Magistrate to any elector applying for the same.

(3) Every nomination paper shall be subscribed by two electors as proposer and seconder, and shall be attested by an attesting officer in the manner prescribed on the face of the form:

Provided that no elector shall subscribe more than one nomination paper.

(4) Nomination papers shall be presented for attestation on such days and at such times as may be appointed by the Local Government in this behalf, and when, duly attested shall be despatched by the attesting officer to the returning officer by registered post in an envelope sealed with his official seal.

(5) Nomination papers which are not received by the returning officer before the date and time appointed for the scrutiny of nomination papers shall be rejected.

Scrutiny of nomination papers.

12. (1) On the date and at the time appointed by the Local Government for the scrutiny of nomination papers, every candidate and his proposer and seconder may attend at the place appointed, and the returning officer shall allow them to examine the nomination papers of all candidates which have been received by him as aforesaid.

(2) The returning officer shall examine the nomination papers, and may, either of his own motion or on objection made, reject any nomination paper, on the ground that it does not comply with the provisions of rule 11, sub-rule (3), and his decision shall be endorsed upon such paper and shall be final, subject to reversal by the Local Government in the event of the election being questioned under Regulation XVI.

Voting.

13. (1) If in any electoral area the number of candidates duly nominated does not exceed the number of vacancies, the returning officer shall forthwith declare such candidates to be elected.

(2) If the number of candidates duly nominated exceeds the number of vacancies the returning officer shall forthwith publish the names of such candidates in such manner as the Local Government may prescribe.

(3) In the case referred to in sub-rule (2), the returning officer shall forthwith cause the names of the candidates to be entered in voting papers in Form V annexed to this Schedue, and shall sign and send to each delegate by registered post one such voting paper:

Provided that such a voting paper shall also be supplied to any delegate on his applying to the returning officer for the same on or before the day appointed as the latest date for the attestation of voting papers under rule 14, and that no election shall be invalidated by reason of the non-receipt by a delegate of his voting paper.

14. (1) On or before such date as may be appointed by the Local Government in this behalf, each delegate desirous of recording his vote shall sign the declaration on the back of the voting paper in the presence of the attesting officer in accordance with the instructions on the face thereof, and the attesting officer shall attest his signature in the manner prescribed by the same instructions.

(2) The delegate shall then record his vote on the voting paper in accordance with the instructions on the face thereof, and after placing the voting paper in an envelope and closing the same shall deliver it to the attesting officer.

(3) The attesting officer shall, at the close of the day appointed as the latest date for attestation of voting papers, despatch all the envelopes so delivered to him to the returning officer by registered post in a packet securely sealed with his official seal.

(4) On the day following the attesting officer shall also despatch to the returning officer by registered post a list in Form VI annexed to this Schedule of the delegates whose voting papers he has attested.

(5) Neglect on the part of the delegate to comply with any of these instructions shall render the vote invalid.

Counting of votes and declaration of result.

15. (1) On receiving the voting papers the returning officer shall examine them to see whether they have been correctly filled up.

(2) The returning officer shall endorse "rejected" on any voting paper which he may reject and mark "discarded" against any vote which he may discard, on the ground that it does not comply with the instructions on the voting paper.

(3) The returning officer shall then fold the lower portion of every paper, whether valid or invalid, along the dotted line on the back, so as to conceal the names of the delegate and the attesting officer, and shall seal down the portion thus folded with his official seal.

16. (1) The returning officer shall attend for the purpose of counting the votes on such date and at such time and place as may be appointed by the Local Government in this behalf.

(2) Every candidate may be present in person, or send a representative duly authorized by him in writing, to watch the process of counting.

(3) The returning officer shall show the voting papers sealed as provided by rule 15 to the candidates or their representatives.

(4) If an objection is made to any voting paper or vote on the ground that it does not comply with the instructions on the voting paper or to the rejection by the returning officer of a voting paper or the discarding by him of any vote, it shall be decided at once by the returning officer whose decision shall be final, subject to reversal by the Local Government in the event of the election being questioned under Regulation XVI.

(5) In such cases the returning officer shall record on the voting paper the nature of the objection and his decision thereon.

17. (1) When the counting of the votes has been completed, the returning officer shall forthwith declare the candidate or candidates to whom the largest numbers of votes have been given to be elected.

(2) Where an equality of votes is found to exist between any candidates and the addition of a vote will entitle any of the candidates to be declared elected, the determination of the person or persons to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the returning officer and in such manner as he may determine.

18. Upon the completion of the counting and after the result has been declared by him, the returning officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months, and thereafter cause them to be destroyed, unless otherwise directed by an order of competent authority.

Publication of result.

18. The returning officer shall without delay report the result of the election to the Local Government, and the name of the candidate or candidates elected shall be published in the local official Gazette.

Appointment of dates, times and places.

19. The Local Government shall appoint, and shall notify in such manner as it thinks fit, such date and, if necessary, such time and place as it may think suitable for each of the following proceedings, namely:—

(*a*) the publication of the electoral roll under rule 4;

I, A. B., having been elected/nominated an Additional Member of the Legislative Council of the Governor General, do solemnly swear (*or* affirm) that I will be faithful and bear true allegiance to His Majesty the King, Emperor of India, His heirs and successors, and that I will faithfully discharge the duty of the office upon which I am about to enter.

VIII. (1) If any person,— Power to declare seats vacant.

(*a*) not being eligible for election, is elected under these Regulations, or,

(*b*) having being elected or nominated, subsequently becomes subject to any of the disabilities stated in clause (*c*), (*e*), (*f*), (*g*) or (*h*) of Regulation IV, or fails to make the oath or affirmati n prescribed by Regulation VII within such time as the Governor General in Council considers reasonable,

the Governor General shall, by notification in the Gazette of India, declare his election or nomination to be void or his seat to be vacant.

(2) When any such declaration is made, the Governor General shall, by notification as aforesaid, call upon the electorate concerned to elect another person within such time as may be prescribed by such notification, or shall nominate another person, as the case may be.

(3 If any person elected at such fresh election is not eligible for election, the Governor General may nominate any person who is eligible for election by the electorate concerned.

IX. (1) If any person is elected by more than one electorate, he shall, by notice in writing signed by him and delivered to the Secretary to the Government of India in the Legislative Department, within seven days from the date of the publication of the result of such elections in the Gazette of India, choose, or in his default the Governor General shall declare, for which of these electorates he shall serve, and the choice or declaration shall be conclusive. Candidates elected by several electorates.

(2) When any such choice or declaration has been made, the votes recorded for such person in any electorate for which he is not to serve shall be deemed not to have been given, and the candidate, if any, who, except for the said votes, would have been declared elected for such electorate, shall be deemed to have been duly elected for the same.

X. (1) Save as provided in clause (2) and subject to the provisions of Regulation XVIII, the term of office of an Additional Member shall be three years from the date of his election or nomination, as the case may be : Term of office

Provided that official Members and Members nominated as being persons who have expert knowledge of subjects connected with proposed or pending legislation shall hold office for three years or such shorter period as the Governor General may at the time of nomination determine.

(2) A Member elected or nominated to fill a casual vacancy occurring by reason of absence from India, inability to attend to duty, death, acceptance of office or resignation duly accepted, or otherwise, or a Member nominated on failure of an electorate to elect an eligible person, shall hold office so long as the Member whose place he fills would have been entitled to hold office if the vacancy had not occurred.

XI. (1) When a vacancy occurs in the case of a Member who represents any interest specified in Regulation II, or at any time within three months of the date when such a vacancy will occur in the ordinary course of events, the Governor General shall, by notification as aforesaid, call upon the electorate concerned to elect a person for the purpose of filling the vacancy within such time as may be prescribed by such notification. Vacancies.

(2) When a vacancy occurs in the case of a nominated Member, the Governor General may nominate any person to the vacancy:

Provided that when a casual vacancy occurs—

(*a*) in the case of an elected Member, the election shall always be made by the same electorate as that which elected the Member whose place is to be filled and shall be subject to the same conditions in respect of eligibility of candidates for nomination as those which governed the election of such Member, and

(*b*) in the case of a Member nominated as representing any class specified in Regulation I, sub-head B, clause (*b*), the person nominated shall be selected from the same class.

Failure to elect.

XII. If within the time prescribed by a notification issued under Regulation VIII, clause (2), or Regulation XI, clause (1), the electorate concerned fails to elect, the Governor General may nominate at his discretion any person who is eligible for election by such electorate.

Quorum.

XIII. The power of making laws and regulations or of transacting other business vested in the Legislative Council of the Governor General shall be exercised only at meetings at which—

(a) the Governor General, or
(b) the President nominated by the Governor General in Council under section 6 of the Indian Councils Act, 1861, or
(c) the Vice-President appointed by the Governor General under section 4 of the Indian Councils Act, 1909, or,
(d) in the case of the discussions referred to in section 5 of the Indian Councils Act, 1909, a Member appointed to preside in pursuance of a rule made under that section,

and fifteen or more Members of the Council, of whom eight at least shall be Additional, Members, are present.

Corrupt practices.

XIV. (1) No election shall be valid if any corrupt practice is committed in connection therewith by the candidate elected.

(2) A person shall be deemed to commit a corrupt practice within the meaning of these Regulations—

(i) who, with a view to inducing any voter to give or to refrain from giving a vote in favour of any candidate, offers or gives any money or valuable consideration or holds out any promise of individual profit, or holds out any threat of injury, to any person, or
(ii) who gives, procures or abets the giving of a vote in the name of a voter who is not the person giving such vote.

And a corrupt practice shall be deemed to be committed by a candidate, if it is committed with his knowledge and consent, or by a person who is acting under the general or special authority of such candidate with reference to the election.

Explanation.—A "promise of individual profit" includes a promise for the benefit of the person himself, or of any one in whom he is interested.

Non-compliance with rules

XV. No election shall be invalid by reason of a non-compliance with the rules contained in the Schedules to these Regulations, or any mistake in the use of forms annexed thereto, if it appears that the election was conducted in accordance with the principles laid down in such rules and that such non-compliance or mistake did not affect the result of the election.

Disputes as to validity of elections.

XVI. (1) If the validity of any election is brought in question by any person qualified either to be elected or to vote at such election on the ground of the improper rejection or reception of a nomination or of a vote, or of any corrupt practice in connection with such election, or for any other cause, such person may, at any time within fifteen days from the date of the publication of the result of such election in the Gazette of India, apply to the Governor General in Council to set aside such election.

(2) The Governor General in Council shall, after such enquiry (if any) as he may consider necessary, declare, by notification as aforesaid, whether the candidate whose election is questioned or any or what other person was duly elected or whether the election was void.

(3) If the election is declared void, the Governor General shall, by notification as aforesaid, call upon the electorate concerned to elect another person within such time as may be prescribed by such notification.

(4) If within the time so prescribed the electorate fails to elect, the Governor General may nominate any person who is eligible for election by such electorate.

XVII. The decision of the Governor General in Council on any question that may arise as to the intention, construction or application of these Regulations shall be final.

Finality of decisions.

XVIII. (1) As soon as conveniently may be after these Regulations come into force, a Council shall be constituted in accordance with their provisions.

First elections.

(2) For this purpose the Governor General shall, by notification as aforesaid, call upon the electorates referred to in Regulation III to proceed to elect Members in accordance with these Regulations within such time as may be prescribed by such notification.

(3) If within the time so prescribed any such class fails to elect, the Governor General may nominate at his discretion for a period not exceeding six months any person who is eligible for election by such class.

SCHEDULE I.

[*See Regulation II, sub-heads (i), (ii), (iii) and (iv), and Regulation III.*]

RULES FOR THE ELECTION OF AN ADDITIONAL MEMBER OR MEMBERS BY THE NON-OFFICIAL MEMBERS OF THE LEGISLATIVE COUNCILS OF THE GOVERNORS OF FORT ST GEORGE AND BOMBAY AND OF THE LIEUTENANT-GOVERNORS OF BENGAL AND THE UNITED PROVINCES OF AGRA AND OUDH.

Preliminary.

1. "Returning Officer" means such officer as the Local Government may, by notification in the local official Gazette, appoint to perform all or any of the duties of the Returning Officer under these rules, and includes any officer deputed for the time being by the Returning Officer to perform his duties.

Electors.

2. (1) The Member or Members specified in Regulation II, sub-heads (i), (ii), (iii) and (iv), shall be elected by the votes of the non-official Members of the Councils of the Governors of Fort St. George and Bombay and of the Lieutenant-Governors of Bengal and the United Provinces of Agra and Oudh, respectively.

(2) Every such Member shall have one or two votes according as one or two candidates are to be elected.

(3) In the case of the election of two candidates the Member may record both his votes in favour of one candidate.

3. On such date and at such time and place as may be appointed by the Local Government in this behalf, the non-official Members of each of the said Councils shall meet for the purpose of electing the Member or Members whom they are called upon to elect.

4. (1) At such meeting the Returning Officer shall attend, and after explaining the rules shall deliver to each Member present a voting paper in Form I annexed to this Schedule and shall thereafter withdraw.

(2) The Members present shall then proceed to elect from among themselves a chairman, who shall in the first instance state the number of candidates to be elected and call upon the Members to nominate candidates.

Qualifications of candidates.

5. (1) Any person not ineligible for election under these Regulations and having a place of residence within the Province concerned and such practical connection with that Province as qualifies him to represent it may be nominated as a candidate.

(2) Such nomination may be made by any two Members as proposer and seconder, and the names of all candidates so nominated and their respective proposers and seconders shall thereupon be entered by the chairman in a list which shall be read out and signed by him.

Voting.

6. (1) If the number of candidates duly nominated does not exceed the number of candidates to be elected, the candidate or candidates so nominated shall be declared to be elected, and the chairman shall forthwith inform the Returning Officer of the name and address of such candidate or candidates.

(2) If the number of candidates duly nominated exceeds the number of candidates to be elected, the Members present, including the chairman, shall record their votes on the voting papers in accordance with the instructions thereon.

(3) Neglect on the part of the Member to comply with any of those instructions shall render the vote invalid.

7. The chairman shall then inform the Returning Officer, who shall thereupon return to the meeting, and the chairman shall make over to him the list of candidates nominated.

Counting of votes and declaration of result.

8. (1) The Returning Officer shall then collect the voting papers from the Members present and shall examine them to see whether they have been correctly filled up.

(2) The Returning Officer shall endorse "rejected" on any voting paper which he may reject and mark "discarded" against any vote which he may discard on the ground that it does not comply with the instructions on the voting paper.

(3) The Returning Officer shall then fold the lower portion of every paper, whether valid or invalid, along the dotted line on the back, so as to conceal the name of the elector, and shall seal down the portion thus folded with his official seal.

9. (1) The Returning Officer shall thereupon count the votes in the presence of the Members.

(2) Every candidate may be present in person, or may send a representative, duly authorized by him in writing, to watch the process of counting.

(3) The Returning Officer shall show the voting papers, sealed as provided by rule 8, to the candidates or their representatives.

(4) If an objection is made to any voting paper or vote on the ground that it does not comply with the instructions on the voting paper, or to the rejection or discarding by the Returning Officer of any voting paper or vote, it shall be decided at once by the Returning Officer, whose decision shall be final subject to reversal by the Governor General in Council in the event of the election being questioned under Regulation XVI.

(5) In such cases the Returning Officer shall record on the voting paper the nature of the objection and his decision thereon.

10. (1) When the counting of the votes has been completed, the Returning Officer shall forthwith declare the candidate or candidates to whom the largest number of votes has been given to be elected.

(2) Where an equality of votes is found to exist between any candidates and the addition of a vote will entitle any of the candidates to be declared elected, the determination of the person or persons to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

11. Upon the completion of the counting and after the result has been declared by him, the Returning Officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months, and thereafter cause them to be destroyed unless otherwise directed by an order of competent authority.

Publication of result.

12. The Returning Officer shall without delay report the result of the election to the Local Government and also to the Secretary to the Government of India in the Legislative Department, and the names of the candidate or candidates elected shall be published in the local official Gazette and in the Gazette of India.

Appointment of dates, times and places.

13. The Local Government shall appoint such date, time and place as it may think suitable for the meeting of members under rule 3, and shall notify the same in such manner as it thinks fit.

SCHEDULE VI.

[*See Regulation II, sub-head (xi), and Regulation III.*]

RULES FOR THE ELECTION OF AN ADDITIONAL MEMBER BY LANDHOLDERS IN BENGAL.

Preliminary.

1. (1) "Attesting Officer" means such officer as the Local Government may, by notification in the local official Gazette, appoint to perform all or any of the duties of the Attesting Officer under these rules, and includes any officer deputed for the time being by the Attesting Officer to perform his duties; and

(2) "Returning Officer" means such officer as the Local Government may, by notification in the local official Gazette, appoint to perform all or any of the duties of the Returning Officer under these rules, and includes any officer deputed for the time being by the Returning Officer to perform his duties.

Qualifications of electors.

2. The election of the Member specified in Regulation II, sub-head (xi), shall be made by landholders qualified to vote having a place of residence within the Province of Bengal, who—

(*a*) pay land-revenue or road and public works cesses, as follows:—

(*i*) in the case of the Presidency, Burdwan and Orissa Divisions, forming one group, land-revenue amounting to not less than twenty thousand rupees or road and public works cesses amounting to not less than five thousand rupees per annum; and

(*ii*) in the case of the Patna, Tirhut, Bhagalpur and Chota Nagpur Divisions, forming another group, land-revenue amounting to not less than fifteen thousand rupees or road and public works cesses amounting to not less than three thousand seven hundred and fifty rupees per annum; or

(*b*) hold titles conferred or recognized by the Government not lower in rank than that of Raja or Nawab:

Provided that no elector shall have more than one vote though he may possess more than one of the qualifications above described.

Electoral roll.

3. (1) On or before such date as may be appointed by the Local Government in this behalf, an electoral roll in Form I annexed to this Schedule shall be published by the Returning Officer in the local official Gazette.

(2) As soon as may be after the publication of the roll in the local official Gazette, a copy thereof shall be posted in a conspicuous place at the office of every District Magistrate and, in the case of Calcutta, at the office of the Chief Presidency Magistrate.

4. In determining the eligibility of a landholder as an elector—

(*a*) only such estates and shares of estates as are held by him as proprietor in his own right and not in a fiduciary capacity, and are registered in his own name in registers maintained under the Land Registration Act, 1876, whether such estates or shares are situated in one or more Divisions of the group, shall be taken into account;

(*b*) if the amount paid by the landholder in respect of any such share of an estate is not definitely known, the District Officer of the district in which such estate is situated shall estimate the amount so paid in respect of such share, and his decision shall be final;

(*c*) if a landholder pays land-revenue or cesses in respect of estates or shares in estates situated partly in one group and partly in another, and if his payments in neither group reach the amount prescribed for that group, his payments in both groups shall be aggregated, and, if such aggregate equals or exceeds the amount prescribed for the group in which he makes the larger payments, he shall be entitled to be entered in the electoral roll for that group.

5. The electoral roll shall be conclusive evidence for the purpose of determining whether any person is an elector or not under these rules.

Revision of electoral roll.

6. (1) The electoral roll published under rule 3 shall be subject to revision from time to time as the Local Government may, by notification in the local official Gazette, direct.

(2) At the time so notified any landholder whose name does not appear on the said electoral roll and who claims to have his name included therein, and any person who objects to the entry of any name in such roll, may, within fifteen days after the publication of the notification under the last sub-rule, forward to the Returning Officer, either direct or through the District Magistrate of the district in which he resides, a statement of such claim or objection, as the case may be.

(3) The Returning Officer shall consider and decide upon all such claims or objections, and his decision shall be final.

(4) As soon as may be after the disposal of such claims and objections, the electoral roll, as added to or altered on such revision, shall be published and posted as provided in rule 3.

Qualifications and nomination of candidates.

7. (1) Any person not ineligible for election under these Regulations whose name is on the electoral roll may be nominated as a candidate for election.

(2) Such nomination shall be made by means of a nomination paper in Form II annexed to this Schedule, which shall be supplied by the Returning Officer to any elector asking for the same.

(3) Every nomination paper shall be subscribed by two electors as proposer and seconder, and shall be attested by the Attesting Officer in the manner prescribed on the face of the form:

Provided that no elector shall subscribe more than one nomination paper.

(4) Nomination papers shall be presented for attestation on or before the date and at the time appointed by the Local Government in this behalf, and when duly attested shall be despatched without delay by the Attesting Officer by registered post to the Returning Officer.

(5) Nomination papers which are not received by the Returning Officer before the date and time appointed for the scrutiny of nomination papers shall be rejected.

Scrutiny of nomination papers.

8. (1) On the date and at the time appointed by the Local Government for the scrutiny of nomination papers, every candidate and his proposer and seconder may attend at the place appointed, and the Returning Officer shall allow them to examine the nomination papers of all candidates which have been received by him as aforesaid.

(2) The Returning Officer shall examine the nomination papers and may, either of his own motion or upon objection made, reject any nomination paper on the ground that it does not comply with the provisions of rule 7, sub-rule (3), and his decision shall be endorsed upon such paper, and shall be final, subject to reversal by the Governor General in Council in the event of the election being questioned under Regulation XVI.

Voting.

9. (1) If one candidate only is duly nominated, the Returning Officer shall forthwith declare such candidate to be elected.

(2) If more candidates than one are duly nominated, the Returning Officer shall forthwith publish their names in such manner as the Local Government may prescribe, and shall further cause their names to be entered in voting papers in Form III annexed to this Schedule.

(3) On or before such date as may be appointed by the Local Government in this behalf, the Returning Officer shall send by registered post to each elector one such voting paper signed by the Returning Officer:

Provided that such a voting paper shall also be supplied to any elector on his applying to the Returning Officer for the same at any time on or before the day appointed as the latest date for the attestation of voting papers and that no election shall be invalidated by reason of the non-receipt by an elector of his voting paper.

(4) On or before such date as may be appointed by the Local Government in this behalf, each elector desirous of recording his vote shall sign the declaration on the back of the voting paper in the presence of an Attesting Officer in accordance with the instructions on the face thereof, and the Attesting Officer shall attest his signature in the manner prescribed by the same instructions.

(5) The elector shall then record his vote on the voting paper in accordance with the instructions on the face thereof, and after placing the voting paper in an envelope and closing the same shall deliver it to the Attesting Officer.

(6) Neglect on the part of the elector to comply with any of these instructions shall render the vote invalid.

(7) The Attesting Officer shall, at the close of the day appointed as the latest date for attestation of voting papers, despatch all the envelopes so delivered to him to the Returning Officer by registered post, in a packet securely sealed with his official seal.

(8) On the day following the Attesting Officer shall also despatch to the Returning Officer by registered post a list in Form IV of the electors whose voting papers he has attested.

Counting of votes and declaration of result.

10. (1) On receiving the voting papers the Returning Officer shall examine them to see whether they have been correctly filled up.

(2) The Returning Officer shall endorse "rejected" on any voting paper which he may reject on the ground that it does not comply with the instructions on the voting paper.

(3) The Returning Officer shall then fold the lower portion of every paper, whether valid or invalid, along the dotted line on the back, so as to conceal the names of the elector and the Attesting Officer, and shall seal down the portion thus folded with his official seal.

11. (1) The Returning Officer shall attend for the purpose of counting the votes on such date and at such time and place as may be appointed by the Local Government in this behalf.

(2) Every candidate may be present in person, or may send a representative, duly authorized by him in writing, to watch the process of counting.

(3) The Returning Officer shall show the voting papers sealed as provided by rule 10 to the candidates or their representatives.

(4) If an objection is made to any voting paper on the ground that it does not comply with the instructions thereon, or to the rejection by the Returning Officer of a voting paper, it shall be decided at once by the Returning Officer, whose decision shall be final, subject to reversal by the Governor-General in Council in the event of the election being questioned under Regulation XVI.

(5) In such cases the Returning Officer shall record on the voting paper the nature of the objection and his decision thereon.

12. (1) When the counting of the votes has been completed, the Returning Officer shall forthwith declare the candidate to whom the largest number of votes has been given to be elected.

(2) Where an equality of votes is found to exist between any candidates and the addition of a vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

13. Upon the completion of the counting and after the result has been declared by him, the Returning Officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months, and thereafter cause them to be destroyed unless otherwise directed by an order of competent authority.

Publication of result.

14. The Returning Officer shall without delay report the result of the election to the Chief Secretary to the Local Government and also to the Secretary to the Government of India in the Legislative Department, and the name of the candidate elected shall be published in the local official Gazette and in the Gazette of India.

Appointment of dates, times and places.

15. The Local Government shall appoint and shall notify, in such manner as it thinks fit, such date and, if necessary, such time and place as it may think suitable for each of the following proceedings, namely:—

(*a*) the publication of the electoral roll under rule 3;
(*b*) the attestation of nomination papers under rule 7;
(*c*) the scrutiny of nomination papers under rule 8;
(*d*) the sending of voting papers under rule 9;
(*e*) the attestation of voting papers under rule 9; and
(*f*) the counting of votes under rule 11.

(8) On the day following the Attesting Officer shall also despatch to the Returning Officer by registered post a list in Form IV annexed to this Schedule of the electors whose voting papers he has attested.

Counting of votes and declaration of result.

10. (1) On receiving the voting papers the Returning Officer shall examine them to see whether they have been correctly filled up.

(2) The Returning Officer shall endorse "rejected" on any voting paper which he may reject on the ground that it does not comply with the instructions on the voting paper.

(3) The Returning Officer shall then fold the lower portion of every paper, whether valid or invalid, along the dotted line shown on the back, so as to conceal the names of the elector and the Attesting Officer, and shall seal down the portion thus folded with his official seal.

11. (1) The Returning Officer shall attend for the purpose of counting the votes on such date and at such time and place as may be appointed by the Local Government in this behalf.

(2) Every candidate may be present in person, or may send a representative, duly authorized by him in writing, to watch the process of counting.

(3) The Returning Officer shall show the voting papers sealed as provided by rule 10 to the candidates or their representatives.

(4) If an objection is made to any voting paper on the ground that it does not comply with the instructions thereon, or to the rejection by the Returning Officer of a voting paper, it shall be decided at once by the Returning Officer, whose decision shall be final, subject to reversal by the Governor General in Council, in the event of the election being questioned under Regulation XVI.

(5) In such cases the Returning Officer shall record on the voting paper the nature of the objection and his decision thereon.

12. (1) When the counting of the votes has been completed, the Returning Officer shall forthwith declare the candidate to whom the largest number of votes has been given to be elected.

(2) Where an equality of votes is found to exist between any candidates and the addition of a vote will entitle any of the candidates to be declared elected, the determination of the person to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

13. Upon the completion of the counting and after the result has been declared by him, the Returning Officer shall seal up the voting papers and all other documents relating to the election, and shall retain the same for a period of six months, and thereafter cause them to be destroyed unless otherwise directed by an order of competent authority.

Publication of result.

14. The Returning Officer shall without delay report the result of the election to the Chief Secretary to the Local Government and also the Secretary to the Government of India in the Legislative Department, and the name of the candidate elected shall be published in the local official Gazette and in the Gazette of India.

Appointment of dates, times and places.

15. The Local Government shall appoint and shall notify, in such manner as it thinks fit, such date and, if necessary, such time and place as it may think suitable for each of the following proceedings, namely :—

(a) the publication of the electoral roll under rule 3 ;

(b) the attestation of nomination papers under rule 7 ;

(c) the scrutiny of nomination papers under rule 8 ;

(d) the sending of voting papers under rule 9 ;

(e) the attestation of voting papers under rule 9 ; and

(f) the counting of votes under rule 11.

HOME DEPARTMENT.

PUBLIC.

RESOLUTION.

Calcutta, the 15th November 1909.

No 4213.—With the approval of the Secretary of State in Council, the Governor-General in Council has to day brought into operation the Indian Councils Act, 1909, and has published the rules and regulations relating to the nomination and election of the members of the enlarged Legislative Councils. This act marks the completion of the earnest and prolonged deliberations that were initiated by the Viceroy more than three years ago, when he appointed a Committee of his Executive Council to consider and report on the general question of giving to the peoples of India a larger measure of political representation and wider opportunities of expressing their views on administrative matters.

2. The various stages of inquiry and discussion which followed need not be reviewed at length. In the Home Department letter of the 24th August 1907 the Government of India put forward certain provisional and tentative proposals and invited the local Governments to submit their matured conclusions, after consulting important bodies and individuals representing the various classes of the community. The voluminous opinions elicited by that letter were fully dealt with in the despatch which the Government of India addressed to the Secretary of State on the 1st October 1908, and in Lord Morley's despatch of the 27th November following Since these papers were published, the Government of India have been engaged, in communication with the Secretary of State, in working out the principles accepted by him, and the scheme finally adopted for the future constitution of the Legislative Councils is embodied in the Indian Councils Act and in the Regulations which are published to day. The Governor-General in Council will now proceed to state briefly the extent and nature of the changes introduced and to indicate in what respects they differ from the proposals contained in the papers already published.

Size of Legislative Councils.

3. The maximum strength of each Council is fixed by the first schedule of the Act. Excluding the head of the Government and the members of the Executive Councils, it varies from 60 for the Council of the Governor-General to 30 for the Councils of the Punjab and Burma, the number for each of the other five Provincial Councils being 50. The actual strength of each Council is determined by the Regulations: the statutory maximum will at present be worked up to only in the Imperial and Bengal Councils, but as will be seen from the annexed statements the numbers are in every case slightly larger than those shown in the despatch of the 1st October 1908.

The question of majorities.

4. For the reasons given by the Secretary of State in his despatch of 27th November 1908 there will continue to be a majority of officials in the Governor-General's Council, but the Regulations provide not only that there may be, but that there must be, a majority of non-official members in every Provincial Council. The following statement, from which the head of the Government is in each case excluded, shows the effect of this great constitutional change on the composition of each Council. It will be within the power of a local Government to increase the non-official majority by nominating less than the maximum number of officials and substituting non-officials, but that majority cannot be reduced except to the limited extent indicated below, and then only for a specified period or in connexion with a particular measure :—

Legislative Council of	Officials.	Non-officials.	Majority.
			Official.
India	35	32	3
			Non-official.
Madras	19	26	7
Bombay	17	28	11
Bengal	17	31	14
United Provinces ...	20	26	6
Eastern Bengal and Assam	17	23	6
Punjab	10	14	4
Burma	6	9	3

These figures relate to the ordinary constitution of the Councils and leave out of account the two experts who may be appointed members of each Provincial Council when

the legislation in hand is of a nature to demand expert advice. If these members are non-officials the majority will be strengthened, and even if both are officials it will not be entirely neutralized. The strength of the non-official majority varies with local conditions. Interests to represented.

5. Special provision has been made for the representation of the professional classes, the landholders, the Muhammadans, European commerce, and Indian commerce The first of these interests will be represented on the Governor-General's Council by the members elected by the Provincial Legislative Councils and by the district councils and municipal committees in the Central Provinces; and on the Provincial Councils by the representatives of the District Boards, the Municipalities, the Corporations of the Presidency towns and the Universities. The others will be represented upon all the Councils by members elected by special electorates or nominated under an express provision of the Regulations. The representative of the Bombay landholders on the Governor-General's Council will be elected at the first, third and subsequent alternate elections by the landholders of Sind, a great majority of whom are Muhammadans, while at other elections he will be elected by the Sardars of Gujerat or the Sardars of the Deccan, a majority of whom are Hindus. Again the landholders of the Punjab consist of about equal numbers of Muhammadans and non-Muhammadans, and it may be assumed that their representative will be alternately a Muhammadan and non-Muhammadan. It has accordingly been decided that at the second, fourth, and succeeding alternate elections when these two seats will presumably not be held by Muhammadans, there shall be two special electorates consisting of the Muhammadan landholders who are entitled to vote for the member who represents in the Governor-General's Council the landholders of the United Provinces and Eastern Bengal and Assam respectively. In some Provinces there are special interests, such as the tea and jute industries in Eastern Bengal and Assam and the planting communities in Madras and Bengal, for which special provision has been made. The representation of minor interests and smaller classes will be provided for by nominations made from time to time as the particular needs of the moment and the claims of each community may require.

6. In the despatch of the 1st October 1908 it was explained that some of the seats there shown as elective might at first have to be filled by nomination, pending the formation of suitable electorates. Further inquiry has shown this course to be unavoidable at present in respect of (1) the representative of Indian Commerce in all Councils except that of the Governor of Bombay; (2) the representatives of the landholders and the Muhammadan community of the Punjab on the Governor-General's Council; and (3) the representative of the planting community on the Bengal Council. The Regulations, however, provide that a member must be nominated to represent each of these interests; and it is the intention of the Governor-General in Council to substitute election for nomination wherever a workable electorate can be formed. Representation by nominated members.

7. It will be seen that the Regulations have been divided into two parts—first, the substantive Regulations, which deal with all matters of general application; and, secondly, a series of separate Schedules defining the constitution of each electorate and prescribing the electoral procedure to be adopted in each case. Scope and form of Regulations

8. The qualifications required for both candidates and voters are specified in the Schedules, but the disqualifications, which apply generally, are given in the Regulations. The only voters disqualified are females, minors, and persons of unsound mind; but for candidates wider restrictions are obviously necessary, and these are set forth under nine heads in Regulation IV. The last of these provides that no person shall be eligible for election, if he has been declared by the Government of India or the Local Government to be of such reputation and antecedents that his election would, in the opinion of the Government, be contrary to the public interest. The Act of 1892 laid down that an elected candidate must be nominated by the head of the Government before he could take his seat on the Council. It thus gave power to exclude a candidate whose presence would bring discredit upon the Council; and although this power was never exercised, yet it served a useful purpose in deterring such persons from coming forward for election. If the dignity and representative character of the Legislative Councils are to be maintained, there must be some means of excluding unworthy candidatures, though recourse to it would be of rare occurrence, and the disqualification imposed would not necessarily be permanent. Disqualifications of Voters and Candidates.

9. In accordance with the practice of the House of Commons and of other British legislatures, members of the enlarged Councils must, before taking their seats, make an oath or affirmation of allegiance to the Crown. Oath of office.

10. If a candidate is elected for more than one electorate, he is required by Regulation IX to choose for which electorate he will sit. The votes recorded for him in any electorate for which he decides not to sit will be deemed not to have been given, and the seat will go to the candidate who would have been elected but for such votes. This is in accordance with the procedure prescribed for ward elections in the city of Bombay, and it has the advantage of rendering a fresh election unnecessary. Double elections.

11. The normal term of office has been extended from two to three years, but a member elected to fill a casual vacancy will sit only for the unexpired portion of the outgoing member's term. This provision is necessary to meet the case of electorates which elect by rotation. To deprive such a constituency of its representation for what might be a considerable portion of the term allotted to it would be unfair; while to allow the constituency of the out-going member (who might have sat for nearly the full term) to Term of office.

elect another member for a further period of three years would be open to still greater objections. The provision is also required to secure the retention of the advantages of cumulative voting in two-member constituencies.

Corrupt practices. 12. It has been expressly laid down that corrupt practices shall render an election invalid. There is no such provision in the existing Regulations, but the great extension of the principle of election and the probability of keen contests render it desirable to provide safeguards against the employment of improper practices. The definition of "corrupt practices" is taken from the Bombay District Municipalities Act. It covers false personation on the part of a voter and the use of threats of injury, as well as the actual purchase of votes by the candidate or his agent.

Object as to validity of election. 13. Any person who is qualified as a voter or a candidate may question the validity of an election, and apply to the Government of India or the Local Government, as the case may be, to set it aside. After such inquiry as may be necessary, the Government may declare whether the candidate whose election is questioned was duly elected; or whether any, and if so, what other person was duly elected; or whether the election was void (Regulation XVI). An election will not, however, be set aside on the ground of minor irregularities which do not affect the result (Regulation XV).

The electorates. 14. In most cases the electorates are sufficiently defined in the Regulations; where more detailed information is necessary, this has been given in the Schedules prescribing the electoral procedure. Where the electorates are scattered, as is the case with the landholders and the Muhammadans, provision has been made for the preparation and publication of an electoral roll containing the names of all persons qualified to vote. After the first election, this roll will be brought under revision from time to time, when claims and objections will be decided; but the roll actually in force at the time of any election will be conclusive evidence on the question whether any person has the right to vote. The Governor-General in Council regrets that it has not been possible to allow claims to be made or objections to be taken in respect of the first roll. The qualifications upon which each roll is based could not be announced until the Regulations had received the approval of the Secretary of State, and no revision of the roll could be undertaken until the new Act had been brought into operation. At least two months would have to be devoted to the disposal of claims and objections, and it is probable that even at the end of that period some cases would still be pending. It would thus be impossible to constitute the Provincial Councils before March 1910, and the Governor-General's Council could not assemble before the end of that month or the beginning of April. The consequent loss of the whole of the legislative season would cause so much inconvenience, that it would be necessary to defer putting the Act into operation and to postpone the assembling of the new Councils until the session of 1910-11. The Governor-General in Council is sensible of the objections to holding an election on a register which has not been subjected to the test of revision, but he is convinced that those objections are greatly outweighed by the keen disappointment that would be caused by further delay in introducing the constitutional changes which have now been under discussion for more than three years. Moreover, the danger of improper omission or inclusion is comparatively small. The two principal qualifications are payment of land revenue and income-tax, the records of which are detailed and complete, and steps were taken beforehand to ensure, as far as possible, that doubtful cases and claims based on other qualifications should be brought to notice. The Governor-General in Council believes that the great majority of those interested in the question will recognise the difficulties of the situation, and will acquiesce in the decision to prefer the possibility of some small degree of error affecting only a few individuals to the certainty of further prolonged delay in the assembling of the new Councils.

Qualifications of electors. 15. The qualifications prescribed for electors in the cases of the landholders and the Muhammadans vary greatly from province to province. They are in accordance for the most part with the specific recommendations of the Local Governments, and these recommendations again were based upon inquiries made by a special officer appointed in each province to ascertain by personal consultation the wishes of the members of the two communities. The Governor-General in Council would have preferred some nearer approach to uniformity; but the principle he has borne in mind is that election by the wishes of the people is the ultimate object to be secured, and he has felt that he must be guided by the advice of the local authorities as to what those wishes are. The status and circumstances both of the landholders and of the Muhammadan community differ widely from province to province, and qualifications which would produce a satisfactory constituency in one case would in another give an electorate insignificant in numbers and deficient in representative character.

Qualifications of candidates. 16. The qualifications for candidates are, as a rule, the same as those prescribed for voters; but in some cases, such as that of candidates for election to the Governor-General's Council by the non-official members of a Provincial Council, any such restriction would be inappropriate. In other instances there has been some difference of treatment in different provinces, but the object in all cases has been to secure that the member shall really represent the electorate.

Modes of election procedure. 17. The different kinds of electoral machinery may be broadly classified under two main heads—one under which the electors vote direct for the members, and the other under which they select delegates by whom the members are elected. A subsidiary distinction in

each case is that the electors or delegates either vote at a single centre before a Returning Officer, or vote at different places before an Attesting Officer, who despatches the voting papers to the Returning Officer. A further distinction in the case of delegates is that in Bengal each delegate has a varying number of votes, the number depending in the case of district boards and municipalities upon the income of those bodies, and in the case of the Muhammadan community upon the strength and importance of the Muhammadan population of a district or group of districts. Elsewhere the same object has been attained by varying the number of delegates on like grounds, each delegate then having only one vote. In the Central Provinces, however, the number of delegates to be elected by each district council and municipal committee has been fixed, not with sole reference to income or population, but with regard to a number of factors, of which those two are perhaps the most important.

18. A special case of voting by delegates is that of the election of a member of the Governor-General's Council to represent the Muhammadan community of Bombay. The delegates in this case are not appointed *ad hoc*, but consist of the Muhammadan members of the Provincial Council. This exceptional method has been admitted on the assurance of the Governor in Council that the Muhammadan community of the Presidency as a whole would be better represented by the Muhammadan members of the Provincial Council than by any form of direct electorate that cou'd be devised. Muhammadan Member of the Governor-General's Council.

19. The procedure for voting is generally similar to that prescribed by the English Ballot Act. In some cases, however, such as the elections by the Corporations of the Presidency Towns, the Chambers of Commerce and the Trades Associations the voting will, as at present, be regulated by the procedure usually adopted by those bodies for the transaction of their ordinary business. Voting.

20. The rules authorizing the moving and discussing of resolutions, the discussion of the Budget, and the asking of questions have been framed in accordance with the decisions on these matters which have already been announced. In the rules relating to the discussion in the Governor-General's Council of matters of general public interest, it is provided that no discussion shall be allowed in regard to subjects removed from the cognizance of the Council by the Indian Councils Act of 1861, or matters affecting the foreign relations of His Majesty's Government or the Government of India, or matters which are *sub judice*. The President may also disallow any resolution on the ground that its introduction is opposed to the public interest, or that it should be moved in the Legislative Council of a Local Government. Subject to these necessary restrictions, a resolution may be moved regarding any matter of general public interest, and all such resolutions may be fully discussed and put to the vote. The President may assign such time as he may consider reasonable for the discussion of resolutions or of any particular resolution. Resolutions and Questions.

The examination of the annual financial proposals in the Governor-General's Council will be divided into three parts There will first be an opportunity for discussing any alteration in taxation, any new loan, or any grant to Local Governments proposed or mentioned in the Financial Statement or the explanatory memorandum accompaning it. In the second stage, each head or group of heads of revenue or expenditure not excluded from discussion will be explained by the member in charge of the administrative department concerned, and any member may then move a resolution relating to these subjects. The final stage consists of the presentation of the Budget by the Finance Member, who will explain why any resolutions passed by the Council have not been accepted. A general discussion of the Budget will follow, but at this stage no resolution may be moved.

The rules for the asking of questions are substantially the same as those hitherto in force, with the important exception that they permit a member who has asked a question to put a supplementary question.

In respect of these matters each Provincial Council is governed by rules of its own, which in essentials differ but little from those of the Governor-General's Council. One distinguishing feature, however, is that the local Financial Statement is first examined by a Committee of the Council consisting of twelve members, of whom six will be nominated by the head of the Government and six elected by the non-official members of the Council.

21. The Governor-General in Council is conscious that many of the details of the scheme which is being introduced may be found on trial to be unsatisfactory or capable of improvement. Experience alone can show how far methods which are now to India give to the different classes and interests a measure of representation proportionate to their importance and influence, and to what extent an untried electoral machinery is suitable to the varying circumstances of the different provinces and the numerous electorates. Defects will no doubt be discovered when the rules are put into operation; but, if this proves to be the case, the law admits of the Regulations being amended without difficulty. Amendment of Regulations.

22. Under the arrangements that have been made, the new Provincial Councils will assemble at the beginning of January 1910, and the Council of the Governor-General in the course of that month. It is a source of great satisfaction, both to the Viceroy personally and to the Members of his Council, that the deliberations which have extended over the greater part of Lord Minto's Viceroyalty should have achieved their purpose before he lays down the office of Governor-General. The constitutional changes that have been effected are of no small magnitude. The Councils have been greatly enlarged; the maximum strength was 126: it is now 370. All classes and interests of major importance will in future have their own representatives. In the place of 39 elected members, there

will now be 135; and while the electorates of the old Councils had only the right to recommend the candidate of their choice for appointment by the head of the Government, an elected member of the new Councils will sit as of right, and will need no official confirmation. Under the Regulations of 1892 officials were everywhere in a majority; the Regulations just issued establish a non-official majority in every Provincial Council. Nor has reform been confined to the constitution of the Councils: their functions also have been greatly enlarged. A member can now demand that the formal answer to a question shall be supplemented by further information. Discussion will no longer be confined to legislative business and a discursive and ineffectual debate on the Budget, but will be allowed in respect of all matters of general public interest. Members will in future take a real and active part in shaping the financial proposals for the year; and as regards not only financial matters but all questions of administration, they will have liberal opportunities of criticism and discussion, and of initiating advice and suggestions in the form of definite resolutions. The Governor-General in Council feels that these momentous changes constitute a generous fulfilment of the gracious intention, foreshadowed in the King-Emperor's Message, to entrust to the leaders of the Indian peoples a greater share in legislation and government, and he looks forward with confidence to these extensive powers being loyally and wisely used by them, in association with the holders of executive authority, to promote the prosperity and contentment of all classes of the inhabitants of this great country.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

GENERAL DEPARTMENT.

NOTIFICATIONS.

No. 4305.—The 23rd November 1909.—With reference to Government Resolution No. 109T.—G., dated the 20th April 1909, in which the public were informed that Government had approved of the revised courses of study in upper primary and middle standards of schools in Bengal and that it had been decided to introduce the new syllabus in Standards III and V in January 1911, it is hereby notified that the following text-books will be required in accordance with the new scheme:—

(1) An English literary reader for Standard III to contain 32 pages (exclusive of illustrations), of which 28 shall be prose and 4 poetry.
(2) An English literary reader for Standard IV to contain 64 pages (exclusive of illustrations), of which 56 shall be prose and 8 poetry.
(3) An English literary reader for Standard V containing 128 pages exclusive of illustrations (116 pages of prose and 12 pages of poetry).
(4) An English literary reader for Standard VI containing 176 pages, exclusive of illustrations (160 pages of prose and 16 pages of poetry).
(5) A vernacular literary reader for Standards III and IV. A prose and verse reader in 2 parts containing about 160 pages (double crown 16 mo., in pica); the first part for Standard III with 65 pages of prose and 15 pages of poetry; the second part for Standard IV with 65 pages of prose and 15 pages of poetry.
(6) A vernacular literary reader for Standards V and VI. A prose and verse reader of about 200 pages (double crown, 16 mo, in pica) in two parts: the first part for Standard V with 75 pages of prose and 25 pages of poetry; the second part for Standard VI with 75 pages of prose and 25 pages of poetry.
(7) An elementary vernacular Grammar for Standard IV—about 32 pages.
(8) A vernacular Grammar for Standards V and VI—about 60 or 70 pages.
(9) *An arithmetic book in two parts for Standards III and IV.
(10) *An arithmetic book in two parts for Standards V and VI.
(11) A science book for Standards III and IV.

* *N.B.*—The answers portion must be bound separately and offered for sale to teachers only

(12) A science book for Standards V and VI.
(13) A history book for Standards III and IV—a text-book of about 40 stories with illustrative maps.
(14) A history book for Standards V and VI to contain a detailed treatment of the British period of Indian History.
(15) A geography book for Standards III and IV } English translations should accompany the text-books submitted for examination.
(16) Ditto ditto V and VI }
(17) A text book on Geometrical Drawing (for teachers only) for Standards III and IV.
(18) Ditto ditto for Standards V and VI (for teachers only).
(19) A text-book an mensuration for Standards III and IV } For teachers only.
(20) Ditto ditto V and VI }
(21) A text-book on Hygiene for Standards III and IV (for teachers only).
(22) Ditto ditto V and VI (ditto).
(23) Drawing books for Standards III and IV.
(24) Ditto ditto V and VI.

The books should in each case be written in close conformity with the requirements of the new syllabus and in view of the instructions contained in the introductions to the various sections thereof.

With the exception of text-books for science, it has been decided that the production of the text-books required should be left entirely to private enterprise. Intending authors are accordingly invited to submit their books for examination not later than the 15th June 1910. The first list of approved text-books written in accordance with the new syllabus will be published in October 1910.

With regard to science it has been considered expedient that Government should undertake the preparation of model text-books in this subject. It is however to be clearly understood that the preparation of these two books at Government expense is not intended to discourage private enterprise. Science books written by private authors will be considered on their merits and accepted if they fulfil requirements. All that is asked is that prospective authors should not commence to write their books on science until after they have had an opportunity of inspecting the model text-books. The exact time when private authors may examine the model text books will be notified hereafter.

The price of the books required for Standards III to VI will be regulated by the prevailing rates, namely, one anna for each 32 pages of printed matter.

Note.—While the *prescription* of a graduated series of writing books and a text-book on mensuration for pupils is not deemed essential, it is considered that these productions would prove most useful.

"3. *Samples of certain Mixtures.*—Samples of liquid, and viscous and sedimentary, petroleum mixtures shall be prepared for testing in the manner prescribed by the two foregoing directions."

II. For direction 6 in Part III as amended by Home Department Notification No. 928 (), dated the 28th June 1900, the following shall be substituted, namely :—

"*Directions for testing petroleum mixtures.*

6. *Liquid Mixtures.*—Where the petroleum mixture is wholly liquid, flows quite freely, and does not contain any sediment or thickening ingredient, such mixture is tested in the same manner as ordinary petroleum.

7. *Viscous and Sedimentary Mixtures*—Where the petroleum mixture contains an undissolved sediment, as in the case of some metal polishes, which can be separated by filtration or by settlement and decantation, the sediment may be so separated and the decanted liquid may be tested in the same manner as ordinary petroleum

In carrying out such separation, care must be taken to minimise the evaporation of the petroleum. The separation of the sediment must not be effected by distillation.

Where the petroleum mixture is such that sediment cannot be separated by the aforementioned means, or where it is of a viscous nature, as in the case of India-rubber solution, quick-drying paints, etc, such mixture shall be tested in a modified apparatus which differs from that prescribed in Part I, only in the addition of a stirrer to equalise the temperature throughout the sample under test.

In carrying out the test of a viscous petroleum mixture, this stirrer shall be constantly revolved at a slow speed, except when applying the test flame, with the fingers, the direction of revolution being that of the hand of a clock.

With the exception of the use of the stirrer, the manner of carrying out the test shall be the same as in the case of ordinary petroleum.

The stirrer may be removed by grasping the spindle just above the blades with the finger and thumb, and unscrewing the upper sheath The opening in the lid through which the stirrer passes, may then be closed by a plug provided for the purpose.

When this has been done, the apparatus shall be deemed to comply with the specification set forth in this schedule and may be used for testing ordinary petroleum

A model of the aforementioned apparatus will be deposited in the office of the Chemical Examiner to Government, Calcutta, and the provisions of section 20 of the Petroleum Act, 1899, in regard to verification and stamping shall apply also to such apparatus as though it were the apparatus prescribed by the said Act.

For the purpose of carrying out such verification the stirrer shall be removed and the opening plugged as hereinbefore directed. The apparatus shall then be tested with ordinary petroleum. The stirrer shall be verified by comparison of measurements."

III. For the heading to Part IV the following shall be substituted, namely :—

"Directions for determining the flashing point of petroleum and petroleum mixtures which are not fluid at ordinary temperatures, but liquefy when heated in a water bath, or which are liquid at ordinary temperatures but solidify on being cooled to 50°F."

The 2nd November 1909.

No 107Marine.—In exercise of the power conferred by section 10 of Act I of 1859 (an Act for the amendment of the law relating to Merchant Seamen), the Lieutenant-Governor proposes to make the following additions to the Rules, issued under the Notification of this Government, No. 30Marine, dated the 20th March 1906, for the conduct of examinations of Masters and Mates of Foreign-going ships and Home Trade ships, and as to the qualifications to be required. The additional rules will be taken into consideration on the 3rd January 1910 and any criticism or suggestion received before that date will be considered.

T. BUTLER,
Secy. to the Govt. of Bengal.

Examination in Chart.

On and after the 1st January 1910 all candidates for Certificates of Competency as Second Mate of Foreign going ships or Mate of Home Trade passenger ships will, in addition to the present Chart questions for these grades, be required to answer in writing questions 6, 7 and 8 as given in Appendix G of the Regulations relating to the Examination of Masters and Mates in the Mercantile Marine (1906).

Candidates for Certificates of Competency as Only or First Mate will, in addition to the questions prescribed for Second Mate, be required to work a question in both Current Sailing and Reduction to Soundings (see paragraph 35 (*d*) of the Regulations), and all candidates for Certificates of Competency as Master, or Only, or First Mate, of Foreign-going ships, and Master of Home Trade passenger ships, will be required to show proficiency in the method of fixing a ship's position by horizontal sextant angles, using a station pointer for plotting it on the Chart.

Sight Tests.

On and after January 1st, 1914, the standard of Form Vision required by the Board of Trade will be raised. Candidates will then be tested with each eye separately, and will be required to possess full normal vision in one eye and at least half normal vision in the other.

No candidate who has obtained a Certificate of Competency before that date will be required to pass the higher standard on entering for a certificate of a higher grade, unless he wishes.

On and after January 1st, 1910, any person serving or intending to serve in the Mercantile Marine or in Fishing vessels, may be tested by the higher standard and any holder of a Certificate of Competency who passes the new test may have the fact of his passing endorsed upon his certificate.

Government of Bengal.

PUBLIC WORKS DEPARTMENT.

ROAD CESS.

Dated Calcutta, the 19th November 1909.

RESOLUTION.

Receipts and Expenditure of the District Road Funds in the districts of Darjeeling, Singhbhum and Sonthal Parganas during 1908-09.

READ—

Annual Reports and Accounts for the year 1908-09.

Read again—

Annual Reports and Accounts of the District Road Funds for the previous year and the review thereon.

The opening credit balance of the year was Rs. 1,56,098, and the total receipts of the District Road Committees from all sources amounted to Rs. 1,74,926. The total amount available for expenditure was thus Rs. 3,31,024, of which Rs. 2,70,168 was spent, leaving a credit balance of Rs. 60,856 only at the close of the year. The closing balance in the Districts of Darjeeling and Singhbhum was excessive while in the Sonthal Parganas it was exceedingly low. A number of bridges were built, and several new roads constructed or improved at a total cost of Rs. 70,651.

2. The total expenditure on repairs was Rs. 81,608. One thousand five hundred and seventy-three miles of district roads and 82 miles of village roads were maintained.

3. Rupees 433 were spent in planting and maintaining trees on roadsides and on nursery gardens in the districts of Singhbhum and the Sonthal Parganas.

4. The expenditure on establishment amounted to Rs. 31,510.

In the Darjeeling district no Engineer is employed. All the works and repairs in the hills of the district and most of those in the Terai were executed by the members of the Committee and other private gentlemen to whom the thanks of Government are due for their assistance.

ORDER.—Ordered that a copy of this Resolution, together with the Annual Accounts of these District Road Funds, and abstracts from the reports of the Chairmen of the District Road Committees, be published in Part II of the *Calcutta Gazette*.

Ordered, also, that a copy of the Resolution be forwarded for information to the—

Commissioners of the Bhagalpur and Chota Nagpur Divisions;
Superintending Engineers of the Northern and Western Circles;
Accountant-General, Bengal;
Board of Revenue, Lower Provinces;
Financial Department of this Government.

By order of the Lieutenant-Governor of Bengal,

F. ST. G. MANNERS SMITH,

Offg. Secy. to the Govt. of Bengal.

Extract from letter No. 100L.S-C.ct., dated the 26th June 1909, from E. H. C. WALSH, ESQ., I.C.S., *Commissioner of the Bhagalpur Division, to the Secretary the Government of Bengal, Public Works Department.*

* * * * * * *

2. While submitting to Government the report for the year 1907-1908, it was hoped that the heavy closing balance would be considerably reduced during the year of report, after metalling Road No. 32—Naxalbari to Khoribari. But it now appears that the balance is again heavy this year and is said to be due to an advance of Rs. 15,000 for the aforesaid road remaining unadjusted during the year. The Deputy Commissioner has been asked to explain this, and in reply forwards a copy of a letter from the Executive Engineer that a sum of Rs. 14,137-6-7 was spent on the road during the year, and reports that no accounts of the expenditure noted have been received in his office for adjustment. He is being asked to see that in future all expenditure out of funds allotted in a particular year are adjusted before the close of that year, as otherwise it throws out budgets and annual accounts.

3. The work of the District Committee and also of the Kurseong and Terai Branch Committees was satisfactorily carried on throughout the year, and thanks are due to the gentlemen named in paragraph 14 of the report and to the members of the Committee for their work in this respect.

Abstract of the Report by the Chairman, District Road Committee of Darjeeling, on the operations of the District Road Fund of the District, for the year 1908-1909.

[*Vide* letter No. 62R.F., dated 29th May 1909, from W. W. Crawford, Esq., I.C.S., Chairman of the District Road Committee, Darjeeling, to the Commissioner of the Bhagalpur Division.]

1. *Working of Committees.—(a) District Road Committee.*—There were 18 members of the Committee, six official and 12 non-official. Four meetings were held during the year The average attendance was 7·25 or 40·27 per cent. at a meeting.

(*b*) *Kurseong Branch Committee.*—The total number of members of this Branch Committee was nine, three official and six non-official. Four meetings were held during the year The average attendance was 4 or 44·44 per cent. at a meeting.

(*c*) *Terai Branch Committee.*—Eighteen was the total number of members of the Terai Branch Committee, six official and 12 non-official. Altogether six meetings were held during the year. The average attendance was 6 or 33·33 per cent. at a meeting. The percentage of attendance shows a slight decrease. It is desirable that the members should take a greater interest in future in the work of the Committee.

2 The year opened with a cash balance of Rs. 44,488-14-7 and an outstanding advance of Rs. 3,413-5-5. The total amount of Rs. 89,643-5-7, including the outstanding advance, was available for expenditure during the year. The actual expenditure during the year 1908-1909 was Rs. 30,256-4-10, excluding the unadjusted advance of Rs. 19,412-1-7. The actual cash balance on the 31st March 1909 was Rs. 39,974-15-2. The closing balance was more than one quarter's *kist*, but as a special case for this district, this has been allowed by Government in its No. 5106R.C., dated 26th September 1892. A large sum out of this amount was also spent by the Executive Engineer, Darjeeling Division, for metalling Road No. 32 (Naxalbari to Debigunge *viâ* Khoribari) during 1908-1909, but no account for it was received from the Examiner of Public Works Accounts, Bengal, during the year for its adjustment, though an advance of Rs. 15,000 for this road was made to the Executive Engineer as long ago as October 1908.

RECEIPTS.

3. *Provincial Rates.*—The Road Cess was levied by the Committee in the district during 1908-1909, at the maximum rate of 6 pies in the rupee. Rupees 22,710-7-5 was collected on account of "Cess on lands" during the year against Rs. 22,302-13-6 in 1907-1908. The increase of Rs. 407-9-11 was due to the revaluation given effect to from 1908-1909.

4. *Miscellaneous.*—Rupees 7-6-10 was credited under this head on account of sale-proceeds of certain old materials, etc.

5. *Contribution.*—(*a*) Grant from Government—A sum of Rs. 11,925-3-4 was received against Rs 8,020-6-11 of the previous year. The increase was mainly due to the increase of the amount granted by Government for 1908-1909 in augmentation of resources, and also to the credit of a portion of 1½ per cent. grant on the collection from Government estates for 1907-1908 during the year.

(*b*) Sums of Rs. 7,000 and Rs 98 were received, as usual, from the Darjeeling Improvement Fund on account of Contribution for Communication and as its share of the cost of the joint Cess and *Tauzi* establishment, respectively.

EXPENDITURE.

COMMUNICATIONS.

6. *Original works,*—A sum of Rs. 283-6 out of the advance made to the Executive Engineer, Darjeeling Division, for the construction of a pile bridge over the Pichla river on Road No. 29 (Phansidewa to Khoribari) was adjusted during the year, thus making the total cost of construction of the bridge Rs. 1,688-12-5 instead of Rs 1,405-6-5 as shown last year against an estimated cost of Rs 1,845.

7. *Repairs.*—Rupees 17,647-6-6, as per details below, was spent under this head for repairs to roads and bridges against Rs. 16,129-10-5 of the preceding year. The increase of Rs. 1,517-12-1 is mainly due to thorough repairs to certain roads and also to the adjustment during the year of certain expenditure of the previous year for the bridges in charge of the Public Works Department.

8. A total length of 304 miles out of 351⅞ miles of unmetalled roads and 11⅝ miles out of 13⅝ miles of village roads maintained by this Committee during the year were actually repaired at a cost of Rs. 17,460 or 57·43 per mile and Rs. 186 or 16·17 per mile, respectively, including Rs. 3,027* on account of cost of repairs of certain important bridges thereon. The increase in the cost per mile of the unmetalled roads is due to the circumstances stated in paragraph 7 above. The increase in the cost of village roads is due to the repairs of Roads No. 5 (Chel river to Neora) which was not repaired during the previous year 1907-1908.

9. *List of Roads.*—The total number of district roads was 54 and that of village roads was 5. The total lengths of 2 miles 6 furlongs and 87 yards of one metalled road, 351 miles 7 furlongs and 26 yards of 53 unmetalled roads and 13 miles 5 furlongs and 89 yards of 5 village roads were maintained by the Committee during 1908-1909.

10. *Arboriculture.*—There was no expenditure under this head, as this is attended to by the Darjeeling Improvement Fund.

11. *Water-supply.*—This is attended to by the Darjeeling Improvement Fund and by Government; hence there is no expenditure under this head.

12. *Loans.*—Rupees 4,501-12-2 principal and Rs. 2,809-5-6 interest were paid during 1908-1909 under the terms of the loans granted by Government in 1900 and 1901 for the Road Cess bridges damaged and destroyed by the cyclone in September 1899. No fresh loan was taken during the year.

13. *Public Works Establishment.*—There was no District Engineer under this Road Committee during the year 1908-1909. All the works in the hills and the greater part of those in the Terai were, as usual, executed by the several members of the Committee and by the Managers of Tea Gardens. The thanks of the Committee are due to them for their valuable assistance. The important Road Cess bridges were repaired by the Executive Engineer, as heretofore, at the cost of the Road Fund. A sum of Rs. 1,075-6 including contingencies or 5·99 per cent. of the total outlay on work was spent on the entertainment of an Overseer and a peon by the Terai Branch Road Committee at Siliguri. The pay of the Overseer was Rs. 60 with a fixed horse allowance of Rs. 20 and that of the peon was Rs. 7 per mensem.

14. *Administration.*—There were two Branch Committees, viz., Kurseong and Terai, under the District Road Committee. Mr. W. M. Crawford, the Deputy Commissioner, was *ex-officio* Chairman of the District Road Committee and of the Terai Branch Road Committee and Mr. F. G. E. Piffard, the senior Deputy Collector, was the Vice-Chairman of the District Road Committee during the whole year. Mr. H. E. Spry, the Subdivisional Officer of Kurseong, was *ex officio* Chairman of the Kurseong Branch Road Committee and Vice-Chairman of the Terai Branch Road Committee throughout the year. Dr. A. D. Humphrey, the Civil Medical Officer of Kurseong, was the Vice-Chairman of the Kurseong Branch Road Committee as in the previous year (1907-1908). The work of the District Committee, as well as that of the Branch Committees, was performed satisfactorily. The Committee's thanks are due to the abovenamed gentlemen and other members of the District and Branch Committees for the care and interest taken by them in the discharge of their duties.

15. *Audit of Accounts.*—The members of the Audit Sub-Committee have audited the accounts for the whole year, and the Examiner of Local Accounts in Bengal has audited the accounts up to April 1908.

District Road Fund Office:

Darjeeling,

The 5th May 1909.

Extract from letter No. 219L.F., dated the 12th June 1909, from H. J. McINTOSH, ESQ., I.C.S., *Commissioner of the Chota Nagpur Division, to the Secretary to the Government of Bengal, Public Works Department.*

2. The average percentage of attendance of the members of the Committee at their meetings held during the year was only 32·77 against 44·73 in the previous year. This is very unsatisfactory. The Deputy Commissioner's attention is being invited to these figures. On the other hand, a meeting was convened regularly once a month.

3. Efforts were made by the Committee, with their present District Engineer, to reduce the unspent balance in their hands by utilising it to the best advantage. Instances have, however, been brought to my notice in which the Committee undertook works which had not been sanctioned by competent authority. This procedure should cease, and I have taken steps to stop it.

4. The delay noticed in paragraph 2 of the report in auditing the accounts of the Committee by the Local Auditor is being brought to the notice of the Accountant-General, Bengal.

Abstract of the report by the Chairman, District Road Committee of Singhbhum, on the operations of the District Road Fund of the District for the year 1908-1909.

(*Vide* letter No. 52R.C, dated 28th May 1909, from A. W. Cook, Esq., I.C.S., Chairman, District Road Committee, Singhbhum, to the Commissioner of the Chota Nagpur Division.)

1. *Working of the Committee.*—There were 15 members of the District Committee—five official and ten non-official. Twelve meetings were held including two at which no quorums were obtained.

2. The accounts were as usual audited by the Finance Committee, appointed under section 174 of the Act. The accounts for the period from 1st July 1907 up to the date of submission of this report have not been audited by the Local Auditor.

RECEIPTS.

3. The Road Cess was levied at the maximum rate of 6 pies in the rupee. The net demand on account of cess on lands, mines jungles, &c., during the year including the arrears of last year amounted to Rs. 11,594. Of this a sum of Rs. 11,309 has been realised within the year, and Rs. 2 adjusted out of excess payment from previous year leaving a balance on 31st March 1909 of Rs. 283. A sum of Rs. 2 was also received in advance during the year. Out of the total collections (arrear, current and advance Rs. 11,311) credited as road cess during 1908-09 in the Singhbhum Treasury, a sum of of Rs. 10,223 odd as entered against cross heads "Cess on land" and "Cess on mines and railways" in No. 6, Part 1, has been actually shewn by the Treasury Officer in the pass book of the District Fund. In this office No. 25R.C., dated 7th May 1909, the Treasury Officer has been asked to look into his accounts and inform me the reason why short credit of Rs. 1,088 has been shown in the District Road Fund pass-book. Including a few small miscellaneous receipts, the banking and audit fees received back from Government for the year 1907-08, special and other contribution from Government and opening balance of Rs. 38,141-15-8, the income available for expenditure in the year was Rs. 66,814-11-7. The usual annual Government contribution of Rs. 10,000 for road works for the year 1908-09 has not been received during the year.

EXPENDITURE.

4. *Repairs—Civil Buildings.*—The Road Cess building and godown at Chaibassa was repaired at a cost of Rs. 270-14-2 during the year.

5. *Original Works—Communications.*—During the year a sum of Rs. 20,632-4-11 was spent under this head. Of this a sum of Rs. 4,198 was spent on improving the Jyntgurh road. Out of Rs. 5,000 received from Government for the construction of Inspection Bungalows in the Kolhan Government estate a sum of Rs. 550 has been spent. No work has been done over Haludpukur-Purnapani road during 1908-09, the payment of Rs. 560-2-11 shewn against it is on account of work done in 1907-08. The reason for not spending money on this road is that the Railway between Kalimati and Gormasini is under construction and a road running on along the line in the same direction seems hardly necessary. Further, no repairs that could have been done, would have saved the road from being spoilt entirely by the heavy traffic for which the construction work has entailed in this part.

6. *Repairs—Communications.*—Out of 29 roads, 16 roads were repaired during the year at a cost of Rs. 7,487-4-8 against a revised allotment of Rs. 10,131. The roads, Nos. 7 and 9 in Porahat, 10, 11, 15 and 16 in the Kolhan, and 18, 19, 20 and 21, together with village roads Nos. 5, 6, and 7 in Pargana Dhalbhum have not been repaired during the year.

7. The following statement shows the length of district roads (metalled, unmetalled and village roads), the amount spent on the maintenance of the roads and the cost per mile:—

No roads are maintained by the District Road Committee from Public Works Funds.

8 *Arboriculture*—Four hundred new trees were planted during the year These, together with 1,375 unestablished plants of the preceding year, were maintained at a cost of Rs. 328-10, the allotment being Rs 350.

9. *Nursery.*—There are four nursery gardens as reported last year The garden at Chaibassa on the south bank of the Jubilee tank contain 200 plants—

11. No famine relief works were done during the year. A sum of Rs. 12-6 has been charged by the District Engineer against "33—Famine Relief" as cost incurred by him in preparing relief project. A sum of Rs 207-0-1 was paid to the whole time servants on account of grain compensation allowance for the dearness of rice under Government Circular orders issued from time to time on the subject.

12. The following table compares the revenue of the District Road Cess Committee (excluding opening balance and the amount under head "Suspense accounts"), the expenditure incurred on original and repair works and the establishment employed on these works, as also the percentage of the total expenditure on works including establishment calculated on the revenue with those of the two previous years:—

2. While in previous years, remark had to be made as to the heavy closing balance of the fund, this year the committee appear to have gone to the opposite extreme and the closing balance on the 31st March 1909 was Rs. 422-11-1 only. This was quite insufficient to admit of payment of the outstanding bills as also of the establishment charges for March 1809 and has been explained to be due to non-receipt of the Government grant of Rs. 60,000 for 1908-09 for district road works during the year, which had been provided for in the budget. The question of these Government grants is now under correspondence with Government, who have stated that they intended to withhold the grant on account of the large balance which it was estimated there would be. The committee should, however, have applied in due time for this grant and not have waited till the close of the year, and in that case it would have been ascertained that Government did not intend to allot the grant last year, in time for the budget to have been revised accordingly.

4. *Working of the committee.*—It is satisfactory to find that the average attendance of members, as also the percentage of average attendance, improved during the year of report. The Deputy Commissioner has continued to devote much attention to the condition of the roads when on tour and to their efficient maintenance.

Abstract of the report by the Chairman, District Road Committee of the Sonthal Parganas on the operations of the District Road Fund of the district for the year 1908-1909.

[*Vide* letter, No. 211P.—W., dated 5th June 1909, from H. W. P. SCROOPE, ESQ., I.C.S., Chairman of the District Road Committee of Sonthal Parganas, to the Commissioner of the Bhagalpur Division.]

1. The Local Self Government Act was not in force in this district. The provisions of the Cess Act were extended to some selected portion of the district under Government notification No. 4489—R.P., dated the 20th August 1901.

2. *Working of the committee.*—There was no change in the constitution of the committee; it consisted of nine members of whom three are *ex-officio* and the rest non-official. The committee held 19 meetings during the year against 18 in the previous year: of these seven were special and the rest ordinary. The average attendance of members was 5·57 against 3·55 in the previous year and the percentage of average attendance was 55·78 against 53·7.

Receipts.

3. The year opened with a cash balance of Rs. 73,467. The income of the committee from all sources amounted to Rs. 79,741, and the expenditure Rs. 1,52,785 leaving a balance of Rs. 423. The committee utilized fully the heavy closing balance of the last year and the funds placed at their disposal during the year.

4. The receipts of the year consisted mainly of the Government grant-in-aid. The following table compares the receipts under the several heads of the year with those of the previous year.

5. *VI.—Provincial rates.*—The actual receipts from cess on lands were Rs. 13,990 during the year, instead of Rs. 27,000 shown in the budget estimate and this difference is due to several large estates being not brought under valuation owing to non-completion of settlement operation in those estates in the year. The cess was levied at the maximum rate allowed by the law.

6. *XXV.—Miscellaneous.*—Rupees three handred and sixty seven shown against "Fees, fines and forfeitures" represents the amount of fine realised from the contractors for non-completion of works within the contract time and also the forfeiture of security deposits of certain contractors for breach of contract. Rupees 78 represents the amount of proceeds realised from the contractors on account of sale of stamped agreement forms. The increase is due to the sale of more tender forms than in the previous year.

7. *XXXII.—Civil works.*—The receipts under this head though still small were more than double owing to keener competition amongst the ferry farmers at the time of settlement. The actual receipts from the staging bungalows were Rs. 488-10 during the year against Rs. 548-11 in the previous year. The income fell off considerably, but receipts from this source are liable to fluctuation. The income under "Miscellaneous" fell off owing to decrease under several sub-heads.

8. The decrease under the head "Grant from Government" is due to the non-receipt of the usual grant of Rs. 60,000 for the district road works.

9. Rupees eighty-eight represents the amount received back on account of banking and audit fees paid for 1907-08.

11. The total expenditure under head "Land Revenue" was Rs. 28,681 against Rs. 29,307 in the previous year. The actual expenditure under this head was Rs. 29,329, but as a refund of Rs. 648, which was spent on account of pay of certain *dâk* runners in the previous year, was made by the Postal Department during the year, the total expenditure was reduced by Rs. 648.

12. *Miscellaneous Improvement.*—The actual expenditure under this head was Rs. 235-7-9 as detailed below:—

	Rs.	A.	P.
(*a*) Cost of Sahebgunj cattle market establishment and contingencies.	215	0	0
(*b*) Salary of a vaccinator in the Godda Damin	15	7	9
(*c*) Price of reproduced maps for Damin rayats in the Rajmahal subdivision.	5	0	0
Total	235	7	9

But as the refund of Rs. 648 was shown under this road there was a surplus of Rs. 412-8-3.

13. *Agricultural improvements*—The expenditure under this head, although greater than that of the previous year, falls much below the allotment made for the purpose which was Rs. 2,000. Rupees 534 was spent in deepening tanks and improving *bunds* in the Damin for the storage of water for the purpose of irrigating rice fields and Rs. 44 on agricultural experiments.

14. *Sanitary improvements.*—Rupees 1,126 was expended in constructing, repairing and improving tanks, wells and *bunds* in the Damin. The expenditure shown is much less than what actually is. Advances were made for the construction of many other works of improvement, but as the accounts were not received during the year the actual expenditure under this head cannot be shown.

15. *Provincial rates.*—The figure Rs. 711 is based on the actuals and the increase is mainly due to the payment of grain compensation allowance for the dearness of rice under Government circular orders issued from time to time on the subject. The allotment under this head was Rs 718.

16 *Administration,—Establishment and contingencies of committee's office.*—The total expenditure of this head was Rs. 1,488 against Rs. 1,439 in the previous year. The increase in due to the payment of bonuses and grain compensation allowance of Rs. 6 and Rs. 45 respectively. The allotment was Rs. 1,486.

17. *Medical.*—There are no medical institutions under the committee and there was thus no expenditure under this head. A sum of Rs. 50 was spent towards the purchase of medicine (cholera pills) for distribution amongst the Damin raiyats in this district during the prevalence of cholera in May and June last.

18. *Travelling allowance of Veterinary Assistant.*—Rupees 150 was paid on account of travelling allowance of the Veterinary Assistant.

19. *Superannuation allowance and pension.*—Rupees 408 represents the amount actually spent on account of pension of Babu Banwari Lal Banerji, late suboverseer under the District Road Committee, with effect from 19th June 1907.

20. *Stationery*—The expenditure under this head was Rs. 351 against Rs. 302 in the previous year. The increase is due to the cost of Rs. 54-8-10 on account of cost of printing 50 copies of abstract of the report on the operations of the District Road Fund for the year 1906-07. The stationery was supplied by the Government Stationery Office at a cost of Rs. 289 and Rs 7 was spent for transit charges.

21. *Civil Buildings—New works.*—Rupees 2,665 was spent towards the construction of the four primary school buildings at Poreya, Pakhuria, Jarmundi and Patjore in this district. The cost was met from the special grant placed at the disposal of the District Road Committee by the Education Department for constructing certain primary school buildings in this district.

22. *Civil Buildings—Repairs.*—Rupees 14 shown against this head represents the amount of Rs. 12-12 paid on account of municipal tax for the Road Office building and Re. 1 for petty repairs to the floor of this building.

23. *Communications—New works*—The expenditure of Rs. 34,053 under this head was largely in excess of that of the previous year. A special grant of Rs. 11,800 for expenditure on new works, was received from the Commissioner and further funds were provided from the unexpended balance of 1907-08. The works of most importance carried out during the year under the headings "Road Fund" and "Land Revenue" are given below with the amounts spent upon each :—

Road Fund.

	Rs.
(1) Improving the Godda-Hansdiha road	7,082
(2) Bridging Ditto ditto	3,871
(3) Construction of a causeway on the Hardia stream with wire-rope arrangements	1.484
(4) Improving the Karau Karmataur road	763
(5) Improving the Bahwa-Radhanagar road	934
(6) Improving the Dumka-Madhupur road	3,388
(7) Construction of the Fatehpur inspection bungalow on the Dumka-Jamtara road	804
(8) Improving the Dumka-Rampurhat road ...	4,071
(9) Improving the last five miles of the Dumka-Pakour road in the Pakour subdivision	1,721
(10) Renewing, tightening and lengthening the galvanised wire rope across the Maharu stream on the Dumka-Deoghur road	432
(11) Improving the Amrapara-Murarai road	674
(12) Improving the Sanghata bridge on the Dumka-Rampurhat road	961
(13) Constructing bridges and culverts on the Amrapara-Murarai road	3,575
(14) Constructing the Nagar bridge on Rajmahal-Taljhari road	1,046
(15) Purchase of the Ghormara inspection bungalow on the Dumka-Deoghur road from the Lachmipur Raj ...	900

Land Revenue.

(1) Improving the Tinpahar-Borio road	4,652
(2) Purchase of materials for constructing a bridge over the Bhora river in the Godda Damin	1,018
(3) Improving the Mandro-Boarijore road in the Godda Damin	1,381
(4) Constructing a *pucka* drain along the road at Sahebgunj ...	889
(5) Improving the Sahebgunj-Banjhi road	6,005

24. *Communication repairs*—The total expenditure was Rs 44,585 against Rs. 19,132 in the previous year. The increase is apparently large and is mainly due to the payment during the year of bills for repairs to some roads the work on which was completed in 1907-08 and also to the adjustment of advances drawn by the Subdivisional Officers and the District Engineer for repairs to certain roads in the previous year.

25. There was no change in the classification of the scheduled district and village roads under the charge of the District Road Committee. A new road Jamtara to the Barakar river with a mileage of about 12 miles has been taken on to the schedule and Rs 556 was spent on it during the year. During the year 44 scheduled roads with a total mileage of 852 miles were maintained at a cost Rs. 43,579 against Rs. 18,653 in the previous year. Of the total length about 16½ miles were metalled roads and the rest unmetalled and of the total cost, Rs. 1,081 was spent on the former and Rs. 42,498 on the latter. The cost per mile of metalled road was Rs. 65·5 and of unmetalled road Rs. 50 8. Several important roads were improved during the year by the construction of *pucka* bridges and culverts and by the gravelling of some of the *kutcha* portions.

26. The total number of scheduled village roads was the same as in the previous year. Four roads with a total mileage of 33 miles were maintained at cost of Rs. 609, the cost

per mile being 18 4. No substantial improvement was effected in the present condition of the village roads. The expenditure on repairs is classified in the following table :—

District.	Civil Buildings.	Communication.							
		District Roads.			Village Roads.	Government Roads.	Roads in Government Estates.	Other roads.	
Santhal Parganas.		Bal	Outlay.					Oul	
		Rs.	Rs.	Rs.		Rs.		Rs.	Rs.
1907-08		840	18,658	22·2	7·7	8,887	1,078 (a)	28,867	28,880
1908-09	14	853	43,579	51·14	18·4	10,011	1,990	16,189	56,203

(a) For repairs to Road Inspection Bungalows Rs 397.
Ditto to Damin Inspection and other Bungalows Rs. 1,593.

27. *Railway feeder roads.*—The Bhagaya-Sahabad road was completed during the year and satisfactory progress was made with the construction of the (1) Tinpahar Borio, (2) Sahebgunj-Banjhi, (3) Bahwa-Barhait and (4) Amrapara-Murarai roads upon which sums of Rs. 4,652, Rs. 6,005, Rs. 330 and Rs. 4,249 respectively were spent during the year.

28. *Famine relief.*—No famine relief works were done during the year. A sum of Rs. 1,322 was paid to the whole-time clerks and servants on account of grain compensation allowance for the dearness of provision under Government circular orders issued from time to time on the subject, and debited to the head "Establishment."

29. The works of improving the Mandro-Boarijore and Godda-Pirpainti roads were started in January with a view to provide work for the people in localities where there appeared to be some likelihood of distress. Both works secured the desired object and will be of great public utility when completed.

30. The receipts and expenditure of the three *dâk* bangalows under the committee are compared with those of the previous year in the following table :—

Name of Dâk Bangalow.	Receipts.		Expenditure.	
	1907-08.	1908-09.	1907-08.	1908-09.
Dumka	165	137	685	10
Rajmahal	167	116	177	667
Sahebgunj	73	80	272	146

31. *Establishment.*—The expenditure was in excess of that in the previous year. The increase is attributable to the following main causes—

(1) The entertainment of a temporary establishment to look after the following works :—

(1) Sahebganj-Banjhi road. | (3) Bhagaya-Shahabad road.
(2) Tinpahar-Borio ,, | (4) Bahwa-Barhait ,,

(2) The payment of salaries and fixed conveyance allowances to the subordinate engineering staff at the increased rates according to the revised scheme of establishment sanctioned in Bengal Government No. 54E., dated 6th January 1908.

(3) The entertainment of three more suboverseers to look after the works under the Subdivisional Officers of Godda, Pakour, Deoghar and Jamtara according to the revised scheme of establishment.

(4) The payment of grain compensation allowance of Rs. 1,277 to those employés of the District Road Committee who were entitled to it under the rules.

(5) The payment of a bonus of Rs. 50 to the permanent employés drawing salary up to Rs. 50 as per Government circular on the subject.

32. The following table shows the amount spent on establishment and the percentage of its cost on expenditure on Civil works :—

Year.	Outlay on works and repairs.	Outlay on establishment employed on works.	Percentage.
	Rs.	Rs.	
1907-08	75,051	21,486	28·62
1908-09	1,10,411(*a*)	24,036(*b*)	21·76

	Rs.	A.	P.
(a) Land revenue	29,094	0	4
Civil buildings . ..	2,679	1	11
Communication including arboriculture	78,637	15	5
(b) Establishment and contingencies	22,741	6	1
Grain compensation allowance	1,245	9	1
Bonus	49	6	11

Although the percentage is much less than that of the previous year the total cost on establishment exceeds the limit prescribed in the Cess Act, *i.e.*, one-fourth of the year's receipts excluding the opening balance. This is due to the non-receipt of the annual grant of Rs. 60,000 for district road works during the year.

33. *Village sanitation.*—The scheme promulgated by Government in circular No. 10T.-M., dated the 30th May 1903, for the improvement of sanitation of villages and rural towns was not tried in this district during the year. The standard of village sanitation prevailing in the Sonthal Parganas is far higher than in most of the districts in the province; this may of course be due to the fact that the country is thinly populated. This statement does not apply to the thickly populated villages in the low and narrow strip of country to the east of the Pakour and Rajmahal hills, the inhabitants of which set all sanitary laws at defiance. There was no occasion to incur expenditure on this account during the year.

34. *Tools and plants.*—The expenditure under this head was Rs. 1,088 against Rs. 1,278 in the previous year.

35. *Arboriculture.*—Nurseries are established at suitable intervals along the principal roads which need shade, and a *mali* is placed in charge of them. The young tree shoots are planted in pots during the rainy season and kept in the nursery. When the trees have attained a height of three feet they are transplanted to the roadsides. Special attention has been paid to providing plants with mud enclosures. Rupees 104 was spent on this object. It is reported that 1,804 new plants were planted during the year against 1,310 in the preceding year. The whole question of arboriculture is receiving close attention.

36. *Water-supply.*—There was no outlay on water-supply from the District Road Fund; Rs. 1,600 was spent from the Estate Improvement Fund in sinking wells and excavating and improving tanks and *bunds* in the Damin. It is reported that the water-supply is sufficient throughout the district and that the existing sources were enough for ordinary purposes. A statement showing the thana totals of Form I for several subdivisions is appended below.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad

No. 445 (third publication)—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1518 of 1909), are republished:—

Subject.—The undermentioned information has been received with regard to Chaki Chaki bay and Weti harbour, Pemba island.

1. Chaki Chaki bay:

Position.—Lat. 5° 14′ S., long. 39° 40′ E.

Buoyage.—(*a*) The bank situated about one mile northward of Ras Tundauwa having extended from one to 1½ cables to the northward, the red and black vertically striped buoy marking it has been moved a distance of 2 cables, N. 76° E., from its former position, and is now situated with Ras Tundauwa flagstaff, bearing S. 10° E., distant 13½ cables.
(*b*) On some copies of charts Nos. 1812 and 1390, the position of red buoy at the southern entrance to Owen channel, northern approach to Chaki Chaki bay, is incorrectly shown; the correct position is with Dongo, Kundu, bearing S. 88° E., distant 2$\frac{6}{10}$ miles, and East island, S. 52° W.

Remarks.—The bank northward of this buoy has extended about half a cable to the westward.

2. Weti harbour:

Position.—Lat. 5° 4′ S., long. 39° 41′ E.

Extension of bank.—The bank on the south side of the entrance to Weti harbour has extended further to the westward, between the buoys marking it, than is at present shown on the charts. It is proposed to establish an additional buoy to mark this extension.

RESOLUTION ON THE ANNUAL PROGRESS REPORT OF THE FOREST DEPARTMENT IN THE PROVINCE OF BENGAL FOR THE YEAR 1908-09.

REVENUE DEPARTMENT—FORESTS.

Calcutta, the 20th November 1908.

RESOLUTION—No. 3558 (Forests).

READ—

The Annual Progress Report of the Forest Department in the Province of Bengal for the year 1908-09.

Read also—

The corresponding report of the previous year and the resolution of Government thereon.

The charge of the Bengal Forest Circle was held by Mr. A. L. McIntire until the 5th November 1908 when he proceeded on long leave and was succeeded by Mr. G. S. Hart.

2. The present strength of the Imperial Forest Service is not more than sufficient for the supervision of the existing Government forests, and the

question of applying for an officer to assist the Commissioner of Orissa in the management of the forests in the Orissa Tributary States is under the consideration of Government. It has also been alleged that the subordinate service is not adequate to the needs of forest administration in the Province, and the proposals of the Conservator for an increase of its cadre will be awaited. It may be hoped that the strengthening of this service, together with the improvements which have been recently sanctioned in the Provincial School at Kurseong, will result in an improvement in the work of the subordinate staff, which the Conservator at present appears to consider disappointing.

3. *Management.*—The Conservator has referred to the condition of some of the protected forests of the Province in which the demand for produce exceeds the possible yield, and the grazing is so excessive as to prevent all chance of natural regeneration. The question is under the consideration of Government, but its solution will depend largely on whether the continued preservation of such forests in any place is necessary in the interests of those who enjoy rights in them and their posterity. Wherever this may be so, it is obvious that in future the right-holders will have to submit to such regulations as will limit their enjoyment of forest produce to the annual yield which the forests are capable of affording after due provision for regeneration. This will entail restrictions on both cutting and grazing which may arouse opposition, but the maintenance of forest in areas of a certain type is now recognized not to be a matter of merely local interest. It is established by scientific observation that denudation of a country has prejudicial effects probably on its climate, but certainly on its fertility and the moisture of the soil. Accordingly Government recognizes the duty of preserving forests where their existence is necessary to the population, and has directed the Conservator to submit proposals for the more effectual management of protected forests.

4. *Communications, etc.*—Of forest roads, 58 miles were completed in 1907-08, against 60 miles in the previous year, the cost falling from Rs. 26,899 to Rs. 15,463. Most of this work was done in the Singhbhum Division. Forests, devoid of good roads, are incapable of profitable exploitation, and their timber commands no sale in the market. Well-directed expenditure under this head is therefore remunerative in the highest degree, and efforts should be made to render all parts of the reserves easy of access It is a matter for satisfaction, also, that the housing of subordinates continues to improve. In unhealthy climates bad accommodation reacts on the health of the staff, and money spent in this way must mean a larger percentage of officers present on duty and better and more thorough supervision.

5. *Protection of Forests: Breaches of Forest Law.*—The number of forest offences reported is less by 155 than in 1907, and by 384, or 15 per cent., than the average of the last three years. This is a sensible reduction, and is said to be the result of the firmer administration of the Forest Act in recent years. The principle of condoning grazing offences on condition that the owners of cattle should erect fences to keep their animals out of closed blocks, which is reported from the Darjeeling Division, appears to be a good one and capable of wide extension.

6. *Protection from Fire.*—The success of the special measures taken for fire-protection during 1908 is very marked, as little over 1 per cent. of the area so protected was burnt. That such a result was possible was due to the early commencement of the monsoon and the occurrence of showers during the hot-weather months of April and May. One disastrous fire occurred in the Darjeeling Division where conditions as to rain were less favourable. This fire starting in Nepal gathered such headway before it crossed the frontier, driven by a strong west wind, that over 6,000 acres of forests were burnt before it could be extinguished. In order to avoid a similar conflagration in future the Nepal Darbar has been requested to assist in the maintenance of an adequate fire-line on the border.

7. *Protection from cattle and against injuries from other causes.*—The most difficult question that engages the attention of Government and the Forest Department at present is that of the supply of adequate facilities for grazing

and for gathering fodder. The results of over-grazing are graphically described in paragraph 33 of the Conservator's report, and are obvious even to a person without technical knowledge when he sees side by side blocks open and closed to grazing. Unrestricted grazing absolutely prevents natural regeneration, as cattle seem to prefer the seedlings of some kinds of the better trees to any other fodder, while, as their natural pasture becomes depleted, they eventually attack most varieties. It is hoped that in the Darjeeling forests a remedy may be found by a combination of partial stall-feeding with fenced paddocks, which the Conservator has been trying to introduce. Depredations by wild animals continue to give trouble. Suggestions as to the future treatment of wild elephants are awaited from the Conservator. Close attention should also be paid to the destruction of man-eating tigers, especially in the Sundarbans. It is gratifying to observe that the measures taken last year for their destruction led to a diminution in the number of men killed in this way, but no less than 103 persons met their death from these animals. It is clear that they are still both numerous and savage; but it is to be hoped that the increase of the reward in the Sundarbans to Rs. 200 a tiger will lead to their destruction in greater numbers.

8. *Sylviculture.*—Owing to the increased expense of planting, closer attention has been paid in later years to natural regeneration. The Conservator now reports that *sál* regeneration can be obtained under the conditions prevalent in most of the forests of this circle. It may be anticipated therefore that recourse to artificial reproduction may become in future the exception, rather than the rule.

9. *Financial results.*—From a financial and commercial point of view the results of the working of the year were very satisfactory. The total revenue rose to Rs. 12,16,948 as against Rs. 11,66,700 in the preceding year, and Rs. 10,16,435, the average of the five preceding years, while the total expenditure decreased to Rs. 5,96,506 as against Rs. 7,10,309 of the previous year, and the quinquennial average was Rs. 5,85,631. The result was a net income of Rs. 6,20,442. The dullness of the timber market was the cause of smaller profit in some of the principal divisions, but in the Chaibassa division the deficit of the previous year was changed to a surplus of Rs. 2,153 owing to the sale of *sál* timber being undertaken for the first time. In the Sundarbans division the surplus was the highest recorded since 1903-04 and amounted to Rs. 4,28,025, an increase of Rs. 1,81,993, or 74 per cent. as compared with the previous year. With the exception of the Direction and Angul divisions which were worked at a loss, all the remaining ten divisions showed a surplus of revenue over expenditure.

10. The Lieutenant-Governor desires to thank Mr. A. L. McIntire and Mr. G. S. Hart for their efficient administration and particularly to record his appreciation of Mr. A. L. McIntire's management of the Bengal Circle during the last five and-a-half years. During his incumbency the revenue returns showed continued increase, and many of the reforms that have been recently carried out were initiated by him. The Lieutenant-Governor also notes with pleasure the Conservator's appreciation of the good work done by the members of the Provincial Service.

By order of the Lieutenant-Governor of Bengal,

F. W. DUKE,

Chief Secy. to the Govt. of Bengal.

APPOINTMENT OF LOCAL COMMITTEE TO ADVISE INDIAIN STUDENTS PROCEEDING TO ENGLAND.

GENERAL DEPARTMENT—EDUCATION.

Calcutta, the 23rd November 1909.

RESOLUTION No. 4352.

In July 1909 the Government of India announced that the Secretary of State had decided to establish a Bureau in London for the supply of information to Indian students, as well as a Standing Committee for general advisory purposes. The Bureau and the Committee were to work in close relation with one another; and the head of the Bureau, who would be called the Educational Adviser to Indian students, would also act as Secretary to the Advisory Committee. The functions of the Bureau, as laid down by the Secretary of State, are to answer enquiries in regard to educational facilities, to keep a list of lodgings and boarding-houses suitable for Indian students and of private families willing to receive them on such terms as may be arranged; to furnish students with references; to bring to the notice of the Advisory Committee any cases in which the regulation of educational institutions bears hardly on Indian students; and generally to give all possible assistance either to students themselves or to their parents in India. It was also laid down that the Bureau would be in close touch with the Board of Education in England and with Local Committees in India.

The Government of India have directed that local Committees should be established in each Province, who would be in direct communication with the Central Bureau in England. The functions of the Committees are—

(1) To furnish information and advice to Indians who contemplate going to England.

(2) To circulate in India to Colleges and other institutions the educational, financial and social information collected by the Central Bureau in London.

(3) To communicate with the Central Bureau on behalf of students before they start, or on behalf of their parents when they are in England.

(4) To keep up to date the handbook of information which will be published by the Central Bureau in London.

It has been considered advisable by the Government of India that there should be mufassal members of the Committees, and that those should be selected who would be likely to take a personal interest in their work and would explain their objects and advantages throughout the area in which they exercise a local influence.

In accordance with these instructions the Lieutenant-Governor is pleased to appoint in Bengal as members of the Provincial Committee the following gentlemen who have accepted His Honour's invitation to serve on the Committee :—

REPORT ON THE STATE OF THE SALT MARKET FOR THE SECOND QUARTER OF THE YEAR 1909-10.

No. 5741B., dated Calcutta, the 11th November 1909.

From—SRIGOPAL BHATTACHARJI, ESQ., M.A., B.L., Secretary to the Board of Revenue, L. P., Misc. Revenue Dept.,

To—The Secretary to the Government of Bengal, Financial Department.

Member in charge:
THE HON'BLE MR. W. C. MACPHERSON, C.S.I., I.C.S.

I AM directed to submit the following report on the state of the salt market for the second quarter of the year 1909-10, comprising the months of July, August and September 1909.

2. The quantity of salt of every description cleared during the quarter amounted to 25,55,338 maunds, as compared with 34,60,843 maunds in the previous quarter, and 25,90,510 maunds in the corresponding quarter of the previous year. The net amount of duty levied thereon was Rs. 23,70,857 as against Rs. 31,82,731 in the previous quarter, and Rs. 23,41,801 in the corresponding quarter of the previous year.

3. The subjoined Table I shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter, as compared with the figures of the corresponding quarters of the two previous years:—

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR OCTOBER 1909.

Character of the season.—In the beginning of the month under review, the rainfall was general all over the Province, the fall being moderately heavy in the Bhagalpur Division and also in parts of Birbhum, Midnapore, Muzaffarpur and Singhbhum. Light showers were received later on. On the 17th, a severe cyclone travelled across the eastern districts of the Province, and the rain which accompanied it was heavy in parts of Jessore, Khulna and Nadia.

The average rainfall of the month was below the normal in all districts excepting Hooghly, Nadia, Jessore, Khulna, Champaran, Darjeeling and Purnea, where it was in excess of the normal. The usual rainfall table is appended.

II. *Progress of agricultural operations.*—Sowing of *rabi* crops was in progress throughout the month. The pressing of sugarcane has commenced in some districts of Bihar.

III. *State of standing crops.*—*Aman* paddy was benefited by the *hathiya* rain in Bihar. The condition of standing crops is reported to be good.

IV. *Prospects and probable outturn of harvests.*—Good harvests of autumn crops have been obtained in many districts. The prospects of the winter paddy crop are very hopeful. The cyclone of the 17th did some damage to the paddy crops in the eastern tracts of the Province, but the extent of damage is not serious and will not probably exceed 5 per cent.

V. *Damage to crops.*—The damage done to the paddy crops by the cyclone will not be serious. Some damage was done by insect pests in Balasore and Sambalpur. The heavy rainfall in the beginning of the month did some injury to *kulthi* in Purnea.

VI. *Condition of agricultural stock.*—A very large number of cattle were drowned by the storm in Khulna. There was loss of cattle in Jessore also. The condition of cattle in other districts was fairly good. Diseases have been, however, reported from Burdwan, Midnapore, Hooghly, Angul, Puri, Sambalpur, Hazaribagh, Palamau, Manbhum and from Bihar and the Presidency Division, excepting Shahabad, Saran, Darjeeling and the 24-Parganas.

VII. *Failure of pasturage and fodder.*—The supply of fodder and water was sufficient throughout the Province.

VIII. *Price of food-grains.*—During the latter part of the month, the price of common rice rose in six districts and fell in ten districts. The price is falling in anticipation of a good harvest. Prices of food-grains are generally lower than in the corresponding period of last year.

IX. *Condition of labouring classes and agricultural operations.*—The outturn of the autumn crop has been good in many districts. A good harvest is expected of the winter rice crop. The condition of the agricultural population is satisfactory.

GENERAL SUMMARY.—There was practically no rain during the week excepting a few showers in parts of the Presidency Division. Sowings of *rabi* crops are yet continuing. Harvesting of early paddy is also in progress. Pressing of sugarcane has commenced in some districts of Bihar. Prospects of all crops are on the whole good. Slight damage has been done to early sown *rabi* crops by insect-pests in Patna. The price of common rice has risen in Hooghly, the 24-Parganas, Monghyr, Balasore and Manbhum and has fallen in Burdwan, Nadia, Jessore, Patna, Gaya, Saran, Bhagalpur, the Sonthal Parganas, Angul, Hazaribagh, Palamau and Singhbhum. Cattle-disease is reported from Burdwan, Midnapore, Hooghly, Nadia, Patna, Gaya, Champaran, Muzaffarpur, Monghyr, Purnea, the Sonthal Parganas, Angul, Sambalpur, Palamau and Manbhum. The fodder and water-supply is sufficient throughout the Province.

SUMMARY OF RAINFALL OBSERVATIONS TAKEN IN BENGAL DURING THE MONTH OF OCTOBER 1909.

During the month of October the rainfall was above the average in Hooghly, Nadia, Jessore, Khulna, Champaran, Darjeeling and Purnea. The excess was greatest in Jessore where the fall was 4·89 inches above the normal. Elsewhere in the Province, the fall was below the normal. On an average, South-West Bengal received 3·32 inches, Bihar 1·02 inches, Orissa 1·80 inches and Chota Nagpur 0·56 inch. Expressed in percentage figures, the total rainfall from May to October, *i.e.*, during the South-West monsoon season, was 117 per cent. in South-West Bengal, 101 per cent. in Bihar, 106 per cent. in Orissa and 89 per cent in Chota Nagpur.

The following table compares the rainfall in the four divisions during the month of October with the normal fall, the actual being given as a percentage of the normal. The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total rainfall of the past ten months of the year 1909:—

Meteorological Divisions.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	Actual rainfall of first ten months of 1909 expressed as a percentage of the normal fall for the period.

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF SEPTEMBER 1909.

During the early part of the first week of September fairly general rain fell in the two Provinces. The existence of a depression off the Coramandal Coast caused a modification in the distribution, in consequence of which practically no rain was received by Bengal and the Western Divisions between the 5th and the 10th. A depression which entered Bengal from the south on the 14th caused moderate precipitation in that Province and in Eastern Bengal and Assam during the succeeding three days. By the 17th rainfall had again practically ceased. At the beginning of the third week another depression entered Bengal from the Bay and gave general rain in the two Provinces. Until the last three days of the month when it again became nearly general owing to the passage of a shallow depression into Chota Nagpur, rainfall was somewhat scattered and small in amount.

Pressure on the whole was in defect during the month.

Mean temperature was in slight excess except in Orissa while humidity was a little below normal except in the western portion of Bengal, and in Orissa and Chota Nagpur.

Rainfall was practically normal in Bengal and Orissa but was below the average in Assam, Eastern Bengal and Bihar.

Cloud was in defect toward the east.

Summary of temperature.—The highest temperature recorded was 96·6 at Bankura and Chaibassa and the lowest 69·9 was recorded at Ranchi.

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Eastern Bengal and Assam and of Bengal for the month of September 1909:—

Summary of rainfall.—The rainfall work of the Province has been placed in the hands of the Director of Agriculture, Bengal, and the usual data regarding the actual and normal rainfall during the month are published by that officer. A short table, however, is attached to this report, giving the rainfall recorded during the month at the head-quarters of the various districts of the Province:—

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at in Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables com the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's ane ·ph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported day is for 24 hours preceding 8 A.M. of that day.

present sanctions their advance will be rendered impossible if they are to involve a serious ultimate loss to the public revenue.

109. The principal advances in the year were made as follows :—In Bhagalpur (Rs. 9,01,292), Nadia (Rs. 4,08,982), Ranchi (Rs. 3,51,151), Darbhanga (Rs. 2,92,218), Hazaribagh (Rs. 2,25,160), Jessore (Rs. 1,42,635), Palamau (Rs. 1,32,717), Patna (Rs. 1,20,380), Balasore Rs. 1,12,949), Cuttack (Rs. 1,06,856), Gaya (Rs. 73,909), Shahabad (Rs. 71,550), Monghyr (Rs. 65,295), Bankura (Rs. 65,155) and Angul and Khondmals (Rs. 64,000).

Details of district recoveries.

110. The amount for recovery during the year exceeded Rs. 10,000 in the districts of Darbhanga, Ranchi, Balasore, Muzaffarpur, Champaran, Bhagalpur, Hazaribagh, Jessore, Monghyr, 24-Parganas, Murshidabad, Cuttack, Palamau, Saran, Khulna, Nadia, Shahabad, Sonthal Parganas, Singhbhum, Gaya, Burdwan, Manbhum, Sambalpur, and Birbhum.

In Darbhanga out of Rs. 4,36,334 due for collection within the year, a sum of Rs. 25,416 only was collected. The prevalence of famine necessitated suspension of the balance of Rs. 4,10,918. In Ranchi the amount for recovery was Rs. 3,51,722, out of which Rs. 1,20,227 were collected. The recovery of the balance was suspended for another year in *thanas* Torpa and Karra of the Khunti subdivision owing to the bad harvest. In other *thanas* coercive measures were deferred and interest suspended till the 31st March 1909. The short collections were due partly to the recovery of settlement costs, partly to a rumour that no harm would happen to borrowers if they did not repay the loans till the next year, and mainly to the unsatisfactory crops. Certificates have since been issued against the defaulters in two *thanas* where the borrowers are able to repay. As regards the other *thanas* the Deputy Commissioner reports that before resorting to a general use of the certificate procedure he has deputed a Probationary Deputy Collector to visit each *thana* in turn to make collections on the spot. In Balasore the amount for recovery was Rs. 2,64,031 and that recovered was Rs. 1,31,025. The realization of the balance had to be suspended owing to the poor outturn of crops in some areas, and the total loss of crops in others. In Muzaffapur the amount for realization was Rs. 2,63,598 and that collected was Rs. 60,069. The recovery of the balance was suspended owing to scarcity. In Champaran the amount for recovery was Rs. 1,98,153, but owing to the agricultural distress only Rs. 13,237 were collected and the balance suspended. The amount for recovery in Bhagalpur was Rs. 1,20,919 and that collected was Rs. 28,?84. The recovery of the balance had to be suspended owing to the bad harvests of the year. In Hazaribagh the amount for recovery was Rs. 1,20,741 and that collected was Rs. 64,176. Out of the overdue balance of Rs. 60,712 (including interest) a sum of Rs. 9,033 has been collected since the close of the year. Recovery operations were retarded to some extent by the inability of the postal authorities to provide money-order forms to intending payers. In Jessore the recoverable amount was Rs. 1,17,363, of which Rs. 73,091 were collected. There was some distress throughout the district owing to the high price of food-grains, and the adoption of coercive measures for the realisation of the balances was suspended with the Commissioner's approval till the 31st October 1909. Out of the realizable amount of Rs. 83,631 in Monghyr, Rs. 8,247 only were collected, and the balance was under suspension. The raiyats were unable to pay up their instalments owing to the exceptionally bad season. In the 24-Parganas and Murshidabad the amounts for recovery were Rs. 70,606 and Rs. 56,216 and the amounts collected were Rs. 43,879 and Rs. 39,531 respectively. A considerable portion of the balance in the former is covered by certificates. In Cuttack the amount for recovery was Rs. 46,423 and that collected was Rs. 44,297. In Palamau Rs. 41,176 fell due during the year, of which Rs. 14,192 were collected and Rs. 98 remitted, leaving a balance of Rs. 26,886 outstanding at the close of the year. No coercive measures were taken for the recovery of the balance on account of the bad harvests and high prices of the last two years, though warning post-card notices were issued against the defaulters. In Saran the amount for recovery was Rs. 39,581 and that collected was Rs. 24,178. Owing to the high prices and scarcity the collection of the balance was deferred until the completion of the *rabi* harvest. In Khulna the amount for recovery was Rs. 33,190 and that collected was

Rs. 5,133 only. Coercive measures were not freely adopted on the ground that the raiyats had not completely recovered from the distress of the previous year. The recoverable amount in Nadia was Rs. 26,155, while that collected was Rs. 15,855. The short collection is partly due to the alteration of the date of repayment of an instalment from December 1908 to April 1909. In Shahabad the recoverable amount was Rs. 25,535 and the amount collected was Rs. 11,762. The realization of Rs. 8,553 in the Sasaram subdivision was suspended on account of scarcity. In the Sonthal Parganas Rs. 9,426 were realized out of Rs. 14,077 due during the year. Special arrangements have been made for the realization of the balance. In Singhbhum the amount for recovery was Rs. 13,256, of which Rs. 10,634 were collected. Steps have been taken for the realization of the outstanding balance. In Gaya the amount recoverable was Rs. 12,932, of which Rs. 9,051 were realized. The comparative failure of crops prevented the adoption of stringent measures. In Burdwan out of the recoverable amount of Rs. 12,069, the amount recovered was Rs. 9,174. The balance is in course of realization under the certificate procedure. In Manbhum the whole of the amount of Rs. 11,993 advanced during the year relates to the Dhanbaid subdivision. It was realisable within the year, but Rs. 432 only were collected. Steps are being taken to realize the balance. In Sambalpur the amount for recovery was Rs. 11,968 and the amount collected was Rs. 11,076. The amount for recovery in Birbhum was Rs. 11,512 and the amount collected was Rs. 7,988. Owing to the poor harvests severe measures could not be adopted, and the Commissioner has allowed time up to December next to the Sonthals of the Rampur Hât subdivision.

Financial results.

Appendix XVIII (Part B).

111. The financial results of the working of the Agriculturists' Loans Act are shown in Appendix XVIII (Part B). The interest payable to the Imperial Government for the year in respect of all advances made under this Act was Rs. 2,12,715. The amount of interest collected by the Provincial Government from its debtors during the year amounted to Rs. 91,828 only. The balance of interest which has to be made good from Provincial funds, therefore, amounted to Rs. 1,20,887. The amount of principal remitted during the year was Rs. 6,155, which also has to be borne by the Provincial Government; and the expenses connected with the working of the Act during the year amounted to Rs. 56,644. Therefore, if the figures of the year under report be considered only by themselves, the relief to agriculturists which is afforded by these loans cost the Provincial Government Rs. 1,83,686 during the year. Of course some of the Rs. 1,20,887 of interest which ought to have been, but was not, paid to Government during the year will be recovered in the future, and in other respects also these figures are somewhat misleading. But it seems clear that loans under the Act are not unlikely to involve some loss to the Provincial Government; and though the gain in the avoidance of famine relief should be taken into account on the other side, yet it is evident that careful attention to recovery is required from District Officers.

Loan to Mundaris.

112. In the district of Ranchi Rs. 15,534 principal and Rs. 7,736 interest were due for collection during the year on account of loans advanced in previous years to Mundaris and other aboriginals to enable them to redeem their *sarpeshgi* lands. Out of this Rs. 4,608 principal and Rs. 1,724 interest were recovered. The general agricultural distress which prevailed in the district was responsible for these poor collections. Certificates have since been issued for the recovery of the balance.

PART III.—RENT.

Bengal Tenancy Act.

113. The relations between landlords and tenants in the major portion of the province continued to be governed by the Bengal Tenancy Act.

Chota Nagpur Tenancy Act.

114. During the year under review the laws relating to landlords and tenants in the districts of the Chota Nagpur Division (except Manbhum) have been amended and codified in the Chota Nagpur Tenancy Act (Bengal Act VI of 1908). The greater number of the rules and the forms, required under this Act, have been prescribed, but a few are still under consideration.

115. Difficulties having been experienced in the working of the Bengal Tenancy Act, as partially extended to the districts of Cuttack, Balasore and Puri, Mr. S. L. Maddox, I.C.S., was specially deputed by Government to examine the general question of a self-contained agrarian law for the province of Orissa. He has submitted his report together with a draft code consolidating these laws, and these are now under the consideration of Government.

Tenancy Law for Orissa.

116. The use of rent-receipt forms printed at the Government press is confined to the Government and the wards' estates. Their sale to the public has practically ceased, as private presses supply them at cheaper rates.

Rent-receipt forms.

117. In their circular order No. 11 of March 1908, the Board issued instructions to Revenue officers about the procedure that should be followed in dealing with landlords who contravene the provisions of sections 56-58 of the Bengal Tenancy Act, regarding the preparation, retention and grant of receipts for rents. It does not appear that much result has followed therefrom. In Midnapore there have been a few cases, which are under consideration. In Murshidabad the Collector held an enquiry into the case of a zamindar who systematically refused to give receipts, and imposed fines aggregating Rs. 1,200 in 24 specific cases. In Patna 70 cases were reported to the Collector by Assistant Settlement Officers, of which five were disposed of during the year with the imposition of fines amounting to Rs. 115. In the Tirhut Division there were altogether 24 complaints, of which 20 were disposed of. There were convictions in five cases only. In Monghyr notices of warning were issued to delinquent landlords, and in Bhagalpur fines were inflicted in two cases. In Cuttack there was one case, which ended in a fine of Rs. 10, and in Balasore some cases are under consideration. The Patna Commissioner reports that tenants are generally somewhat indifferent in this matter.

118. Appendix XIX to the report shows the operation in each district under the various sections of the Bengal Tenancy Act so far as it is administered by Revenue Officers.

Working of the Bengal Tenancy Act.

119. *Voluntary transfer, section 12 (3).*—On the whole there was only a small increase in the number of these cases from 53,473 to 54,929. In Midnapore, however, the number rose from 9,218 to 11,175, and in Darbhanga from 567 to 1,455; while their number fell from 11,063 to 8,172 in the 24-Parganas and from 1,063 to 510 in Bhagalpur. No satisfactory general explanation has been offered of the district fluctuations.

120. *Transfer by sale in execution of decrees, section 13 (2).*—The total number of the transfers was higher this year, being 445 as against 235 in the previous year. The abnormal increase in Midnapore (from 6 to 186) is said to be owing to scarcity in Contai. The increases in Nadia and Khulna have been ascribed to unreported local causes. The fall in Patna (from 22 to 2) is said to be due to the landlords refraining from instituting rent-suits owing to survey and settlement proceedings in progress in the district.

121. *Transfer by succession, section 15.*—There was a small increase from 897 to 943 in the number of these cases.

122. *Payment of landlord's fees.*—The figures in Appendix XIII show that there has been some little improvement. This is apparently due to the partial introduction of the system by which the fees are transmitted in some cases by postal money-orders. The apathy of the landlords about withdrawing the money remains practically unaltered.

123. *Preparation of price-list, section 39.*—These were published regularly, and, as usual, no objection was taken to them.

124. *Commutation of rent payable in kind, section 40.*—These cases rose from 2,907 to 3,150, exclusive of cases filed before the settlement courts. The number increased from 929 to 1,651 in Midnapore, and from 710 to 1,055 in Darbhanga. The former increase is said to be the result of the high prices of produce, and the latter to the facility afforded in filing applications at subdivisional head-quarters. The decreases in Patna and Shahabad are said to be due to the survey and settlement operations, which facilitate institutions before the settlement courts.

125. *Orders for the appraisement or division of crops, sections 69 and 70.*—The annual figure continued to increase. In Midnapore the number of applications was 164 as against 51 cases in 1907-08, the subdivision of Contai contributing as many as 150 cases. These arose out of a quarrel between the *chakdars* and their produce-rent raiyats Elsewhere the fluctuations were insignificant.

126. *Registration of landlords' improvements, section 80.*—The most notable increase in these applications occurred in Champaran, where the indigo concerns at Pipra and Sathi have been effecting improvements in irrigation.

127. *Notice of re-entry upon lands by landlords, section 87 (2).*—The fluctuation is slight, and needs no remarks. Landlords as a class take little advantage of this section.

128. *Applications for survey and preparation of record-of-rights under Chapter X.*—There were 65 applications in 1908-09 as against 106 in 1907-08. The Burdwan Division had 46 cases and the Presidency Division 19. These are the two divisions in which general operations have not yet been originated.

129. *Progress made in surveys and preparation of record-of-rights under Chapter X.*—The report of the Director of Land Records, Bengal, for the year ending the 30th September 1908 gives a review of the progress of the larger surveys and settlements under his control. As regards the operations carried out under the supervision of the Commissioners, a history of settlement made in Government estates has already been furnished in a previous paragraph of this report under the head "Settlement," and Appendix XII shows the progress made in proceedings taken in respect of the private estates. The total area under settlement was 84,196 acres in 425 villages, with 21,477 tenants. The largest areas were in Hooghly (25,828 acres), Jessore (18,656 acres), and Nadia (7,921 acres), Midnapore (7,845 acres), Bankura (6,837 acres) and Khulna (6,444 acres). The records of 122 villages were finally published and the rents of 7,924 tenants settled up to the 31st March 1909. The total expenditure incurred during the year amounted to about Rs. 25,000.

130. *Local enquiries held under the orders of Civil Courts, sections 158 and 31.*—As against 7 cases in 1907-1908, there were 36 cases in 1908-1909, 30 having been contributed by Shahabad alone.

131. *General.*—It will appear from the above review that of the districts in which there has been no general survey and record-of-rights, the landlords and tenants of Midnapore appear to have recourse most freely to these provisions of the Bengal Tenancy Act. There is reason to believe that settlement operations in the extensive Government estates of that district have educated Government tenants in their rights and duties, and that the lesson has to some extent been conveyed to the landlords and tenants of private estates also. The Commissioner reports that there are some signs of the straining of their mutual relations; and in the opinion of the Board the time has come for a survey and record-of-rights for the whole district.

Rent suits under Act X of 1859 and Bengal Act I of 1879 repealed by Bengal Act VI of 1908 (Chota Nagpur Tenancy Act).

Appendix XX.

132. Act X of 1859 is in force only in the districts of Cuttack, Balasore and Puri in the Orissa Division, Darjeeling and Manbhum. In the remaining districts of the Chota Nagpur Division rent suits are tried under the Chota Nagpur Tenancy Act, 1908. In Sambalpur such suits are tried by the Revenue Officers appointed as Munsiffs under section 36 (1) (*a*) of the Bengal, North-Western Province and Assam Civil Courts Act XII of 1887 as amended by section 16 of the Sambalpur Civil Courts Act IV (Bengal) of 1906; and all appeals lie not to to the Deputy Commissioner, but to the Subordinate Judge.

133. In the Orissa Division 25,719 suits of all kinds were instituted, as against 27,506 in the preceding year. The decrease is common to all the districts except Sambalpur, and is mainly due to the fact that the zamindars in the affected tracts were debarred from taking coercive measures to realize arrears of rent from defaulting tenants by the terms on which they

themselves were granted the suspension of land revenue which the local scarcity necessitated.

134. In the Chota Nagpur Division 7,082 suits for arrears of rent were instituted, as compared with 5,899 in the previous year. The increase was common to all the districts except Manbhum, where there was a slight decrease of 55 suits. The increases of 428 and 390 suits in Hazaribagh and Ranchi respectively are ascribed to the fact that the last day of two agricultural years fell within the year under report, and that suits had to be filed in order to avoid limitation. In Singhbhum almost all the suits instituted during the year came from the Dhalbhum estate. The number of appeals preferred in Ranchi fell from 113 in 1907-08 to 33 in 1908-09. This is due to the fact that the extensive use of the survey and settlement record by the lower courts allowed fewer opportunities for contesting their decisions.

135. Excluding miscellaneous applications, the percentage of pending cases over the total number of cases for disposal is as follows in each district :—

Hazaribagh ...	28·3	Palamau	16·6
Ranchi ...	17·3	Singhbhum	16·1
Manbhum ...	8·8		

The reasons for the disproportionate delay which arose in Hazaribagh as compared with Ranchi have not been explained.

136. When a record-of-rights has been prepared it is desirable that officers who try rent suits should systematically make careful reference to the record. Accordingly the Board issued instructions to inspecting officers to satisfy themselves during their inspections that the record-of-rights was being utilised in the desired manner. It is reported that the result of these inspections is satisfactory.

137. During the year 1908-1909 Bengal Act I of 1879, as amended by Bengal Act V of 1903, was in force in the several districts of the Chota Nagpur Division, except Manbhum, until the 11th November 1908, when it was repealed by Bengal Act VI of 1908 (the Chota Nagpur Tenancy Act, 1908). The report of the Commissioner and the statistics furnished by him do not show the figures relating to the two Acts separately.

138. It is reported that 55 cases were instituted in the district of Ranchi against landlords who were alleged to have failed to give proper receipts for rent. Of these 5 were rejected, 5 struck off, 3 dismissed, 34 withdrawn and in one case only the zamindar was fined. In Hazaribagh there were only two such cases, of which both remained pending at the close of the year. In the course of enquiries into loan applications it was found that 12 landlords did not grant printed receipts. Proceedings were instituted against four of them, and the others were let off with a warning. One case under section 45 of the new Act was filed in the Gumla subdivision of Ranchi, and was pending at the close of the year. Two cases under section 12 of the Act were instituted during the year in Ranchi, in consequence of the superior landlords' refusal to recognize the petitioners as their under-tenants and to register their names as such in their *sarishta*, and there was one case pending from the previous year. The applications were granted in two cases, and notices to register the names of the petitioners were issued to the zamindars concerned. The third application was rejected.

Operation of the penal provisions of Bengal Act VI of 1862 and Bengal Act I of 1879 (repealed by Bengal Act VI of 1908).

Appendix XXI.

139. In the Orissa Division damages were awarded to the plaintiff on decree of his claim for arrears of rent in one case only. In the Chota Nagpur Division Hazaribagh is the only district in which such damages were allowed. The percentage of these suits to the total number decided rose from 8·7 in 1907-08 to 25 in 1908-09. Only two Courts awarded damages, and the exercise of the discretion permitted by the law appears to vary in an unusual degree with the personality of the judge. Under the new Act it has become obligatory to record in writing the reasons for granting damages; and it is desired that the Commissioner will satisfy himself that this provision is observed in future, whenever a court considers that an award of interest is not adequate, and that damages in lieu of interest are justified by the merits of the case.

Applications for aid in distraint and for sale of distrained property.

Appendix XXII.

140. As compared with the year 1907-08, there was an increase of 10 in the number of applications to District Officers for aid in distraint, and 228 in the number of applications to Civil Court amins. The latter are confined to the Orissa Division; and out of the 367 cases disposed of sale took place in 32 cases only. All the others were compromised or withdrawn or security was taken.

Notices of enhancement and relinquishment

Appendix XXIII.

141. These notices relate to the districts in which the Bengal Tenancy Act is not in force. As compared with the previous year the number of notices of enhancement increased by 43 and the number of notices of relinquishment decreased by 18. The 31 notices in Darjeeling were in connection with two estates only. In one case an estate in Kurseong had changed hands and the new proprietor (a Marwari) filed 20 notices of enhancement. In another case the Amalgamated Tea Estates Company filed 11 petitions of enhancement. There was only one case of relinquishment in Hazaribagh, as against 17 in the previous year.

PART IV.—MISCELLANEOUS.

Tours of Commissioners.

142. In the Burdwan Division Mr. Maddox, who was in charge for seven months, was on tour for 73 days and Mr. Macpherson for 55 days In addition to his usual inspections, Mr. Maddox twice visited the tracts in the south of Bankura in which famine relief works were in progress. During his tours Mr. Macpherson made the usual inspections and inquiries and visited the head-quarters of all the districts of the division and four subdivisions. The Commissioner of the Presidency Division inspected all the district and subdivisional offices. In the Patna Division Messrs Levinge, Clark, Earle and Maude were on tour for 117 days. Mr. Earle toured for 104 days, of which eight days were spent in visiting the Sonpur fair. He visited all the districts and most of the subdivisions, and also travelled in the interior to see the state of the crops and general condition of the people. Mr. Maude, who assumed charge on the 22nd February 1909, inspected the Nawada and Aurangabad subdivisional offices. Mr. Greer took over charge of the Tirhut Division on the 18th November 1908 and spent 48 days on tour, visiting all the district head-quarters. The organization of a new office called for considerable attention at his own head-quarters; but he made repeated tours in Darbhanga and Muzaffarpur in order to inspect famine and test-work operations. In the Bhagalpur Division Mr. Walsh was on tour for 96 days. He visited every district head-quarters and every subdivision, except Araria and Godda, and went through the area liable to famine in the Supaul, Madhipura and Banka subdivisions of Bhagalpur. He spent ten days in December and January in the Damin-i-koh, inquiring into the conditions of the Sonthals and Paharias. In the Orissa Division Mr. Duke was out on tour for 22 days and Mr. Levinge for 101 days. Of these 123 days, 36 days were spent in the Garhjat States. During the 22 days of his tour Mr. Duke spent 15 days in Puri and Balasore and the remaining seven days in the Tributary States of Moharbhanj and Nilgiri. Mr. Levinge during his tour inspected the offices at the head-quarters of the five districts of the division and visited three subdivisions. He also visited eight Garhjat States. In the Chota Nagpur Division Mr. McIntosh spent as much as 186 days on tour. He made extensive inquiries about the material condition of the people and the adequacy of the relief operations in the districts of Hazaribagh, Ranchi and Palamau. He also visited each district head-quarters and each subdivisional head-quarters. Two Political States (Seraikela and Kharsawan) were also visited by him. During his tour in January he selected a site for a new subdivision at Simdega in Ranchi.

Tours of Collectors.

143. All the Collectors made the usual tours of inspection, which were in many districts protracted by the necessity of close inquiries into the effects of the bad season on the economical condition of the people.

Tours of Subdivisional Officers.

144. The Subdivisional Officers devoted their attention to the usual inspections and inquiries and their tours were generally satisfactory. Except the Subdivisional Officers of Serampore in Hooghly, Satkhira in Khulna, Kishenganj in Purnea, Dumka in

the Sonthal Parganas, and Bhadrak in Balasore, all were out on tour for more than the minimum number of days fixed by District Officers.

Inspection of district offices and treasuries—

(1) By Commissioners.

145. All the district offices were inspected during the year by the Commissioners of divisions and no serious irregularity was discovered. Similarly, the district treasuries of Burdwan, Birbhum, Bankura, Midnapore, Howrah, Murshidabad, Monghyr, Bhagalpur, Purnea, Darjeeling, Sonthal Parganas, Cuttack, Angul, Sambalpur and Hazaribagh were inspected. The inspection of all the district treasuries except that of Hooghly has now been completed within the two years 1907-1908 and 1908-1909. No material irregularity was discovered.

(2) By District Officers.

With the exception of Khulna, Shahabad, Monghyr, Bhagalpur and Cuttack, all the district offices were completely inspected. In Monghyr most of the departments were inspected at the end of the year, and the remainder immediately after the close of the year. The Board have considered and accepted the explanations offered by the officers concerned of their failure to inspect. The sadar treasuries of Howrah and the Sonthal Parganas were inspected only once for reasons found by the Board to be adequate. All the others were inspected twice by the District Officers concerned.

Inspection of subdivisional offices and treasuries—

(1) By District Officers.

146. All the subdivisional offices and sub-treasuries, except those of Jajpur and Banki (where the Collector's explanation is adequate), were inspected by the District Officers during the year. No serious irregularity was brought to light.

(2) By Subdivisional Officers.

All the subdivisional offices, except those of Kishenganj, Rajmahal, Bhadrak and Giridih, were inspected by the officers in charge. The sub-treasuries at Aurangabad in Gaya and Bhadrak in Balasore were inspected only once. All the other sub-treasuries were inspected twice and no serious irregularity was brought to light. The explanations of their failure to inspect, offered by Mr. Day at Rajmahal and Maulvi Ashfak Husain Khan Bahadur at Aurangabad, are not satisfactory.

Tours and inspections of the Members of the Board.

147. The Hon'ble Mr. R T. Greer, C.S.I., visited Bankipur in August 1908. In December the Hon'ble Mr. Slacke inspected the office of the Collector of Khulna and in the following January that of the Collector of Patna. In February 1909 he visited Sambalpur and conferred with the Commissioner of Orissa and the Deputy Commissioner. Later during the same month he inspected certain departments of the Muzaffarpur Collectorate.

The Hon'ble Mr. W. C. Macpherson, C.S.I., Member in charge of the Miscellaneous Revenue Department, was on leave from the 16th July to the 11th October 1908. In November last he inspected the Calcutta Custom House buildings and examined the proposals for improved structural arrangements. In December 1908 and January 1909 he visited the Patna and Gazipur districts and inspected the Opium Factories, and discussed with the Agents important matters relating to opium administration. In March last he inspected the Sulkea Salt Golas in order to ascertain whether an extension of the existing golas would provide sufficient bonding accommodation to meet the increasing demands of the trade, and in the same month he inspected the newly-erected brewery at Entally

Records.

148. The total sum sanctioned by Government during 1908-09 for the maintenance of record-rooms in Bengal was Rs. 47,640. From this amount allotments were made for the following purposes:—

(i) District record-rooms.
(ii) Commissioners' record-rooms.
(iii) Board's record-rooms.
(iv) Board's office—consolidation of indexes.
(v) Precautions against fire.
(vi) Storage, arrangement and preservation of old records.

The work of consolidating the Board's indexes from the year 1878 onwards made much progress. The appointment of resident care-takers and the supply of extinguishers were the measures taken to reduce the risks from fire.

149. During the year under report the records in the offices of Collectors and Commissioners were generally in fair condition, and due attention was paid by nearly all officers to the classification and periodical destruction of B and C papers. With the help of the Controller of Office Systems, the destruction of unnecessary and useless papers made some progress; the regular transmission of records, from "current" record-rooms and from Collectorate departments to the record-room of old records, was systematized; and plans of all record-rooms are being made to show the situation of all classes of records.

150. The Hon'ble Member in charge personally inspected the district record-rooms of Khulna, Patna, Sambalpur and Muzaffarpur. The services of Mr. R. J. Watson, Controller of Office Systems, were also utilised freely in the inspection of district record-rooms; and defects of a general character, which were brought to light in the course of these inspections, led to numerous amendments in the existing rules.

151. On the whole the Board are satisfied that more attention is being paid by local officers than has been the case in the past to this somewhat unattractive but essentially important branch of their duties. But it is certain that if they allow this attention to be relaxed, the result will be an immediate relapse into the state of confusion which was far too common in the past.

Library.

152. The district libraries are, it is generally reported, in good order, and have been kept in accordance with the orders of the Board on the subject.

Controller of Office Systems, Bengal.

(1) Burdwan.
(2) 24-Parganas.
(3) Murshidabad.
(4) Muzaffarpur.
(5) Purnea.
(6) Balasore.
(7) Puri.
(8) Cuttack.

153. With the exception of one month's privilege leave from the 6th May to 5th June 1908, Mr. Watson was employed under the Board of Revenue throughout the year. He continued the work of inspection and reorganization of the record-rooms noted in the margin, and commenced the work of inspection and reorganization of the Forms and Stationery Departments throughout Bengal. In Calcutta he inspected the office of the Inspector-General of Prisons, and his suggestions in connection therewith have been accepted. He has also reported on the proposed new Forms Department building to be used in conjunction with the new Jail Press.

The Board are of the opinion that Mr. Watson has rendered valuable services during the year, but very much remains to be done before the record-rooms can be said to be in fair order. Even then constant supervision will be required, for which Collectors have not time. Hitherto, the frequency with which the Deputy Collectors in charge of record-rooms have been transferred, has prevented them from exercising proper control; but it is hoped that in future this cause of inefficiency will be less frequent.

Treasure Trove Act, VI of 1878.

154. During the year under review seven new cases were reported, as against the same number in the previous year. Two cases were of some interest. In one case four labourers employed in the house of one Budhan Kumhar in Patna City found Rs. 248 in current coins buried under-ground and took them away without the owner's knowledge. Proceedings were taken under section 20 of the Act, and the accused persons were convicted. Out of Rs. 248, a sum of Rs. 186 only was recovered and placed in revenue deposit. The owner of the house claiming the amount, was given time to bring a suit to establish his claim. The other case was in Shahabad. One Mussamat Bhagirathia found three ingots of gold, and made over two of them to a relative of hers for making ornaments. The latter made over the ingots to two goldsmiths, who swindled him by substituting pieces of brass. The two goldsmiths were tried and convicted. The third ingot weighing 51½ tolahs, and valued at Rs. 1,082, was taken by the Collector and sold by auction under the orders of Government for Rs. 995.

Training of Munsiffs in survey and settlement work.

155. In accordance with standing arrangements, six Munsiffs were deputed for training in survey and settlement work at the beginning of the field season of 1907-08. Of the four Munsiffs posted to the Bihar Settlement, one had to leave it on account of an accident, and one of the two officers sent to the Chota Nagpur Settlement had to revert to the judicial line, because

he was physically unequal to the work. The remainder worked to the satisfaction of the Settlement Officers and with credit to themselves. They did as much work as other Assistant Settlement Officers. The arrangement continues to prove very successful.

Weather and crops.

156. Appendix XXVII shows the mean rainfall of each district in each of the last five years, and also the normal mean. The rainfall of the province was below the normal mean in all districts, except Bankura, Hooghly, Howrah, 24-Parganas, Puri, Sambalpur and Ranchi, and it was extraordinarily deficient in those districts which have the lowest mean rainfall, namely, the whole of Bihar and Palamau.

Burdwan Division.

157. The rainfall in the Burdwan Division generally was for the most part copious and well distributed at the beginning and thoughout the sowing season, though it commenced somewhat late in Birbhum. The *bhadoi* crops suffered considerably from excessive rain in July, and from the ravages of insect pests; so that on the average this harvest in the division was only about 70 per cent. of the normal, and was distinctly poor in Howrah and Bankura. The jute crop was poorer still, as it suffered not only from excessive rain in July, but from want of rain at the proper season for sowing. Owing to the early cessation of the rain, the winter rice crop was, for the division as a whole, about 15 per cent. below the normal. In Bankura it slightly exceeded the average, but in Howrah it was only three-fourths of a normal crop. The total absence of rain from the beginning of October seriously affected the *rabi* harvest, and the outturn for the division was only about 57 per cent. of a normal crop.

Presidency Division.

158. The rainfall was generally badly distributed, It was excessive in June and July, and practically ceased in October. Still the total outturn of the crops was better than that of the preceding year. In the 24-Parganas it was slightly above the normal; in Khulna it was slightly below, and in the remaining districts considerably below the normal. Generally speaking, the heavy rains of June and July damaged the *bhadoi* crops, and, to a certain extent, the winter rice also; whilst the winter rice and *rabi* crops were affected by the drought which began in October. In the Baraset and Basirhat Subdivisions of the 24-Parganas district the *bhadoi* and winter rice crops were also damaged by insect pests. In the Sundarbans tract of the 24-Parganas and Khulna the outturn of the winter rice crops was satisfactory. In Nadia the outturn of the both *bhadoi* and winter rice crop was poor, and owing to the early cessation of the rains the area under the *rabi* crops was greatly contracted. In Murshidabad the *rabi* crops were benefited by a little rain in the cold weather.

Patna Division.

159. In Patna and Shahabad the rainfall was very deficient in October, and there was practically no rain in November and December in any of the districts. The want of sufficient rain during the monsoon season and its early cessation adversely affected the outturn of the *bhadoi* crop. As regards the winter rice, the absence of rain from October to December seriously diminished the produce. The *rabi* crops suffered early in the season owing to the want of rain and the absence of moisture in the soil, but favourable rainfall in January last much improved their condition, and much more well irrigation than usual was adopted. The result was a comparatively fair outturn.

Tirhut Division.

160. The rainfall during the year was considerably below the average and badly distributed. Want of sufficient rain during the monsoon season prevented the sowing of the full normal area under the *bhadoi* crops; and the draught between the middle of July and the early part of September interfered with their growth and the transplantation of the winter paddy. The draught from September to the close of the year resulted in the failure of the winter paddy over a large portion of the division, and reduced the area of the *rabi* sowings. In parts of the *sadar* and the Sitamarhi subdivision of Muzaffarpur, the paddy was a total failure, and scarcity resulted. Champaran and Saran also suffered, though less reverely. The failure in Darbhanga was bad; the people had little resisting power, and famine relief operations became necessary in a great part of the district.

161. The general result of the bad distribution of the rain on the harvests of the year was that all the crops suffered more or less in all the districts in the division, except in the Sonthal Parganas, where the outturn was generally a little better than that of the previous year. Out of the three seasonal crops, viz., *bhadoi*, winter rice and *rabi*, winter rice suffered most, especially in Purnea where it is the principal of the food crops. The jute crop is of considerable importance in that district, and great loss was caused to the cultivators owing to the want of sufficient water for steeping the fibre.

Bhagalpur Division.

162. The rainfall was generally insufficient until the middle of June, but there were heavy rains in July and August, resulting in floods in parts of the division, which did some damage to the *bhadoi* and winter rice crops in the low-lying tracts of Puri, Balasore and Cuttack. Generally speaking, however, the condition of both crops was good throughout the division. The rainfall was deficient towards the end of September and the beginning of October, and, but for this the winter rice crop would have been a bumper one. The short rainfall of October also retarded *rabi* sowings and injuriously affected the outturn of the crop. In Sambalpur the rainfall of the year was the highest in the quinquennial period, and the outturn of the various crops was above the average.

Orissa Division.

163. The distribution of the rainfall was on the whole good and, but for the somewhat abrupt cessation of the monsoon would have been very favourable. The outturn of all the crops was much greater than in the previous year. In Ranchi, Manbhum and Singhbhum the crops were distinctly good; in Hazaribagh they were very fair; in Palamau they were only fair. Throughout the division the *rabi* crop gave the poorest results. Except in a small area in Palamau where there has been a succession of bad or indifferent crops, the crop outturn of the division has been so satisfactory as to enable the people to recover from the scarcity which ensued on the bad crops of 1907-08.

Chota Nagpur Division.

164. The outturn of crops is shown for the year under report, and for the four preceding years, in Appendix XXVIII. It has been prepared in the form prescribed in paragraph 4 of the Government order No. 4429, dated the 26th December 1901, with the object of providing information for reference in case of scarcity.

165. The average prices during the last three years of salt and of the principal food-grains—rice, wheat, barley, gram and maize—are shown in Appendix XXIX. Compared with the previous year, common rice was cheaper in all districts excepting Howrah, Patna, Muzaffarpur, Darbhanga, Monghyr, Purnea, Puri, Hazaribagh and Ranchi. Wheat was much dearer than in the preceding year in all districts excepting Murshidabad and Champaran. Barley was cheaper in Murshidabad, Patna, Gaya, Shahabad, Muzaffarpur, Darbhanga, Champaran, Monghyr and Palamau, and dearer in all the other districts except Singhbhum. Gram was also much dearer in all districts except Murshidabad. Khulna and Monghyr; in Gaya alone the price was unchanged. In 9 out of 17 districts there was a slight fall in the price of maize; in Calcutta the price was stationary; in the remaining districts there was a rise. There was a substantial fall in the price of salt in all districts except Howrah, Nadia and the Sonthal Parganas. The price was stationary in Calcutta and Sambalpur.

Prices of food.

166. In the Burdwan Division there was no appreciable modification in the wages and demand for labour. Wages generally remained at the very high level of 1907-1908, and even exceeded it in Hooghly and Howrah, owing to the demand for labour in industrial concerns. In the Presidency Division local causes led to a slight rise in wages in Khulna; but in the 24-Parganas there was a slight fall towards the end of the year, in consequence of the good harvest of winter rice. In the Patna and Tirhut Divisions the high price of food-grains tends to force wages upwards; and subsidiary causes contributing to the same result are the greater demand for skilled labour in towns, mills and

Wages of labour.

places where railway construction is in progress, and the emigration of labouring classes to industrial centres in Eastern Bengal, Assam and elsewhere. A strike occurred in the Bettiah Subdivision in April 1908, because cultivators wanted to commute the wages of their labourers from grain to cash on the basis of the lower prices of previous years. The labourers refused to work, and the cultivators themselves had to cut their *rabi* crops. In the Bhagalpur Division the labourers of the Bhagalpur district are quite willing to work at the old rate of grain wages, but are reluctant to work at the old rate of money wages. In Purnea wages rose to eight annas or more a day in the jute season. In Darjeeling the tea industry has continued to suffer from a short supply of labour. In the Sonthal Parganas a rise in wages took place in the Pakaur and Rajmahal Subdivisions.

In Orissa this tendency to an increase in wages was seen in Cuttack, Puri and Sambalpur; but in Angul the cultivators tried with some success to reduce the grain wages of their labourers. In the remaining district, Balasore, wages remained stationary. In the Chota Nagpur Division the labour market continued active, and the wages of labourers remained high.

Material condition of the people.

167. The outstanding feature of the year was the comparative poorness of the harvests, succeeding two years of bad crops. In consequence the year was one of hardship for almost all cultivators, except the small minority whose lands are so extensive that they are certain to have a surplus of grain for sale, however poor the year. In addition the resulting high price of food-grains caused distress to families living on small fixed cash incomes, and to a less extent to labourers, though wages responded quickly to the rise in the price of grain. The measures adopted by Government included an unprecedentedly liberal grant of loans under the Land Improvement' and the Agriculturists' Loans Acts, extended to every district where there was need, and the opening of relief works for the able-bodied and gratuitous relief for the enfeebled, where the distress was acute. The labouring classes also moved a little more freely in search of work, though the aboriginal and semi-aboriginal tribes and castes as usual proved much the most mobile perhaps the most distressed districts was Darbhanga. There the population is very dense, and is reported to be specially deficient in the spirit of self-help, affording a marked contrast to the self-resource of the people of Saran. In Bhagalpur very considerable progress was made in improving the local irrigation works, in which task Mr. Lyall has been successful in obtaining the co-operation of many of the more enlightened zamindars. In Nadia also very large sums of money were advanced (free of interest) for the construction or improvement of tanks, but these were mainly for drinking purposes.

There was very serious epidemic disease in many of the districts and, though the mortality from plague generally decreased, there was a great increase in the deaths due to small-pox and cholera.

There was a slight fall in prices towards the end of the year, but good crops for two successive years will be required in most districts to restore to the agricultural classes their former economical condition.

Economic developments.

Burdwan Division.

168. In the district of Hooghly the hand-loom industry continues to flourish, and the condition of the weavers has improved. The Government Central Weaving School at Serampore was opened in January last. It consists of two branches:—(1) a higher class for the instruction of men likely to become manufacturers, or assistants to manufacturers, or teachers; and (2) a lower class for the instruction of artisan weavers and their sons. The other industries of the district, such as silk-weaving, brass and bell-metal works, brick-making, etc., remained in much the same state as before. In connection with the agricultural and industrial exhibition held at Chinsura in February, attempts are being made to introduce new industries into the district, and to effect improvements in existing ones. A steel trunk factory has been established at Chinsura, and an effort has been made to introduce glass-blowing, but so far it has not been successful. There is no economic development noticeable in Midnapore. In Burdwan the brassware industry at Dainhat and Bogunkola is declining, owing, it is said, to the difficulty of transport due to the gradual silting up of

the Bhagirathi. Silk weaving in the Katwa subdivision is more remunerative than before and cotton weaving is flourishing. *Biris* (country-made cigarettes) are manufactured in Asansol and are gradually taking the place of imported cigarettes. Tea drinking is gaining ground among labourers in mines and factories at Asansol. The Collector of Burdwan reports that the people of the district are extremely lethargic and conservative and do not care to take up any new venture, so that there is no probability of any financial or industrial combination in the near future. The co-operative credit society which was started last year at Kesabpur with an advance of Rs. 200 from Government is reported to be doing tolerably well, and the capital is said to have increased to Rs. 800. In Bankura the use of rock and *karkach* salt is said to be spreading in consequence of the movement in favour of indigenous industries. In Birbhum, the Sub-divisional Officer of Rampur Hât reports that, in spite of a series of bad years, the standard of comfort among the labouring classes seems to have risen continually. The use of tea, cigarettes and matches is spreading among the labouring classes, and the higher classes indulge in watches, bicycles, gramophones and harmoniums to an increasing extent.

Presidency Division.

169. In Murshidabad the indigenous weavers have made considerable improvement, and in many cases country looms have been replaced by fly-shuttle looms. These are also largely used in Jessore and Khulna, but improved patterns have not yet been adopted in the latter district. In Murshidabad the manufacture of steel boxes and trunks was prospering and a considerable trade was carried on in silk cloths and bell-metal. Agricultural and industrial exhibitions were held at Basirhat and Baraset in the 24-Parganas, at Kasimbazar in Murshidabad, and at the *sadar* stations of Jessore and Khulna, and every encouragement was given to these exhibitions by the District Officers. The Collector of Khulna remarks that the people of that district do not yet show any grasp of the principles of limited liability and joint-stock enterprise. The Collectors of the 24-Parganas and Jessore have also noticed the absence of indigenous joint-stock enterprise among the people, and Mr. Bompas regards the aversion of the higher castes for trades and industries as a formidable difficulty in the way of economic development. Owing to depression in the trade the extension of jute cultivation received a check in all parts of the division.

Labour is highly paid in parts of the 24-Parganas, where there are important industries established by European capital and enterprise, and its standard of living is rising. Umbrellas, shoes, cigarettes, scents and aerated waters are now necessaries with labourers. In Nadia and Murshidabad the standard of living is gradually rising among all classes. The Collector of Murshidabad notices a marked increase in the use of bicycles by the middle class town-people. The habits of tea drinking and smoking cigarettes are on the increase in Nadia and Murshidabad.

Patna Division.

170. The condition of the Patna Division remains much the same as before as regards economic developments. The younger generation in the towns has a tendency to live more comfortably, and the use of some of the articles, which were formerly classed as luxuries, is now regarded as a necessity. The Bihar Industrial and Agricultural Exhibition was, as usual, held at Bankipore and was well attended. In the district of Gaya the mica mine industry in the Nawada subdivision and the lac factories at Imamganj and Raniganj continued to be worked during the year, and the latter industry is reported to be in a flourishing condition. The corn mill in the town of Gaya, started two years ago, continues to be worked. Besides husking paddy, the mill was used for crushing tobacco leaves, grinding flour and preparing oil. The business is reported to promise well An ice manufacturing company has also been recently started there. The Collector of Shahabad does not expect any speedy improvement in industries, as he says that the people of his district are purely agricultural and generally averse to innovations. The proposed light railway from Arrah to Sasaram is likely to open up the country and help in the development of the natural resources of the district; and the tramway from Dehri-on-Sone to

Akhbarpur, which is now being taking up, will afford the means for exporting forest produce from the Banskati Mahals and other jungle tracts around Rohtas.

Tirhut Division.

171. The economic condition of the Tirhut Division undergoes little change, the people being conservative and deficient in combination, enterprise and organization. The only noticeable social changes are the growth of the habit of smoking cigarettes among the poorer classes in urban areas, and the use of tea and aerated waters among the richer classes, both in the towns and country. The co-operative credit societies have so far shown no signs of success. There is in the district of Muzaffarpur a conspicuous absence of efforts for the improvement of agricultural methods; some impetus has, however, been given in this direction by the Agricultural Department in establishing an agri-horticultural exhibition, comprising all the the agricultural and horticultural industries of Bihar. In the Darbhanga district the only manufactures of importance are indigo, sugar, salt and saltpetre, and all these are reported to be in a fairly good condition. The decline in the cultivation of indigo has been to some extent arrested by the introduction of the new Java-Natal seed; and the industry is now just holding its own, in spite of bad seasons and low prices. The indigo and sugar industries are the most important in the Champaran district. Owing to drought the outturn of each crop was poor and each trade has suffered in consequence. The decline in the selling price of jute has led some factories to give it up altogether. A machine for manufacturing mother-of-pearl buttons, started during the year in the interior of the district, is said to be making progress. The Marhaura sugar factory in the district of Saran has been recently closed for want of sugarcane consequent on the scarcity of rain.

Bhagalpur Division.

172. The construction of the factory buildings of the Peninsula Tobacco Company in Monghyr, begun in 1907-08, was completed during the year under report, and the manufacture of cigarettes and tobacco is now carried on in the factory on a large scale. The habit of cigarette smoking is reported to be on the increase. A mill for *surki*, flour and oil was opened in Monghyr, but the work done has been on a very small scale. Messrs. Ambler and Company's slate quarrying business is developing, and several improvements have been introduced during the year. The mica mines in the Jamui subdivision show no sign of expansion, the demand for this product having fallen off. Sugar is manufactured by country processes in the Jamui subdivision and *gur* (molasses) is exported in considerable quantities. In the Begusorai subdivision foreign sugar is said to be regaining its popularity. Cloth is woven in country looms in various parts of the district and meets with so brisk a demand that weavers were better off than other classes. In Bhagalpur steps have been taken there to improve agricultural implements, etc., and attempts have been made to establish co-operative credit societies and agricultural banks for the cultivators and a fair amount of success has been achieved in Madhipura owing to the interest taken by the Subdivisional Officer. In addition to one such society established last year at Gulama, five agricultural banks have been started in the subdivision by the Subdivisional Officer's personal influence. Tea drinking and cigarette smoking have become common among the educated classes. The establishment of the tobacco factory at Monghyr has flooded the market with cheap cigarettes. In the Sonthal Parganas the same growth of the use of tea and cigarettes is observed. Owing to the sudden fall in the price of lac, business in the factories at Pakaur has become dull, and the profits derived by the aboriginals, who grow it largely, diminished during the year under report.

Orissa Division.

173. There was no noticeable change in the ordinary habits and methods of life of the people of Orissa Division during the year under report. The Collector of Cuttack writes:—

"Distress at home compelled enterprise abroad, and there was a considerable emigration to Calcutta and other places. One alleviating feature was the steady increase of money-order payments received from relatives out of Orissa."

In Balasore the habits of drinking tea and smoking cigarettes have grown up among the poorer classes, chiefly in the towns. The Collector of Puri writes:—

"Trade is almost an unknown thing among the indigenous population, though people from other parts of the country do a large trade in rice throughout the district. The art of weaving is gradually dying out of the district, and yet no endeavour is made to improve the method by introducing the fly-shuttle loom or the hand-loom or by any other means."

The people of Angul are very backward, and live chiefly on their home products; but within the last few years they have been spending more on clothes and other imported articles. Only a few among them follow any non-agricultural industry or trade. The Kandhs are said to have been much more temperate of late. The habits of the people of Sambalpur are undergoing little change. Tea, manufactured cigarettes and such like luxuries are rarely used. The demand for education, however, is on the increase.

Chota Nagpur Division.

174. In Hazaribagh there has been a steady progress in the development of the mineral resources of the district. New coal fields are being prospected, mica mining is being taken up by new firms, and some prospecting for other minerals has been done. The mica industry, however, was not very flourishing, and nearly all work was stopped during the latter part of the year owing to the dulness of the American market. A new coke and by-product plant, the first of its kind in India, has been started by the East Indian Railway Company in the Giridih subdivision. In Ranchi grain *golas* and co-operative credit societies have been started in a few Government estate villages. The aboriginals, who form the majority of the cultivators of the district, are taking to the use of machine-made European cloths, brass and enamelled utensils, and small fancy articles. In Palamau work has again been started at the Singra Colliery, and the Japla Limestone Company has extended its operations. In Manbhum the coal industry has made great progress, but there have been no signs of agricultural development. The smaller luxuries of tea, cigarettes, imported clothes and umbrellas are as elsewhere gradually extending; and a somewhat higher standard of living is apparent. In Singhbhum the opening of several mining and prospecting operations, Messrs. Tata and Company's works, and the Kalimati-Gurmasini extension of the Bengal-Nagpur Railway enabled the labouring class to earn high wages. The cultivation of lac and the rearing of tasar cocoons have considerably increased owing to the high prices obtained therefrom. Aboriginal ideas of physical comfort are advancing; and luxuries, such as woollen wrappers, coats, *chaddars*, soap and kerosine oil, are common.

Charge of Divisions.

175. The following Commissioners held office throughout the year:—

Bhagalpur Division.—Mr. E. H. C. Walsh.

Tirhut Division.—Mr. R. T. Greer, C.S.I. (from the date of the formation of the Division.)

Chota Nagpur Division.—Mr. H. J. McIntosh.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE HOWRAH BRIDGE FOR THE YEAR 1908-09.

No. 2751Marine.

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 29th November 1909.

RESOLUTION.

Administration Report of the Howrah Bridge for the year 1908-09

READ—

The Administration Report of the Howrah Bridge for the year 1909-10.

The receipts amounted to Rs. 2,24,769 during the year and the expenditure to Rs. 2,30,253, as compared with Rs. 2,40,593 and Rs. 2,21,111, respectively, in the previous year. There was therefore a deficit of Rs. 5,484 during the year as compared with a surplus of Rs. 19,482 in 1907-08.

2. The decrease in the income of the year was due to a falling off of the receipts from the Railway traffic, which amounted to Rs. 2,01,065 as against Rs. 2,16,360 in the preceding year. The rise in expenditure was mainly due to the increase under the heads "Establishment" and "Maintenance and Repairs."

3. The following is a statement of the vessels that passed through the Bridge during 1908-09 and the previous four years :—

	1908-09.	1907-08.	1906-07.	1905-06.	1904-05.
Sea-going vessels	139	130	148	120	144
Inland steamers and flats	2,103	2,033	1,870	1,491	1,381
Steam-tugs and steam-launches ...	725	715	934	1,166	1,223
Port Commissioners' vessels	150	133	179	163	114
Government steamers and flats ...	25	9	11	5	3
Total ...	3,142	3,020	3,142	2,945	2,865

4. Twenty-seven accidents took place during the year, against 34 in 1907-08. Six cargo-boats were sunk.

By order of the Lieutenant-Governor of Bengal,

T. BUTLER,

Secretary to the Govt. of Bengal.

Pressing of sugarcane commenced in Ranpur and Talcher. Standing crops doing well, but rain badly wanted in Dhenkanal for *rabi* and miscellaneous crops. Prospects of late winter paddy good. Fodder and water sufficient. During the week, price of rice fallen in four States, risen in one State and stationary in the remaining States: price varying from 13 seers in Khandpara and 15 seers in Rairakhol and Athmallik to 22 seers in Sonpur, Kalahandi, Baud and Bamra and 28 seers in Bonai.

* The report is for the week ending the 20th November 1909.

GENERAL SUMMARY.—There was no rain during the week except a few showers in Darjeeling. Sowing of *rabi* and harvesting of winter paddy are in progress. Pressing of sugarcane continues in some districts of Bihar, and has commenced in Balasore, Puri and Palamau. The prospects of all crops are good. The price of rice has fallen in fifteen districts and is stationary in seventeen districts. Cattle-disease is reported from Burdwan, Midnapore, Jessore, Gaya, Ranchi, Palamau, Manbhum and from the Tirhut, Bhagalpur and Orissa Divisions also. The supply of fodder and water is sufficient.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

GENERAL DEPARTMENT.

NOTIFICATION.

No. 4276.—The 30th November 1909.—The following notification of the Government of India is republished for general information and guidance.

J. G. CUMMING,
Secy. to the Govt. of Bengal.

No. 465, dated Simla, the 6th November 1909.

NOTIFICATION—By the Government of India, Home Department.

THE rules providing (I) for the care and use of Government cemeteries throughout India, except those in the presidency town of the diocese of Calcutta and the presidency town of the diocese of Bombay; (II) for the levy and expenditure of fees on graves and monuments in cemeteries and churches throughout India; (III) for the levy of other ecclesiastical fees throughout India; (IV) for the erection, repair and endowment of monuments in Government cemeteries throughout India, except in the Madras Presidency and in the town and suburbs of Calcutta; and (V) for the regulation of grants for the building of churches; the supply of church furniture; and for the payment of compensation for accommodation provided for soldiers in churches neither belonging to, nor rented by Government, have been revised and consolidated and are published for general information and guidance:—

PART I.

Rules for the care and use of Government cemeteries throughout India, except those in the presidency town of the diocese of Calcutta and the presidency town of the diocese of Bombay.

CHARGE OF THE CEMETERY.

RULE 1. (1) The resident chaplain of a station has charge of the general cemetery, and frames an estimate of the expenditure connected therewith in accordance with the directions contained in paragraph 1 of the Home Department* Resolution Nos. 6—370 382, dated 9th November 1876.

* Appendix A.

(2) The term "resident chaplain" includes a clergyman of the Additional Clergy Society so far as concerns the stations to which he stands appointed, or other clergyman of the Church of England placed in charge by the Bishop.

(3) Where there are lay trustees or a Church Committee they will have the same powers and responsibilities in regard to the cemetery as in regard to the church. At stations where there are no trustees or committee, if there is no resident chaplain or during the temporary absence of the chaplain, the charge of the cemetery belongs to the chief Magistrate on the spot, or the senior military officer if the cemetery is attached to a military cantonment.

(4) At out-stations where there is a Church Committee the charge of the cemetery will belong to the senior member of the committee, provided that, if the station does not contain a church which is the property of the Government, the appointment of the senior member of the committee to hold charge of the cemetery will be subject to the approval of the Bishop or Archdeacon who may, if he consider it advisable, appoint some other person to the charge. At out-stations where there is no Church Committee the charge of the cemetery will belong to such person as may be nominated thereto from time to time by the Magistrate or Deputy Commissioner of the district, but subject to the control of such Magistrate or Deputy Commissioner.

(5) All projects for original works in connection with cemeteries attached to Government churches in civil stations which require the administrative approval of the Government of India, should, under the Home Department orders Nos. 49—65, dated the 5th February 1907, be submitted by the ecclesiastical authorities to the local Government, which after examining them will transmit them, with any remarks that it may desire to offer, to the Government of India in the Home Department for consideration. All proposals relating to the construction or alteration of cemeteries attached to Government churches in cantonments should under the Home Department orders Nos. 58—71, dated the 18th February 1909, be submitted by the ecclesiastical authorities to the General Officer Commanding the Division or Independent Brigade within whose jurisdiction the cantonment is situated, who will forward them to the Quartermaster-General in India. The Quartermaster-General after satisfying himself of the necessity for the work proposed will, when the work is to be carried out by the Military Works Services, request the Director-General of Military Works to instruct his subordinate officers to forward the proposals, together with approximate estimates of their cost and the reports of the local military officers, to the local Government, which should then submit them for the consideration of the Home Department. When the work is to be carried out by the Public Works Department the Quartermaster-General will request the General Officer Commanding concerned to forward the proposals to the local Government which, after examination, will transmit them with any remarks it may desire to offer, to the

Government of India in the Home Department for consideration. Proposals in connection with cemeteries attached to Government churches in railway colonies should be submitted by the managers or agents of the railways concerned to the Railway Board for consideration. Projects for original works in connection with cemeteries other than those attached to Government churches will be dealt with under the orders of the local Government.

RULE 2.—Each cemetery is allowed a mali-chaukidar or chaukidars in accordance with the scale prescribed in paragraph 2 of the Home Department Resolution* Nos. 6—370-382, dated 9th November 1876. These chaukidars are paid by Government through the resident chaplain, by whom they are appointed and dismissed. In stations where there is no resident chaplain, the chaukidars are paid, appointed, and dismissed by the other officers named in rule 1. House accommodation for cemetery chaukidars may be provided at the cost of the State.

*Appendix A.

RULE 3.—Every reasonable effort should be made by the resident chaplain or other officer in charge under rule 1, not only to keep the cemetery in decent order, but to preserve its character as the resting-place of the remains of departed friends by providing for the necessary repairs and by planting the ground with suitable trees.

NOTE.—Expenditure under this rule will be met in the manner indicated in paragraph 1 of the Home Department Resolution† Nos. 6—370-382, dated 9th November 1876.

† Appendix A.

RULE 4.—The chaukidar will keep the key of the cemetery under the direction of the officer in charge.

RULE 5.—The officer who has charge of the cemetery under the operation of rule 1 will perform all the duties assigned to the chaplain by rules 7, 8, 9, 10, 11 and 12, with the exception of the approval of designs of tombstones and of inscriptions to be cut on them. In the case of a tombstone in that part of the cemetery which is reserved for the Church of England, the proposed design and inscription must be forwarded to the resident or visiting chaplain, or, if there be none, to the Archdeacon, no action being taken to erect the monument till his sanction has been obtained. In all other cases the design and inscription must be approved by the minister of the particular denomination to which the deceased belonged. Should there be no resident or visiting minister of that denomination, the inscription and design must be approved by the senior minister belonging to it in the province, or, if there be none, then by the local Government or Administration. Should a design or inscription be disapproved, it may be referred, if those who are interested desire this, through the ecclesiastical superior of the denomination concerned, to the local Government or Administration for decision. (*Vide* rules 14 to 21 and Part IV of these rules.)

PERSONS WHO MAY CONDUCT INTERMENTS.

RULE 6.—(1) The Chaplain will bury Christians of all denominations whose friends desire his services, as laid down in the orders of the Government of India in the Home Department,* No. 159, dated the 6th June 1877, using always the service of the Church of England and the consecrated portion of the cemetery.

* Appendix B.

(2) A portion of every cemetery will be set apart by the orders of Government for the use of Roman Catholic congregations, and another portion will be appropriated for the joint use of other Christians whose friends desire that they should be interred otherwise than according to the ritual of either the Church of England or of the Church of Rome, or who cannot legally be so interred.

(3) The unconsecrated portions thus set apart are not to be fenced or walled off from the rest of the cemetery, but simply divided off by a pathway, and they must be added to the existing cemetery or reserved from it. If the existing cemetery be large enough for the wants of the whole Christian community, such portions will be reserved without reference to the fact that the whole enclosure has or has not been consecrated according to the rites of the Church of England. If the cemetery be only large enough for the wants of Christians desiring to be buried with the service of the Church of England, such portions will be added. The whole cemetery thus divided is to be surrounded by a wall, to have but one gate of entrance, and to be under the care of the officer specified in rule 1.

RULE 7.—(1) Ministers of all denominations have a right to conduct the service of burial over the body of any deceased member of their respective congregations, who may be buried in any fitting portion of the ground set apart for the denomination to which the deceased belonged. At least six hours' previous notice of the burial should be given by the chaplain or minister of the denomination to which the deceased belonged or, in his absence from the station, by the friends of the deceased, to the chaplain in charge of the burial ground, or, in the absence of the chaplain, to the officer who may be in current charge. The chaplain or officer in current charge of the cemetery should, on receipt of the notice, give the conducting chaplain or minister, or, in his absence, the friends of the deceased, a certificate as to the hour when the funeral may take place. The period herein prescribed may, for special reasons, be shortened, with the permission of the chaplain or officer in charge of the cemetery. Such chaplain or officer will, if he thinks the

circumstances of the case demand it, bring the facts to the notice of the local magisterial authorities in time to admit of an order stopping the burial being passed if necessary.

NOTE.—The provisions laid down in this rule apply only to civil funerals. Military funerals are regulated by the order laid down in Army form A 27.

(2) In the cases in which the deceased was in the military or civil employment of Government and the death occurred in a military station it is the duty of the officer commanding the corps or head of the department concerned to inform the minister of the denomination to which the deceased belonged, of the hour at which the funeral may be expected at the cemetery. This report is to be in addition to that required by rule 7 (1).

(3) A certificate of burial drawn up according to the required form must be sent to the chaplain or to the registrar of births, marriages and deaths to be entered in the register kept up by him. The officer commanding the station or regiment or the local head of the department with which the deceased was connected is responsible for the submission of the certificate.

RULE 8.—(1) No burial can, as a general rule, take place in that part of a Government cemetery which has been set apart for the use of members of the Church of England unless the service prescribed by that Church is read by the chaplain, if there be one, or, in his absence, by the layman who officiates at the funeral. But a person may be interred in the other portions of a Government cemetery with or without the use of any services of religion

(2) Where in that part of a Government cemetery which has been set apart for the use of members of the Church of England there is a family vault or grave, or a reserved plot of ground purchased by a member of the family, or a masonry grave prepared in immediate contiguity to such family vault or grave or reserved plot, any deceased member of a family may, if the relative, friend, or legal representative having charge of the funeral arrangements shall so desire, be interred in such family vault, grave, or reserved plot without the performance of the service for the burial of the dead according to the rites of the Church of England.

(3) The burial may take place at the option of the person having charge of the same either without any religious service or with such Christian and orderly religious service at the grave as such person shall think fit; and any person or persons who shall be thereunto invited, or be authorized by the person having charge of such burial, may conduct such service or take part in any religious act thereat.

(4) Notice of any burial which it is intended to conduct under the provisions of clauses (2) and (3) shall be given to the chaplain or other officer in charge of the burial-ground in the manner prescribed by rule 7.

ARRANGEMENTS FOR BURYING.

RULE 9.—Where there is a resident chaplain he is responsible for the arrangements for digging a grave and shall ordinarily arrange for the preparation of a coffin. Should he find or anticipate difficulty in making private arrangements for the preparation of a coffin, he should apply in military stations to the senior military officer, and in civil stations to the chief local Magistrate to make the necessary arrangements; and these officers are authorized to direct any local Public Works officer to supply all that is necessary. The local Public Works officer will usually be the Assistant Commanding Royal Engineer in military stations and the civil Executive Engineer in civil stations; but the senior military officer in a military station and the chief local Magistrate in a civil station may, in cases of emergency, direct the civil Executive Engineer or the Assistant Commanding Royal Engineer, respectively, to make the necessary arrangements. The resident chaplain is in all such cases responsible that timely notice is given to the Government officers who may be called upon to arrange for the preparation of a coffin.

The senior military officer in a military station and the chief local Magistrate in a civil station may, should the resident chaplain report that private arrangements for the preparation of coffins are not feasible, issue a general order on the Assistant Commanding Royal Engineer and the civil Executive Engineer, respectively, to prepare coffins upon the requisition of the resident chaplain. The expenditure incurred by the Executive Engineer will be held in his miscellaneous advance account till repaid by the officer under whose special or general order it was incurred.

During the absence of the resident chaplain from the station the senior military officer in a military station and the chief local Magistrate in a civil station shall be responsible for the arrangements for digging graves and preparing coffins.

NOTE.—The expenses incurred in connection with the burial of paupers who die within cantonment limits will be defrayed from cantonment funds under the authority of section 29 (1) (l) of the Cantonment Code. In the case of paupers who die out of cantonment limits, the expenses will be defrayed by the Magistrate of the district.

RULE 10.—The officer in charge of the cemetery shall keep a plan of the entire cemetery to be provided by the Public Works Department or Military Works Services, with references

written upon it, in a book, in which the names of parties interred are recorded; this plan and book being kept with the church registers.

NOTE.—The Executive Engineer shall maintain a plan of the cemetery showing on it all the existing graves and the spaces allotted for future graves, giving them all consecutive numbers and giving plot lines also consecutive numbers when he thinks desirable.

RULE 11.—The officer in charge of the cemetery may reserve grave space, as limited by rule 12 below, on the application of near relatives of persons already buried in the cemetery and for the burial of the persons named in the application. A double ground fee shall be levied in advance before granting any such application, and each grant shall be registered in a book to be kept for the purpose and indicated on the plan. The ground will then be reserved for ten years. Before the expiry of that period, a fresh application should be made and a further double fee paid, failing which the ground will be resumed.

RULE 12.—The size of each grave, whether of masonry or not, is limited to 9′ × 4′, and the area of ground to be enclosed must not exceed 11′ × 7′ by external measurement.

RULE 13.—(1) All graves must be at least 6 feet in depth. Masonry graves need not be provided with floors.

(2) No body shall be buried in any vault or masonry grave provided with a permanent floor which it is intended at any after time within 14 years to re-open unless the coffin be separately entombed in an air-tight manner by properly cemented stone or brick work, which shall never be disturbed.

(3) One body only shall be buried in a grave at one time, unless the bodies be those of members of the same family.

(4) No non-masonry grave or masonry grave unprovided with the separate air-tight compartment prescribed in clause (2) shall be re-opened within 14 years after the burial of a person above 12 years of age, or within eight years after the burial of a child under 12 years of age, unless to bury another member of the same family, in which case a layer of earth not less than one foot thick shall be left undisturbed over the previously buried coffin. If on re-opening the grave any soil is found to be offensive, such soil shall be left undisturbed.

(5) There shall never be less than three feet of earth between the topmost coffin in a grave and the surface of the ground.

ERECTION AND REPAIR OF MONUMENTS.

RULE 14.—Monuments may be erected by any interested person. The inscription before being cut and the design, when the monument is other than a simple headstone, must first be approved of as laid down in rule 5.

RULE 15.—When a grave is not of masonry the only monument ordinarily allowed over it is a simple cross or headstone on an adequate masonry foundation not exceeding 3′ × 2′; and the whole structure must not stand higher than 3′ from the ground level. But, with the permission of the officer in charge of the cemetery, a monument, such as may be erected over a masonry grave, may be placed over a non-masonry grave when adequate masonry foundations are provided on which the monument may rest.

RULE 16.—No monument, of whatever material constructed, shall exceed 8′ × 4′ at the base without the previous sanction of the local Government.

RULE 17.—No monument of *masonry* shall stand higher than 3 feet from the ground level.

RULE 18.—No cenotaph shall be more than 6 feet square at the base.

RULE 19.—The enclosure of ground round a grave must be by a metal railing, or by chains or bars of metal supported on masonry or metal pillars. Wooden or masonry enclosures are not permitted. The previous sanction of the Archdeacon, or, in his absence, of the Bishop, is necessary to the enclosure of a non-masonry grave: and no such sanction will be given unless the fee required by rule 1 of Part II has been paid.

RULE 20.—When a monument needs repairing, the officer in charge of the cemetery shall communicate with the friends of the deceased, or, when such communication is not possible, advertise three times in the *Gazette of India* and the Gazette of the Province; and if it falls into a ruinous condition and no person will undertake to restore it, the monument shall be treated at the next repairs in such manner as the officer in charge of the cemetery may decide to be necessary for the maintenance of the cemetery in decent order: provided always that any inscribed slab or tablet which formed part of it shall be placed over the grave in simple masonry or be inserted in the wall of the cemetery and shall be carefully preserved.

NOTE.—(1) This rule does not apply to monuments of historical or archæological interest. Lists of such tombs should be obtained by Local Governments and Administrations and as many of them as may be properly preserved at the public expense should be looked after by the local Public Works Department.

(2) The cost of the advertisements in the Gazette is met by the Government.

(3) A person desiring to erect a monument over a grave is required to pay into the Treasury a sufficient sum of money to be invested in Government securities, so that the interest on it will be sufficient to cover the cost of repairs annually. The foregoing rules shall apply, *mutatis mutandis*, to railings round graves, which shall not be constructed until the requisite sum has been paid to cover the cost of repairs.

Explanation.—It is optional with a person proposing to erect a simple cross, head-stone fixed in a marble socket, or slab, over a masonry foundation not exceeding 3 feet by 2 feet, to pay the endowment fee for its maintenance and repairs. (*Vide* Part IV, rule 14.) The optional endowment fee may be paid at any time after the erection of the stone. The State will defray the cost of keeping in repair simple crosses, head-stones or slabs erected by or over the graves of British soldiers and non-commissioned officers.

[This rule applies only to the Madras Presidency. The rules regarding the repair of monuments in other parts of India except the town and suburbs of Calcutta are contained in Part IV of these rules.]

RULE 21.—All work connected with monuments must, as far as possible, be carried on outside the cemetery.

INSPECTION.

RULE 22.—The cemetery should be inspected annually by the officer who has charge of it under the operation of rule 1, in company with the executive engineer, the plan and book kept under rule 10 being also examined, and a report made to the Archdeacon, and recorded in the ecclesiastical record-book of the station, and also in the Engineer's office. In stations where there is no resident chaplain and there is a difficulty in arranging for a joint inspection by the officer in charge of the cemetery and the Executive Engineer, the annual inspection may be made by the Executive Engineer alone, who will forward the report to the Archdeacon through the officer who has charge of the cemetery.

RULE 23.—(1) Commissioners of Divisions should inspect cemeteries, whether closed or in use, within their respective jurisdictions, in the course of their annual tours, and should bring to the notice of the local Government any instances of cemeteries which are negligently kept, or which the officers in charge may have allowed to fall into a state of bad repair or disorder. All cemeteries are equally subject to the visitation and supervision of the Bishop and Archdeacon.

(2) Sanitary officers in cantonments are invited to inspect cemeteries within their respective cantonments and to report to local Governments any matter calling for notice.

MISCELLANEOUS.

RULE 24.—It is desirable that officers commanding regiments or detachments should be instructed to cause a report to be made to the nearest civil officer of graves dug for soldiers on the march, in order that measures may be taken for their effectual protection and preservation. These graves and all scattered Christian graves throughout the district are under the care of the local civil authorities, who should inspect them frequently and see that they are preserved in good order. Interments should, as far as practicable, be carried out in Government land.

PART II.

Rules for the levy and expenditure of fees on graves and monuments in cemeteries and churches throughout India.

RULE 1.—The following are the rates of fees chargeable:—

	Rs.	A.	P.
(1) For every square foot of ground occupied by a grave, whether masonry or not	0	8	0

NOTES—(1) This fee is independent of the actual charge for making a grave.
(2) By the terms *ground occupied* in this rule is meant in the case of an unenclosed grave the area actually occupied by the grave; and in the case of enclosed graves, graves with monuments or graves partly covered by monuments and partly enclosed, the area actually occupied by the grave *plus* all additional space either enclosed or occupied by a monument.
The fee of eight annas in question is irrespective of all charges leviable under clauses (2) to (5) of this rule.

	Rs.	A.	P.
(2) For a masonry monument, per square foot	1	0	0
(3) For a cut stone or marble monument, per square foot ...	0	8	0

NOTE.—The lower fee of eight annas per square foot shall be charged only if the whole structure above the ground level is made of cut stone or marble.

	Rs.	A.	P.
Provided that no fee under (2) or (3) shall be less than ...	5	0	0
(4) Additional fee when a cut stone or marble monument stands higher than 3 feet from the ground level ...	16	0	0
(5) For a headstone or cross over a non-masonry grave ...	5	0	0
(6) For a faculty for the erection of a monument in a church ...	75	0	0

NOTES.—(1) A tablet on the wall of a cemetery shall be regarded as a monument.
(2) The term "stone or marble" does not include "slate."
(3) The fee of Rs. 75 levied on a faculty is in all cases to be spent in charity.

	Rs.	A.	P.
(7) For a cenotaph, in addition to the ground fee, a special fee of	50	0	0

NOTE.—*If any of the persons commemorated are interred beneath a monument, it should not be classed as a cenotaph.*

	Rs.	A.	P.
(8) For burial in a family vault	3	0	0

RULE 2.—Fees are leviable over the whole cemetery, including those portions which are used by Roman Catholics and Non-conformists.

NOTES.—(1) The same rules in regard to fees apply to all graves, whether of Roman Catholics, of Non-conformists, or members of the established Church.

(2) Where a parcel of ground used for burial by a Christian community of any particular denomination other than the established Church of England forms no part of the general cemetery but is separate from it, or where, although not so separate, it is clearly distinguishable and was not originally acquired, and has not been kept up at the expense of the State then if the community by which the ground is used so desire, the Government will give up all claim to fees on the distinct understanding that it is divested of all responsibility for the maintenance of the cemetery in proper order. On the other hand where such parcels of ground form part of a cemetery of the established Church or the general Christian community provided and maintained by the Government, no distinction can be made as to keeping up any one part of the cemetery, nor should any exemption from fees be permitted.

EXEMPTION FROM FEES IN GOVERNMENT CEMETERIES.

RULE 3.—No fee shall be levied from regimental and non-departmental warrant officers, British non-commissioned officers and soldiers for the construction of graves for, or the erection of monuments to the memory of, their wives, children, or comrades; or from their wives or children for the construction of graves for, or the erection of monuments to such warrant officers, non-commissioned officers and soldiers; provided that the monument is a plain stone monument consisting of a simple cross or head-stone fixed in a stone or marble socket, or a slab over a masonry foundation 3′ x 2′ and whose total height does not exceed 3 feet above the level of the ground. No exemption shall be granted however to such persons from the fees prescribed in rule 1 (6) and (7) of these rules.

NOTES.—(1) This rule applies to regimental and non-departmental warrant officers and all British non-commissioned officers and soldiers whether in military or civil employ.

Native Christians belonging to His Majesty's army are British soldiors within the meaning of this rule.

(2) Plain stone monuments erected under this rule which are subscribed for partly by regimental or non-departmental warrant officers, non-commissioned officers and men and partly by officers are likewise exempted from the prescribed fee.

(3) Departmental warrant officers and volunteers are not exempted from payment of ecclesiastical fees.

(4) The addition of masonry borders round plain stone monuments in respect of the erection of which exemption is granted by this rule will not necessitate the levying of a fee for their erection provided that the borders are kept within reasonable limits, so that the cost of repairing the monuments is not materially increased.

RULE 4.—The Chunar pensioners being more or less under military control come under the category of soldiers, and are therefore entitled to the same exemptions as soldiers. But this ruling does not apply to other pensioners who are not similarly under military control.

RULE 5.—The chaplain may at his discretion reduce, or in cases of extreme poverty altogether remit, the fee leviable on the construction of graves, but not for the erection of monuments.

NOTE.—The Bishop on special occasions may sanction a reduction or remission of fees for the erection of monuments.

PERSONS BY WHOM FEES MAY BE COLLECTED.

RULE 6.—The chaplain or other officer in charge of a cemetery may appoint an official mason, who may be granted a monopoly of the whole or any portion of the masonry work beneath the surface within the cemetery, subject to such conditions as may be agreed upon at the time of making the appointment; and may, subject to the same conditions, discharge him at his discretion. When an official mason has been appointed, he shall be responsible for the collection and payment to the chaplain or other officer as aforesaid of the requisite fees in respect of all work executed by him. Fees in respect of all work in the cemetery must be paid in advance before the work is begun.

PERSONS TO WHOM FEES MAY BE PAID.

RULE 7.—The fees prescribed in rule 1 should be paid to the chaplain or, in the absence of the chaplain, to the officer in charge of the cemetery and remitted at once to the civil treasury, except fees for monuments in churches, which should be paid over by the chaplain to the charitable objects to which the Bishop assigns them when his faculty is issued.

CEMETERY RECEIPTS AND CHARGES.

RULE 8.—All cemetery receipts and charges are to be regulated as laid down in paragraph 4 of the Home Department Resolution* Nos. 6—370-382, dated the 9th November 1876.

* Appendix A.

MISCELLANEOUS.

RULE 9.—(1) A person may not purchase a portion of a Government cemetery as a burial place for himself and his family so as to have a right to fence it with a rail or fence, and thus make it the private property of himself and family. But when such rights already exist, they are not without reason to be interfered with, and special cases as they arise may require exceptional treatment. In such special cases the Archdeacon may exercise his discretion with the sanction of the local Government.

(2) All private rights must, however, cease if, for sanitary or other public reasons, the cemetery is closed against burials, or even that portion of it in which the private ground is situated; but in special cases the Archdeacon may exercise his discretion of giving permission to open a vault or masonry grave.

(3) No *kachcha* grave can be opened in any cemetery for the purpose of converting it into a masonry grave without application to the Archdeacon which must be accompanied by a certificate from the principal medical officer, that this may be done without risk to the public health.

RULE 10.—(1) When a piece of ground is granted by Government as a cemetery to a Railway Company for the interment of its own servants, and the Company afterwards keeps it in repair and provides the necessary establishment, so that beyond the original grant of ground Government is at no expense, the collection and application of fees accruing are left to the decision of the Railway Company which maintains the cemetery in good order and repair.

(2) The Commissioner or the district or judicial officer, and in military stations the officer commanding should inspect such cemeteries and report to Government if they find them negligently kept.

PART III.

Rules for the levy of other ecclesiastical fees throughout India.

RULE 1.—No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of these offices.

RULE 2.—In addition to the fee for the surrogate's license a fee of Rs. 10 shall be charged on all marriages by license, except the marriages of officers and others in the military or naval service of His Majesty.

RULE 3.—The fee for a surrogate's license shall be Rs. 50 both at the presidency towns and in the interior. No fees shall be charged on marriages by banns.

RULE 4.—When registers are searched and a copy of any entry given, a fee of one rupee shall be charged for the first year,* and four annas for every additional year over which the search may extend, as well as a fee of one rupee for the certificate. Soldiers, sailors, and non-commissioned and petty officers are exempted from payment.

* The first year shall be taken to mean any one year indicated by the applicant.

NOTE.—(1) The amount of fees payable for marriages performed, and for searching registers kept in accordance with the provisions of Act XV of 1873 (The Indian Christian Marriage Act), is fixed by each Local Government.

(2) The chaplain may at his discretion reduce, or altogether remit in cases of extreme proverty, the fee for searching registers.

PART IV.

Rules for the erection, repair and endowment of monuments in Government cemeteries throughout India, except in the Madras Presidency and in the town and suburbs of Calcutta.

APPLICATION FOR ERECTION OF A MONUMENT.

1. A person desiring to erect a monument should submit to the chaplain or other officer in charge of cemetery an application in the form A (annexed), with a working drawing of the monument drawn to scale.

2. If the proposed monument (*a*) is not a single stone monument as defined in rule 6, or (*b*) is a single stone monument in respect of which exemption from payment of endowment fee is granted by note (1) to this rule, or (*c*) is a single stone monument which it is proposed to endow, the chaplain or other officer in charge of the cemetery will send on the application and the drawing with a forwarding letter (in form B annexed) to the Executive Engineer in charge of the cemetery. The Executive Engineer will examine the proposals, and, if he approves of them, will fill in the certificate below the application, examine and countersign the drawing, and return the papers to the chaplain.

If any fragile or costly work liable to receive damage is proposed, the Executive Engineer will not take this into consideration in entering the classification of the monument in column 7 (*b*) of the application, as the repair of such work cannot be undertaken by Government. The Executive Engineer may decline to take over any monument for the purpose of maintenance if he considers that the work is defective from a structural point of view.

If the monument is a single stone monument and is *not* to be endowed, the chaplain or other officer in charge need not forward the application to the Executive Engineer unless he desires his advice, but may deal with it at once in accordance with rule 3.

NOTES.—(1) No endowment fee shall be levied in respect of monuments erected by British soldiers or non-commissioned officers to their wives, children or comrades, or by their wives or children to British soldiers or non commissioned officers, provided that the monuments are simple crosses, head-stones or slabs. Native Christians belonging to His Majesty's Army are British soldiers within the meaning of this note.

(2) The addition of masonry borders round plain stone monuments in respect of which exemption from endowment fee is granted by note (1) above will not necessitate the levying of a fee, provided that the borders are kept within reasonable limits, so that the cost of repairs of the monuments is not materially increased.

(3) When a monument is to be placed over a masonry grave any portion of the masonry which projects above the ground level shall be demolished.

3. On return of the papers, duly approved by the Executive Engineer, the chaplain will see that the application in form A is correctly filled in, sign the memorandum at the foot of the form and forward it with the drawing to the Archdeacon. If the deceased belonged to some other denomination than that of the Church of England, the chaplain will obtain a certificate of approval of the design from the minister of the denomination to which the deceased belonged and forward it with the application to the Archdeacon.

4. The Archdeacon will permit the monument to be erected or refuse to do so. If permission is given, the chaplain will advise the applicant of the sanction in form D (annexed) and instruct him to pay the amount of the endowment calculated as in rule 6 to the Executive Engineer, who will grant the applicant a receipt in form C (annexed).

5. The chaplain will return the sanctioned application (with enclosures) to the Executive Engineer for disposal and record. On receiving adequate notice from the applicant (usually *not less* than a week) of the date and hour of erection, the Executive Engineer will depute a responsible subordinate to supervise the erection of the monument in accordance with the sanctioned design and specification. If it is erected to his satisfaction, the Executive Engineer will assume charge of the monument for future repairs by the Public Works Department and will issue to the applicant a certificate in form I that the monument has been properly erected. The Chaplain will, on receipt from the Executive Engineer, send in April every year to the Archdeacon a list of the monuments erected and endowed during the year ending March 31st, together with the amounts of the endowment fees.

CLASSES OF MONUMENTS AND AMOUNT OF ENDOWMENT FEES.

6 For the purpose of these rules monuments are classified as follows:—

CLASS A.—*Single stone monuments.*—Monuments consisting of simple crosses or head-stones fixed in marble sockets, or of slabs, over masonry foundations not exceeding 3 feet by 2 feet, provided that their height above the level of the ground does not exceed 3 feet.

CLASS B.—*Plain and solid monuments.*—Monuments including railings round graves, not falling in class A, which are likely to require only occasional repair.

CLASS C.—*Elaborate monuments.*—Monuments which are likely to require special attention or frequent repair.

The endowment of a monument in class A is optional, and the fee may be paid at any time, either before or after the erection of the monument. Permission will not be given to erect other monuments unless the endowment fee has been paid. The minimum fees are as follows:—

Class of monument.	Endowment fee.		Remarks.
	Child's monument.	Adult's monument.	
	Rs	Rs.	
A	15	15	(1) A child's monument covering more than 15 square feet is to be charged for as an adult's monument.
B	20 (1), (2)	30 (2)	(2) These are minimum fees, and when they are considered insufficient such fees may be charged as the Superintending Engineer thinks necessary.
C	50 (1), (2)	75 (2)	

The classification of monuments rests with the Executive Engineer, but any person who objects to his decision may appeal to the Superintending Engineer

No addition to an existing monument in a Government cemetery will be allowed beyond mere lettering on existing slabs, head-stones or crosses, unless the whole monument is endowed.

7. The endowment is intended to cover the expense of ordinary annual maintenance, re-lettering and repairs, but not the risk of accidents due to floods or earthquakes or other extraordinary causes It is open to any person to provide for extraordinary repairs by making a special endowment in addition to the ordinary endowment fixed by the Executive or Superintending Engineer under rule 6. This special endowment must, however, be limited to the amount necessary to cover such work as the Government officers can undertake to execute.

8. When an endowment is paid to the Executive Engineer in accordance with rules 4 and 6, the amount must be entered in the divisional cash-book as a deposit received and paid into the treasury with a remittance note in the form G (annexed) for credit to the civil department. The Executive Engineer will forward the treasury officer's receipt with his

monthly accounts to the Examiner of Accounts in support of the debit to "deposits," a note to the effect that this has been done being entered in red ink across the block foil of the remittance note.

The Examiner will from these receipts maintain a register in form H (annexed) showing the endowments for each cemetery in his province. The civil account officer will credit to a head cemetery endowment fund under the major head "Savings Bank Deposits—Bank Accounts" all sums received on account of these endowments, but will show no details regarding the cemeteries.

After the amount has been paid into the treasury the Executive Engineer will enter it in the register of endowments, form E (annexed) (Part I).

NOTE.—A clear distinction must be maintained between (1) *ordinary* and (2) *special* endowments (*vide* rule 7) in all the documents and accounts mentioned in this rule.

9. The Executive Engineer shall maintain an account of all ordinary and special endowments, form E (annexed) (Part II). A separate ledger account shall be opened in form E (annexed) (Part III) for each monument for which a special endowment exceeding Rs. 25 has been made under rule 7.

NOTE.—The provision as to separate accounts should be applied, as far as possible, to endowments made prior to the issue of these rules.

10. The interest calculated under rule 11 on the deposit shall be used in meeting the expenditure for the repair of those monuments for whose preservation deposits have been made. In no circumstances should the capital sum be applied to meet such expenditure, nor should the interest be separate for each monument. The interest accruing on the deposits shall form a common fund to be used exclusively for the repairs of all endowed tombs: provided that the interests on deposits for which separate accounts are opened under rule 9 shall be used exclusively for the particular monument on account of which the deposit is made.

If a monument becomes so damaged as not to admit of repair, the officer in charge of the cemetery shall communicate with the friends of the deceased or when such communication is not possible, advertise three times in the *Gazette of India* and the Gazette of the Province; and if no person will undertake to restore it, the monument shall be treated at the next repairs in such manner as the officer in charge of the cemetery may decide to be necessary for the maintenance of the cemetery in decent order: provided always that any inscribed slab or tablet which formed part of it shall be placed over the grave in simple masonry or be inserted in the wall of the cemetery and shall be carefully preserved.

NOTE.—(1) This rule does not apply to monuments of historical or archæological interest. Lists of such tombs should be obtained by local Governments and Administrations, and as many of them as may be properly preserved at the public expense should be looked after by the local Public Works Department.

(2) The cost of the advertisements in the Gazette is met by the Government.

(3) The State will defray the cost of keeping in repair monuments erected by or over the graves of British soldiers and non-commissioned officers in respect of which exemption from payment of endowment fee is granted by note (*1*) to rule 2 of this part.

11. Joint estimates shall be framed in October of each year by the Executive Engineer and the chaplain, or other officer in charge of the cemetery, of the cost of repairs of endowed tombs, during the following official year, and the aggregate of the sums so estimated shall not exceed the estimated interest at 3½ per cent. per annum for ordinary endowments and at 3 per cent. for special endowments made up to the 31st March preceding, *plus* the unspent balance at the end of the previous year. The Executive Engineer should budget annually for the grant required; such grant should be entered in a lump sum under the head "Civil works" without any distinction between ordinary and special endowments.

12. The civil account officer of each province will in his final accounts for March debit to "14—Interest," by credit to the Public Works Department, the interest at 3½ per cent. per annum for ordinary endowments and at 3 per cent. for special endowments made up to the 31st March. On receipt of the credit the Examiner of Public Works Accounts will distribute the amounts between the cemeteries of the province and advise the Executive Engineer concerned of the amounts so credited. On receipt of such intimation the Executive Engineer will credit the amount in his divisional accounts as public works revenue under the head "Interest on endowments for repairs of monuments" and then fill in the interest column in form E (Part II).

13. Endowment funds invested in Government securities will be held in trust by the Comptroller-General, or the Accountant-General, Bombay (as the case may be), on behalf of the Examiner of Public Works Accounts concerned, under the rules contained in chapter II of the Civil Account Code. The interest will, on realization, be remitted to the Examiner and will be credited in his accounts and distributed as provided in rule 12.

ENDOWMENT OF EXISTING MONUMENTS.

14. When application is made for the endowment of an existing monument the above procedure should be followed as far as applicable.

15. In order that the local Government or Administration may know that the tombs are kept in proper repair, an annual report in form F (annexed) should be forwarded as soon as possible after the close of the accounts for a financial year, by the Executive Engineer with respect to their condition, for each cemetery, to the Examiner of Public Works Accounts, who will consolidate the returns so received and render a general return to the local Government or Administration The account will merely show the totals for each cemetery as taken from the Executive Engineer's accounts.

The reports sent to the Examiner should contain remarks, both by the chaplain and Executive Engineer, as to the state of the tombs for which endowments have been made.

NOTE.—The foregoing rules are applicable to cenotaphs erected in church compounds, but the previous consent of the local Government to the construction of a cenotaph is in every case necessary.

PART V.

Rules regulating grants for the building of churches; the supply of church furniture; and for the payment of compensation for accommodation provided for soldiers in churches neither belonging to, nor rented by, Government.

RULE 1.—All State charges for churches (except those referred to in rule 21 (*b*) (2) which are debitable to "23—Ecclesiastical") in civil, military or State Railway stations are provided from Public Works funds from the ordinary grant for Imperial Works under "45—Civil Works."

RULE 2.—The provision of churches from Public Works funds is authorised under the limitations given in the following rules. All projects for original works in connection with churches in civil stations which require the administrative approval of the Government of India should, under the Home Department orders Nos. 49—65, dated the 5th February 1907, be submitted by the ecclesiastical authorities to the local Government, which, after examining them, will transmit them with any remarks that it may desire to offer to the Government of India in the Home Department for consideration. All proposals relating to the construction or alteration of churches in cantonments should, under the Home Department orders Nos. 58--71, dated the 18th February 1909, be submitted by the ecclesiastical authorities to the General Officer Commanding the Division or Independent Brigade within whose jurisdiction the cantonment is situated, who will forward them to the Quartermaster-General in India. The Quartermaster-General after satisfying himself of the necessity for the work proposed will, when the work is to be carried out by the Military Works Services, request the Director-General of Military Works to instruct his subordinate officers to forward the proposals, together with approximate estimates of their cost and the reports of the local military officers, to the local Government, which should then submit them for the consideration of the Government of India in the Home Department. When the work is to be carried out by the Public Works Department the Quartermaster-General will request the General Officer Commanding concerned to forward the proposals to the local Government, which, after examination, will transmit them, with any remarks it may desire to offer. to the Government of India in the Home Department for consideration. Proposals in connection with churches in railway colonies should be submitted by the Managers or Agents of the railways concerned to the Railway Board for consideration.

MILITARY STATIONS.

RULE 3.—At all permanent military stations, churches will be provided by the Government for its Protestant and Roman Catholic European British-born soldiers on the scale laid down in rule 6.

NOTE —The term "Protestant" includes members of the Church of England and of the established Church of Scotland, Presbyterians, Wesleyans, and such other denominations of Christians as may from time to time be included by the Government of India.

RULE 4.—The amount of the Government grant for a Protestant church will in no case. exceed such a sum as will suffice to provide a plain substantial building of the simplest ecclesiastical design, together with such plain furniture as is essentially necessary for the proper performance of the service according to the ritual of the Church of England. It will rest with private individuals to furnish the means of imparting architectural decorations to the building should they desire to do so, and also of supplying additional furniture, including apparatus for lighting of a more costly description.

NOTE.—On no account should Government funds be utilised for the erection of a reredos.

RULE 5.—The same principles will regulate the grant for Roman Catholic churches.

RULE 6.—The maximum number of seats to be provided will be calculated on the following scale:—

UNIT.	Church of England, Church of Scotland, and other Protestant denominations recognised by the Government of India.	Roman Catholics.
Battalion of British Infantry	450	340
Head quarters Wing, British Infantry	250	190
Detached Wing, British Infantry	200	150
Regiment of British Cavalry	275	210
Battery of Royal Horse or Field Artillery	70	55
Garrison Company, Royal Artillery	65	50
Mountain Battery, Royal Artillery	50	35
Heavy Field Batttery, Royal Artillery	45	35
Convalescent depôts and miscellaneous detachments, per section of 100 men.	45	35

NOTE.—These numbers include soldiers' families.

RULE 7.—Any provision that may be necessary may also be made for staff officers of Indian regiments, and, where no civil church exists, for European British-born subjects in the service of Government, or for Railway servants in accordance with the scale and terms hereinafter prescribed for civil and railway stations respectively.

RULE 8.—As a rule, only one Protestant and one Roman Catholic church will be provided; and where the number of sittings required for the troops according to the scale above given is very large, the size of the church may be regulated so as to allow of at least one-half of the troops attending service at one time.

RULE 9.—The Government grants for churches will be calculated on the following basis. The Executive Engineer shall prepare a ground plan, which shall afford—

(a) accommodation for the total congregation to be provided for according to the scale laid down in rules 6 and 7, and allowing six superficial feet per sitting;

(b) passages, chancel, vestry, porch of such moderate dimensions as may be reasonable in each case, and verandahs where necessary;

(c) tower or belfry, as may be required according to the dimensions, general design, and locality of the building.

The maximum grant will be found by multiplying the cubic content of the approved design by a rate 15 per cent. in excess of the local rate per cubic foot for ordinary first class single-storied buildings of substantial construction, such as court-houses.

The cubic content of a building will be arrived at by multiplying the plinth areas of the different parts, such as main rooms, verandahs, tower, etc., by the heights from plinth to roof-level of these parts and then by adding them together. In the case of a sloping roof the height will be measured to the mean height of the slope.

CIVIL STATIONS.

RULE 10.—At the chief civil station of a district, where there are at least 25 European British-born subjects (as defined in section 4 (i) of the Criminal Procedure Code, 1898), Protestants or Roman Catholics, as the case may be, in the general service of Government, and where

no suitable church provision for them exists already, the Government will contribute towards church accommodation upon the following terms :—

(1) *Number of sittings required.*		(2) *Maximum Government grant.*
		Rs
	25	2,000
	50	3,500
	100	5,000
	150	6,000
	200	7,000
	250	8,000
	300	9,000
	350	10 500
	400	12,000
For any excess over ...	400	Rs 30 per seat in excess.

NOTE.—(1) When the number of seats to be provided lies between any two numbers given in the table the grant for the portion of the whole number of seats represented by the lower numerical figure in the table will be the grant shown against that figure, the rate per sitting for the excess number of seats over such lower figure being arrived at by dividing the difference between the maximum grant shown against the next higher figure and the said lower figure by the difference between the higher and lower figure. Thus for 110 seats the Government grant for 100 seats will be Rs. 5,000, and for the remaining 10 at the rate of $\frac{6,000-5,000}{150-100}$ = Rs. 20 per seat.

(2) As a rule, only one Protestant and one Roman Catholic church will be provided. In the case of Protestant churches accommodation will ordinarily only be provided for the number willing to attend the Church of England service.

(3) In ascertaining the number of seats to be provided, women and children belonging to the families of European British-born subjects in the general service of Government, and pensioned soldiers and their families, may be taken into account, two children being counted as one adult.

(4) In cases of stations where abnormal rates prevail, special application may be made to the Government of India for an increase to the grant given by the State, but no grant for more than 200 sittings will be made except at seats of Local Governments and Administrations, or at hill sanitaria. In the latter case, the number of European British-born subjects in Government service must exceed (without their families) 120 to warrant the grant for a church of greater accommodation than 200 sittings.

RULE 11.—No Government grant for a church in a civil station will be made until private subscriptions have been obtained, and then the grant will not exceed double the amount thus actually realised, the maximum figure in column 2 of the table above being in any case the extreme limit of the grant towards the scale of accommodation which stands opposite in column 1. And in no case will the Government grant be allowed until those contributions, together with the grant, amount to the estimated cost of the church.

RAILWAY STATIONS.

RULE 12.—Whenever there are, at any State railway station or depôt, so situated that other church accommodation does not exist or is not available with reasonable convenience, at least 25 persons in the railway service who are of European descent, pure or mixed, retaining European habits and modes of life and professing the Christian religion, whether Protestant or Catholic, churches will be provided by the Government for them in accordance with rules 4, 5 and 8; the number of sittings being calculated on the principle, *mutatis mutandis*, of rule 10, notes (2) and (3), and the grant being in conformity with rule 9.

RULE 13.—Whenever such separate churches are not required, church accommodation for any such persons may be provided in the plans of any church which is about to be erected at a military or civil station; but in the case of a church at a civil station, the restrictions in rule 10, note (4), and in rule 11, shall not apply in respect of the numbers of, and grants for, such persons.

RULE 14.—In cases where a State Railway station or depôt is considered by the railway administration to be likely to increase, such addition may be made to the number of sittings, calculated as above provided, as the Railway Department may, in each case, sanction.

NOTE.—Rules 12 to 14 apply only to State Railways worked by the State and in other cases when the State is in the position of the employer of labour.

RULE 15.—In the case of church accommodation for servants of a railway not worked by State agency and not falling within the note to rule 14, it will be within the discretion of the Board of Directors or other duly empowered representative of the Company, with the approval of the Government of India, to provide funds for church accommodation under rules 12 to 14. In such cases the cost will be chargeable to the capital or revenue account of the railway as the circumstances of each case may suggest.

GENERAL.

RULE 16.—It is desirable, whenever such a course will not be attended by inconvenience, to combine the civil or railway with the military church of a station, the grant allowed for the church accommodation of the British troops or State Railway servants before given being supplemented by a grant according to the scale shown in rules 10 and 11, or 12

to 15, as the case may be. In special cases buildings may be rented for divine service with the previous sanction of the Government of India.

RULE 17.—In addition to church accommodation as above prescribed, a house for the chaukidar or resident bearer may be provided. In cases, however, where the church is distant from the bazar, and where special grounds are shown, accommodation may be provided for other duly authorized servants; but such further accommodation will be limited to shelter for day use only. These houses should, when practicable, be adjoining to, and not within, the church compounds; but when within them, they should be erected in keeping with the other church buildings.

RULE 18.—Grants for ecclesiastical buildings will be sanctioned only by the Government of India in the Public Works Department.

RULE 19.—The scales of accommodation and expense for all churches above laid down are in no case to be exceeded without a reference to the Government of India.

RULE 20.—Church accommodation will not usually be provided at the expense of the State for non-official residents, either British-born Europeans or others, or for official residents other than British-born or State Railway servants.

RULE 21.—When private contributions are combined with a Government grant towards building a church, the procedure to be adopted is as follows:—

(a) (1) Under ordinary circumstances, the amount of private contributions being known, a definite design and estimate will be prepared by the Executive Engineer and submitted for sanction in the usual way, the limit by which the Executive Engineer will be guided in his designs being the aggregate of the Government grant according to the scales given in the preceding rules, and the amount of private contributions actually realised.

(2) Before the work is commenced, the amount of the private contributions must be paid into a Government treasury, or guaranteed by sufficient security, and carried to credit of deposits in the accounts of the department.

NOTE.—In the case of a grant from the Church Building Fund for the diocese of Calcutta, a certificate instead of a cash payment in advance may be accepted, showing the amount of the contribution to be allowed. The conditions on which this certificate may be accepted are that in every case definite arrangements must be made with the local Government or Administration concerned respecting the precise date on which the contributions will be paid, and that, until the payment is made, the Government shall have a primary lien on the funds of the Society. In case of any failure in paying up the stipulated payment on due date, the privilege herein allowed is to cease.

(3) In dealing with cases of this nature, the private contribution is to be looked upon as an addition to the Government grant, instead of the money allowed from public funds being considered as grant-in-aid of private contributions, and the responsibility of officers of the Public Works Department or Military Works Services with respect to the preparation of estimates, and the construction of such buildings with reference to excess of expenditure over the estimate, will be as strictly enforced as where only public funds are expended.

NOTE.—In the case of State Railways, the functions assigned in this and succeeding rules to the Executive Engineer will devolve on the manager.

(b) (1) In special cases, however, the Government grant for a church may, with the sanction of the Government of India, be treated as a grant-in-aid of private contributions raised for a church intended for the use of Government servants within the meaning of these rules or partly for the use of non-official residents or others for whom grants are not admissible under these rules.

(2) In such cases the plans and specifications shall be submitted to the Executive Engineer for the approval of the proper officers in the Public Works Department or Military Works Services, who shall sanction them on satisfying themselves that they are safe and suitable and can be executed for the estimated amount. The construction of the building may then be left to the managers or trustees of the private contributions raised, with whom must rest the responsibility for excess, if any, over the amount of this sanctioned estimate. The grant-in-aid will be paid by the civil department on the certificate of the Executive Engineer, *vide* rule 21 (b) (3) below, and adjusted as a civil charge under the head "23—Ecclesiastical" as stated in rule 1 above.

(3) In such cases the grant will ordinarily not be paid in full by the civil account officer until the Executive Engineer has certified that the building has been completed in accordance with the sanctioned plans and specifications, and the trust deed referred to in clause (4) below, where required, has been duly executed; but the Executive Engineer may authorize advances out of the sanctioned grant on receiving sufficient proof that the building is proceeding satisfactorily, and on the managers or trustees certifying that all subscriptions relied on in support of the application for the grant have been paid up in full or guaranteed by sufficient security.

(4) When a grant is made under clause (b) of this rule for a church intended partly for the use of non-official residents and others for whom grants are not admissible under these rules, there shall be a trust deed duly executed by the Chief Magistrate of the district in which the church is situated and the chaplain and registered,—(1) declaring that the building is granted in trust for church purposes only: (2) giving to Government a prior lien on the building for

the recovery of the grant in the event of the former being diverted to other purposes: (3) providing for the legal ownership of the building: and (4) indicating sufficient sources for its proper maintenance.

RULE 22.—In any case in which a church is built partly from private contributions and partly from a Government grant, the Government is entitled at any time to require that a proportion of the seats in the church, not exceeding the proportion which the Government grant bears to the whole expenditure incurred in building the church, shall be reserved for troops and other Government servants who may be allowed free seats under rule 27.

NOTE.—This rule does not apply to cases in which pewage reduced by the amount of interest calculated at 4 per cent. on the Government grant towards the cost of construction is paid on account of seats used by troops.

RULE 23.—The preceding rules shall apply, as far as may be, to the enlargement of existing churches.

CHURCH FURNITURE.

RULE 24.—The supply of church furniture will be regulated by the following rules. All expenditure connected with the articles to be supplied by the Public Works Department will be provided for under the rules laid down for that purpose:—

(1) Each Protestant church, civil, railway or military (cathedrals excepted), will be supplied by the Public Works Department with the following articles of furniture, the cost of which will be allowed in addition to the grant for the building. The renewal and repair of such articles will also be provided for by the Public Works Department subject to the conditions of rule 27.

	Maximum cost. Rs.

(n) Chicks or bamboo blinds for doors and windows where absolutely necessary.	At market rates.
(o) Matting where absolutely necessary for churches with terraced floors.	At market rates.

A second altar table may be supplied to churches intended to accommodate more than 500 persons.

(5) The following articles of service will be supplied to Roman Catholic churches by the Military Department on the Executive Engineer's certificate of the necessity of original supply. The renewal and repair of such articles will also be provided for, subject to the conditions of rule 27, and on the production of the executive engineer's certificate as to the necessity for the expenditure. The articles required for churches at military stations will be supplied and repaired or renewed by the military department, and those for churches at civil and State Railway stations by the civil department:—

	Rs.
(1) One tabernacle, inside covered with silk	150
(2) One pyx with silver cup, inside gilt	100
(3) One chalice	100
(4) One monstrance	180
(5) Six altar candlesticks and crucifix	180

(12)	Humeral for benediction		...	30
(13)	Altar linen, comprising albs, altar covers, communion cloth, etc.			80

NOTE.—The cost of re-gilding articles of plate supplied under the foregoing rule will be met by the military or civil department, subject to the conditions of rule 27, and on the production of the Executive Engineer's certificate as to the necessity for the expenditure.

(6) Churches rented by Government or Government buildings set apart temporarily as churches, for the use of European troops or European-born subjects in the service of Government, or of State Railway servants, should be supplied by the departments concerned (*vide* clauses 1, 2, 4 and 5) with such church furniture and articles of service as are absolutely necessary for the performance of divine service. The number and description of the articles to be supplied should be determined by a committee, consisting of the chaplain, the Executive Engineer, and the chief local Magistrate. In the case of churches for troops or for State Railway servants, the senior military officer, or the Manager of the railway will take the place of the chief local Magistrate.

The articles of furniture and service should be of the plainest description, unless there is under construction by Government a church for which church furniture and articles of service would have to be supplied under clauses 1, 2, 4 and 5.

Articles supplied for use in temporary churches should be returned into store when the building ceases to be used as a church, unless they are required for supply to a permanent church built by Government.

(7) All applications for funds for the supply to Roman Catholic churches of the articles of service mentioned in clause 5 should be submitted through the Roman Catholic Bishop of the diocese in which the church is situated.

(8) The following articles of furniture will be supplied by the Public Works Department for lych-gates of Government cemeteries:—

	Maximum cost. Rs.
Two benches at Rs. 9 each	18
One small table	12
Two chairs at Rs. 5 each	10
A wheeled bier	350

NOTE.—In stations where no hearse or other suitable means of conveyance are available, the use of the bier is permissible for the conveyance of the dead to the cemetery.

RULE 25.—The Executive Engineer will be guided, in granting the certificates alluded to in clauses 2 and 5 of rule 24, by the following principles:—

Class I, churches built by Government.—The certificate should state that the church was built by Government for the use of European troops or European British-born subjects in the service of Government, or of State Railway servants, and is still maintained for the same purpose.

Class II, churches which have received building grants from Government.—The certificates should state that the church received a building grant of Rs.————, equal to the———— part of the total cost of the building, and that the grant was made on account of European troops or European British-born subjects in the service of Government or of State Railway servants, and that the building it still used by them.

For this class of churches a proportion of the standard cost of the articles of service will be sanctioned equal to the proportion of the grant-in-aid to the total cost of the building itself.

Class III, churches rented by Government and Government buildings temporarily set apart as churches.—The certificate should state that the building is wholly rented by Government or is a Government building temporarily set apart as a church for the use of European troops or European British born subjects in the service of Government, or of State Railway servants.

NOTE.—The required certificates should afford information as to when the article was originally supplied and by whom and the reason for recommending its renewal. When, however, Government pay for the use of a certain varying number of seats in a church, the hire of the seats should include everything necessary for the performance of service.

RULE 26.—When a church, whether Protestant or Roman Catholic, is to be furnished, the Executive Engineer should communicate with the ecclesiastical authorities concerned with a view to afford the congregation an opportunity of furnishing the church by private subscriptions in more costly style, should they wish to do so. It is to be understood, however, that any article of furniture to which any public funds may have been applied will remain the sole property of Government, even though a portion of its cost may have been contributed by private persons. And in cases where articles of furniture are procured from England, they should be purchased through the Secretary of State in the ordinary way, with the exception of articles to which note 1 to clause (2) of rule 24 applies, which may be purchased as therein allowed.

In cases in which articles of furniture supplied wholly or in part from Government funds are considered to have become obsolete or unsuitable, though not necessarily unserviceable, they may, with the previous approval of the local Government, be sold and the sale-proceeds utilised towards the cost of replacing them, provided always that sufficient private subscriptions are forthcoming to ensure the replacement of the old articles by new ones of greater value or more appropriate design.

RULE 27.—Government will not ordinarily undertake the cost of the renewal and repair of furniture and articles of service in churches, which are not primarily intended for the accommodation of troops. Where pew rents are charged, the cost of such renewals and repairs will be met from the Pew Rent Fund; where pew rents are not charged, it is expected that the cost will be met from contributions by private persons and members of the congregation. In churches in which a portion of the seats are actually reserved by Government for troops or other Government servants entitled to free seats, the Government will pay a share of the cost of renewals and repairs equal to the proportion which the number of seats so reserved bears to the whole number of seats in the church. Seats will be reserved by Government under this rule only for troops and military officers on duty with troops, and for such Government servants of the classes described in rule 10, and State Railway servants of the classes described in rule 12, as cannot afford to pay for seats. But all Government servants (other than troops and military officers on duty with them), who are in a position to pay for seats, will be liable to be charged pew rents.

RULE 28.—In cases in which articles of furniture belonging to a Government church are stolen, an immediate enquiry should be held in view to ascertaining whether the loss was caused through the negligence of the person responsible for the custody of such furniture. In the case of Protestant churches at civil or railway stations, the enquiry should be conducted by the chaplain and the members of the Church Committee; and in the case of Roman Catholic churches at such stations, by the chaplain in charge and the chief civil officer of the place, or such other person or persons as the chief civil officer may nominate for that purpose. As regards Protestant and Roman Catholic churches in cantonments, the investigation should be made by a committee assembled under the orders of the officer commanding, as is the case in respect of all other enquiries into loss of Government property, the chaplain in charge being invited either to be a member of the committee or to give evidence before it.

(2) If the result of the enquiry should be to show that the loss was occasioned by negligence on the part of the person responsible for the custody of the furniture, such person should, if possible, be required to make good the loss; or if it should appear that the loss was due to circumstances beyond the control of the responsible officer, then the Government of India will be prepared to consider an application for the replacement, at the public expense, of the articles stolen. Such application should be submitted through the ordinary channels, and should be accompanied by a full report of the enquiry.

RULE 29.—The care of church clocks is to be charged against the Pew Rent Fund, where it exists. Where no such fund exists, the cost of maintaining the clocks will be borne by Government.

RULE 30.—The pay of chaukidars of churches will be disbursed through chaplains.

RULE 31.—Anglican and Roman Catholic churches are under the control of the Bishop of the diocese in respect to the erection of tablets, ornaments, etc, while in course of construction, as well as after completion and consecration.

OWNERSHIP AND REPAIR OF CHURCHES.

RULE 32.—All churches built under these rules, except rule 21, clause (*b*), shall be considered the property of Government.

As a general rule, all churches, whether Protestant or Roman Catholic, which have in past times been built by Government, are the property of Government.

Churches whether built wholly by private contributions or by such contributions jointly with State grants, which have been borne for a series of years on the books of the Public Works Department or Military Works Services and have been repaired and otherwise dealt with, unchallenged, as Government buildings shall be deemed to be the property of Government.

Churches built wholly or in part by private contributions which have not been so borne, repaired or dealt with, but which may be taken over on behalf of Government, under sanction of competent authority, shall be brought on the books of the Public Works Department or Military Works Services as the property of Government.

RULE 33.—All churches which are the property of Government shall be in charge of the Executive Engineer, and shall be repaired under the ordinary rules of the Public Works Department.

In every case in which any alteration in a church belonging to Government, which affects its structure or its permanent fittings, may be desired by the chaplain or other clergy, the Executive Engineer must be consulted and his consent obtained in writing before the alteration is carried out.

COMPENSATION FOR ACCOMMODATION IN CHURCHES NEITHER BELONGING TO, NOR RENTED BY, GOVERNMENT.

RULE 34.—The rate of compensation for sittings for Protestant and Roman Catholic soldiers is fixed at Rs 7 per seat per annum. Broken periods within a year shall be counted as a year; but when sittings are occupied consecutively for any period exceeding twelve months, payment will be made for the number of months in excess of the year, for which the sittings are so occupied, at the rate fixed for the year.

NOTE 1.—The payment should, as far as possible, be regulated by the official year.
NOTE 2.—When a church has been built at Government expense or with the aid of a grant from Government, the rewards otherwise admissible will be reduced by the amount of interest calculated at 4 per cent. on the sum contributed by Government towards the cost of construction.

RULE 35.—The number of sittings for which compensation is allowed will be regulated by the highest attendance at a parade service during the year of soldiers and their families (two children up to the age of 16 being counted as one adult) actually quartered in the station subject to the following maximum limits:—

UNIT.		Church of England, Church of Scotland and other Protestant denominations recognised by the Government of India.	Roman Catholics.
Battalion of British Infantry	...	450	340
Head-quarters Wing, British Infantry	...	250	190
Detached Wing, British Infantry	...	200	150
Regiment of British Cavalry ...	...	275	210
Battery of Royal Horse or Field Artillery	...	70	55
Garrison Company, Royal Artillery	...	65	50
Mountain Battery, Royal Artillery	...	50	35
Heavy Field Battery, Royal Artillery	...	45	35
Convalescent depôts and miscellaneous detachments, per section of 100 men	...	45	35

NOTE.—These numbers include soldiers' families.

RULE 36.—Compensation may be charged for sittings provided for British-born commissioned and non-commissioned officers (including families) employed on the staff or with Indian regiments, in addition to the number of sittings for which compensation is admissible under rule 35.

RULE 37.—Compensation may, under the conditions of rule 34, be paid for Protestant or Roman Catholic State Railway servants for whom church accommodation has not been provided by Government; the number of sittings for which compensation may be allowed being regulated by the highest attendance on any one occasion during the year of railway servants and their families (two children up to 16 being taken as one adult) who are of European descent, pure or mixed, retaining European habits and modes of life and professing the Christian religion.

RULE 38.—Local Governments and Administrations are authorised to sanction the payment of compensation for sittings on the condition that the rules are strictly observed, and that all cases in which the application of the rules is doubtful are submitted for the orders of the Government of India. Applications for compensation must be supported by a certificate from the officer commanding the station or the manager of the railway of the number of soldiers or State Railway servants and their families for whom accommodation has been obtained under rules 35, 36 and 37, and by a receipt for the money paid.

RULE 39.—The outlay will appear in the departmental budget estimates and accounts under head of Civil Buildings—Repairs.

APPENDIX A.

Home Department Resolution Nos. 6—370-382 (Ecclesiastical), dated Simla, 9th November 1876.

Read—

The Home Department Resolution Nos. 314 to 318, dated 6th October 1875, appointing a Committee to report upon the following matters connected with ecclesiastical administration :—

(1) The framing of joint estimates for expenditure on cemeteries or churches by the Executive Engineer and clergyman in charge.

(2) A revision of establishments for cemeteries according to their area.

(3) The size of monuments and amount of ground that may be enclosed.

(4) Provision for planting cemeteries and preserving them in decent order.

(5) Mode of supply of certain articles of church furniture.

(6) The substitution of three for two classes of churches with respect to the expenditure allowed for them by Government.

Read—

The report of the Committee, dated 29th October 1875.

RESOLUTION.—The report of the Committee has been considered by the Governor-General in Council, who desires to express to the Committee his satisfaction at the result of their labours.

The following rules have been approved relative to the subjects referred to the Committee for report :—

1. Churches and cemeteries have already been divided into two classes :—

(Public Works Department No. 486-A.G., dated 18th July 1874.)

(1) those in stations where there are military cantonments and the military works which are under the charge of the *Director-General of Military Works*, and (2) those in other military cantonments and civil stations.

In both classes of stations joint estimates* of expenditure should be framed annually by the undermentioned officers :—

(Financial Department Resolution No. 87, dated 9th January 1875.)

(*a*) In the case of all expenditure, connected with establishments, *e g.*, pay of servants, alterations in their pay or number, etc. ; also all expenditure by Government connected with the provision of articles of church furniture supplied by the civil department. } By the chief Magistrate of the district and by the chaplain.

(Financial Department Resolutions No. 87, dated 9th January 1875 ; No. 2024, dated 31st March 1875 ; and No. 675, dated 9th February 1876.)

(*b*) In the case of all expenditure connected with repairs and additions to church fabric, to church compound or cemetery walls, to cemetery gates, walks, wells, chaukidars or other church servants' houses, provision of necessary appliances for graves or for the repair of tombs or for the planting of trees and shrubs in cemeteries and keeping the same in decent order ; also all expenditure by Government connected with the provision of articles of church furniture supplied by the Public Works Department. } By the Executive Engineer and by the chaplain.

The estimates of expenditure to be prepared by the Executive Engineer and the chaplain should show distinctly the probable charge under each of the following heads :—

(I) New works connected with additions to existing churches and improvements to church compound.

(II) New supplies of furniture for churches and sanctioned articles of church use.

(III) New works connected with additions to existing burial-grounds.

(IV) Repairs to churches and church furniture and maintenance of church compounds.

(V) Repairs to burial-grounds to be executed by Public Works officers.

(VI) Repairs to burial-grounds, including planting and cleaning, to be entrusted to the chaplain or chief civil or military officer of the station or cantonment, under paragraph 4.

It would be convenient if distinct estimates were prepared for each of these classes of expenditure.

The provision of funds to meet the charges above enumerated will be made in the budget estimate of the Public Works Department. The estimates for the same will be

* The estimates should be for the financial year, and should be prepared in advance as is prescribed for other budget estimates.

NOTE.—Modifications of the original orders are shown in italics.

subject to the scrutiny of, and be passed by, the Superintending or Chief Engineer or local Government or Administration, according to the rules in force in the Public Works Department.

The incidence of cost of burial-grounds is given in Volume I, paragraph 889, of the Public Works Department Code, and provision will accordingly be made for such charges in the Imperial or Provincial Budget Estimates as the case may be.

2. The following scale of establishments should be maintained at all cemeteries:—

(I) For a cemetery of which the area is 5 acres or less, one mali-chaukidar;

(II) For a cemetery of which the area is more than 5 and less than 10 acres, one mali-chaukidar and one assistant coolie;

(III) For a cemetery of which the area is more than 10 and less than 15 acres, one mali-chaukidar and two assistant coolies; and

(IV) For a cemetery of which the area is more than 15 acres, one mali-chaukidar and three assistant coolies.

It is left to the local Governments and Administrations to determine the proper wages to be given to each servant. *The charge will be included in the Civil Budget Estimate under Imperial or Provincial as the case may be*

* * * * *

4. No portion of the receipts from cemeteries and church compounds should be retained by any Government officer to be directly expended by himself; all such receipts should be paid into the civil treasury to the credit of the Public Works Department *under Imperial or Provincial Public Works Revenue as the case may be.* But the amount passed upon the joint estimate framed by the Executive Engineer and chaplain to provide for planting a cemetery and preserving it in decent order should be entrusted to the chaplain where there is one. Where there is no resident chaplain, the amount should be placed at the disposal of the Chief Magistrate on the spot, or of the senior Military Officer if the cemetary is attached to a military cantonment. The necessary funds for the purpose will be advanced by the Executive Engineer concerned to the chaplain or Civil or Military Officer. Bills for the expenditure should be rendered by the officer to whom the advance has been made, either monthly or otherwise, to the Executive Engineer, who will charge for the amount thereof in the usual way in his accounts. Until the bills are received and charged off, the advance will be placed in the miscellaneous advance account of the Executive Engineer. All planting of shrubs and trees* by private persons in cemeteries should be under the control of the chaplain if resident, otherwise under that of the Magistrate or senior Military Officer, as the case may be. When practicable, a well should be sunk in or near every cemetery.

* * * * * *

5. It should be understood that the Government cannot provide cemeteries at the public expense for native Christian communities.

Letter No. 364, dated the 9th November 1877.

NOTE.—Where their number is small, the question is of little importance and is best arranged by mutual concessions or by special provisions made locally by the parties immediately concerned. And I am to suggest for His Lordship's consideration whether if the necessity of dealing at the present time with this matter of native Christian interment be in his judgment unavoidably established, it should not be carefully examined in consultation with the several Local Governments, having regard to the diverse needs and circumstances of the population in each separate province.

* Home Department letter to the Ven'ble the Archdeacon of Calcutta, No. 110, dated the 22nd May 1883.

* In regard to churches and cemeteries situated within the limits of a military cantonment the Government of India have decided—

(1) that the chaplain is required to obtain the permission of the officer commanding the station before ordering a tree to be cut down in a cemetery or church compound situated within the limits of a cantonment;

(2) that the officer commanding the station may order a tree to be cut down in the cemetery or church compound, without the chaplain's consent;

(3) that it rests with the chaplain to sell the trees cut down in the cemetary or church compound, the proceeds being, paid in, as required by the standing rules, to the civil treasury to the credit of the Public Works Department; and

(4) that the consent of the commanding officer should be obtained in respect of all repairs or alterations over which he or the Cantonment Committee may exercise control under the cantonment rules and regulations, *e.g.*, rules 13 and 26 of Chapter IV.

Home Department letter to the Ven'ble the Archdeacon of Calcutta, No. 148, dated the 26th June 1883.

These orders, however, do not interfere with the duty of the chaplain to see that the cemetery is kept clean of rank vegetation, shrubs, and undergrowth which are not included under the designation of trees.

Finance Department Resolution No. 2202 (Expenditure), dated Simla, the 15th August 1876.

Read certain papers relative to the reduction of minor charges on account of church establishments in India.

RESOLUTION.—After consultation with the several local Governments and Administrations it was decided in February 1875 to reduce the cost of church establishments in India. To carry out this decision, the scale of charges (shown in the margin) was fixed for general adoption, with the reservation that in some places somewhat higher charges might be allowed under exceptional circumstances; and that in the case of third class (non-military) churches, with fluctuating and very limited congregations, a moderate fixed allowance might be granted for lighting and sacramental elements. In accordance with this decision, the several local Governments and Administrations were requested to submit a fresh classification of military churches, and a scale of charges in accordance with the principles thus laid down.

First class (churches, the property of Government, containing more than 400 sittings at stations where there are European troops):—

	Rs.
1 clerk	12
1 chaukidar-bearer	6
1 water-carrier	5
1 sweeper	4
Lighting	20
Total	47 a month.

Second-class churches, the property of Government, containing less than 400 sittings at stations where there are European troops):—

	Rs.
1 chaukidar-bearer	5
1 sweeper	4
Lighting	10
Total	19 a month.

Third class (churches, the property of Government, at stations with no troops, or with only native troops):—

	Rs.
1 chaukidar-bearer	5

2. After consideration of the reports called for, the Governor-General in Council is pleased to pass the following orders.

3. If a clerk is now employed in any second class military church he need not be dismissed; the full reduction of the establishment must await the occurrence of a vacancy.

4. In Madras, including Mysore, but excluding Berar, there are 56 churches* and the cost of establishments on the scale laid down by the Government of India would amount to Rs 700 a month as against a present charge of Rs 1,917¼. The Government of Madras recommend, however, that the pay of chaukidar-bearers be fixed at Rs. 7 instead of Rs. 5 each a month that an establishment of Rs. 47 a month be allowed to the church at Black Town; and that to five of the remaining thirty-six 3rd class non-military churches, the marginally noted† special allowances be allowed. These proposals are approved with effect from 1st April 1877. A tabular statement showing the financial results of the measure, and including, as a temporary charge, the pay of such clerks as are now on the establishments of the 2nd class military churches, should be forwarded for formal sanction.

*	Number of churches.
1st class (military)	8
2nd „ „	6
3rd „ (non-military)	42
Total	56

†	Rs.
1 bearer	7
1 sweeper	5
Lighting allowance	18
Total	30 each.

5. The Government of Bombay propose (1) to raise the pay of chaukidar-bearers; (2) to allow a peon to each chaplain; (3) to retain clerks for 2nd class military churches; (4) to do away with water-carriers and sweepers, and provide for their duties from the contingent allowance of Rs. 20 a month for lighting for 1st class churches; and (5) to allow a small contingent allowance to poor 3rd class non-military churches. The tabular statement submitted by the Bombay Government also shows other variations from the standard scale fixed in 1875. The Governor-General in Council regrets that he is unable to sanction peons for chaplains in Bombay; but he is pleased to sanction the following scale for adoption in the Bombay Presidency from 1st April 1877, with a request that a tabular statement showing the charges now made may be forwarded to Government for communication to the audit department:—

	1st class military churches.	2nd class military churches.	3rd class non-military churches.
	Rs.	Rs.	Rs.
1 clerk	......*	...	...
1 chaukidar-bearer	7	7	7
Contingent allowance to cover lighting, and sweepers' and water-carriers' wages.	20	10	...†

*On the pay proposed by the Archdeacon of Bombay.

†A list of the poorer churches, for which a special contingent allowance is asked, should be entered in the tabular statement.

6. The proposal of the Government of Bengal in respect to the six military (1st class) churches, including the two within Fort William, for which the authorised allowance of Rs. 47 a month is considered to be sufficient, is sanctioned with effect from the 1st April 1876; Rs. 100 a month is also allowed for each of the four (3rd class) non-military presidency churches* from 1st April 1877, for two years, subject to reconsideration at the end of that period; and an allowance Rs. 55 a month is sanctioned for St. Stephen's Church, Kidderpore, and the church at Howrah, on the same terms. Considering the peculiar character of St. Andrew's Kirk in Calcutta and its use by the military, the recommendation of the Reverend Mr. Thomson for an allowance of Rs. 100 when there are two chaplains and Rs. 185 a month when there is one, is approved from the same date. The necessity for so large an allowance as† Rs. 32 a month for the care of the clock must be further established. The entire services of a competent native artisan could probably be secured for a much smaller sum.

*St. John's. Old Church. St. James's. St. Thomas's.

7. In respect to the non-military (3rd class) churches in Bengal the Governor-General in Council considers that the scale laid down in February 1875 should be more closely adhered to than is proposed by the Government of Bengal. The exceptional allowances there contemplated were intended only for churches with *fluctuating and limited congregations* and not for general adoption. The churches at Dacca, Cuttack, Berhampur, and other places do not appear to be of this class. His Excellency in Council desires, therefore, that the Government of Bengal will submit a tabular statement more in accordance with the scale laid down in February 1875, and showing the financial results of the arrangements now sanctioned for church establishments in Bengal.

8. The classification of churches, submitted by the Government of the North-Western Provinces, shows that there are 36‡ churches, the proposed cost for the establishments of which is Rs. 670. But it appears doubtful if this classification includes the Episcopalian and Presbyterian churches at Allahabad. This should now be made clear; and the church at Chunar should be ranked as a 3rd class (non-military) church, and not as a second class military church. The usual tabular statement should also be submitted showing the financial results of the charges now authorised with effect from the beginning of the next financial year.

‡ 7 (1st class) military, [in]cluding three Roman Catholic churches, 14 (2nd class) military, including three Roman Catholic churches; and 15 (3rd class) non-military churches.

9. There are 48 churches in the Punjab, and the cost of the establishments proposed for them is Rs. 878 a month. It is also recommended that Rs. 50 a month may be placed at the disposal of the Government of the Punjab for allotments, when necessary, to the poorer 3rd class (non-military) churches. The proposals of the Government of the Punjab are sanctioned with effect from 1st April 1877. The usual tabular statement should be submitted.

10. There are 15 churches in the Central Provinces, the cost of the establishments of which is Rs. 205 a month. Revised establishments as shown below are sanctioned for these churches, resulting in an increase of Rs. 17 a month over the existing charge :—

† This charge was subsequently accepted by the Government of India as an ecclesiastical charge and as part of the church allowance which is given in consideration of the benefit derived by the public from the use of the clock. Letter to Government of Bengal, No. 310, dated the 27th September 1877.

A.—As detailed in paragraph 1 of this resolution.

11. The Chief Commissioner of British Burma submits a list of church establishments in that province, and recommends "that the establishments should be restricted to the scale fixed by the Government of India; but that the rates of pay should be in accordance with those which are customary throughout Burma, where the cost of living is greatly in excess of that of India." He also recommends that an allowance of Rs. 30 a month may be granted to the Roman Catholic church at Thayetmyo. In accordance with these recommendations the establishments noted below, which are in conformity with the scale laid down in February 1875, are sanctioned for the churches in British Burma with effect from 1st April 1877 :

*12. In addition to the higher rates of pay for chaukidar-bearers on account of the prevalent wages in the Hyderabad Assigned Districts, the Resident at Hyderabad proposes to add 8 peons at a cost of Rs. 56 a month to the authorised scale of church establishments. The Governor-General in Council regrets that he is unable to depart from the scale already fixed, but is pleased to sanction the other proposals as shown below from the beginning of the next financial year :—

13. The list submitted by the Chief Commissioner of Oudh shows that there are only six churches in Oudh—three of the 1st and three of the 2nd class. The proposed classification of these churches is approved, with effect from 1st April 1877, with a request that a tabular statement may now be forwarded.

14. The Chief Commissioner of Assam states that there are in Assam six 3rd class non-military churches, and proposes to pay the chaukidar-bearers at Rs. 10 each a month, remarking that "this is the lowest salary on which a servant can be entertained to perform the above duties in this province." The Governor-General in Council sanctions a chaukidar-bearer for each of the churches in Assam on the pay of Rs. 6 each a month from 1st April 1877, and requests that the usual tabular statement may now be forwarded.

NOTE I.—The Government of India authorise local Governments and Administrations to sanction higher rates of pay for church establishments, when the rates fixed in the above resolution are clearly inadequate.

NOTE II.—Roman Catholic churches or chapels, which are the property of Government and which do not receive the allowances for establishment, lighting, etc., admissible under Army Regulations, India, Volume I, Article 395, are entitled to receive the allowances set forth in the Finance Department Resolution No. 2202 of the 15th August 1876.

RESOLUTION—Sanctioned. For the future the President in Council is pleased to empower local Governments to sanction church establishments within the limits fixed in Financial Resolution No. 2202, dated 15th August 1876, without reference to the Government of India, on the understanding that charges thus sanctioned will be entered in the monthly statements of charges locally sanctioned.

WITH reference to paragraph 8 of your letter, dated the 5th February 1877, No. 376, regarding the establishment at St. Paul's Cathedral, Calcutta, I am directed to say that the Governor-General in Council is pleased to comply with the recommendation of His Honour the Lieutenant-Governor and sanctions the continuance of the Government grant of Rs. 400 per mensem at present made towards the maintenance of the cathedral establishme .

No. 11, dated the 9th January 1878.

From—J. O'KINEALY, ESQ., Offg. Secretary to the Government of India, Home Department,

To—The Secretary to the Government of Bombay, Ecclesiastical Department,

WITH reference to the correspondence ending with your letter, dated the 29th November last, No. 249, regarding the establishment at St. Thomas' Cathedral, Bombay, I am directed to observe that it appears from the papers submitted that the cost of the cathedral establishment and contingent charges amounts to Rs. 1,084 per mensem, and the trustees of the cathedral object to any reduction being made, holding that under the trust deed they have an indefeasible right to claim from Government both establishment and contingent charges on the existing scale.

2. The Governor-General in Council does not admit that the trustees alone have the power to decide the question at issue, but His Excellency in Council does not desire to press the matter, and leaves it to be settled by the Bombay Government on the most favourable terms which may be found possible.

3. I am to add that a maximum grant of Rs. 400 per mensem has been fixed for the cathedrals at Calcutta and Madras.

Finance Department Resolution No. 4016, dated Simla, the 9th November 1881.

Read—

Office memorandum from the Military to the Home Department (Ecclesiastical), No. 1618-S. D., dated the 17th October 1881, proposing a general rule to regulate the incidence of charges on account of clerical and menial establishments for religious services in connection with the troops.

THE undersigned is desired to acknowledge the receipt of the docket from the Home Department, No. 75, dated 5th May 1881, on the subject of the provision of a clerical and menial establishment for Presbyterian religious service in connection with troops. The case in point is that of the 72nd Highlanders.

2. In reply he is to forward the correspondence marginally noted and to suggest that as (in regard to the general question) there would seem to be some doubt as to the proper incidence of charges on account of such establishments, the present opportunity be taken to settle the question finally.

From the Adjutant-General in India, No 2795 B., dated the 29th June 1881.
From the Controller of Military Accounts, Bengal, No. 10612.

3. The present rule as regards chaplains is understood to be as follows, viz :—

The Church of England chaplains and the church establishments are paid in the civil department, even though employed in a cantonment solely for the use of the troops.

The pay of the Roman Catholic chaplains and of the chapel establishments engaged in the service of the troops is borne by the Military Department.

The pay of Presbyterian chaplains and of the church establishments at ordinary stations is borne by the civil department, but the pay of Presbyterian chaplains with Highland regiments is a military charge.

4. It seems, therefore, to the Military Department right that the charge on account of establishments for the church services of Highland regiments should also be a military charge, when the chaplain employed in the services is paid by the Military Department, and that in all other cases where there is a service performed for Presbyterian troops by a civil Presbyterian, Wesleyan or other chaplain, the charge for his services and any temporary establishment should be borne by the civil department.

5. The Military Department considers that the above would be a clearly defined rule which would prevent the mistakes which appear to have been made on more than one occasion in regard to the debit of such charges, and the undersigned is to recommend its adoption to the Home Department.

RESOLUTION.—The rule proposed in paragraph 4 is sanctioned.

APPENDIX B.

Home Department Resolution Nos. 2—275 to 287 (Ecclesiastical), dated Simla, the 8th September 1875.

Read the undermentioned correspondence relative to a proposed revision of the rules at present in force for the guidance of chaplains of the Church of England in regard to the burial of such persons as have laid violent hands upon themselves; and of those who having been members of the Roman Catholic Church, have been refused burial by the priests of that church :—

From the Government of Fort St. George, No. 142, dated 12th June 1874, and No. 203, dated 28th August 1874.
To the Solicitor to Government, No. 327, dated 22nd September 1874.
From ditto ditto, No. 2316, dated 26th September 1874.
From the Lord Bishop of Calcutta, dated 13th January 1875.

RESOLUTION.—The first question was raised by the refusal of the Reverend C. H. Deane, Chaplain of Bangalore, to read the funeral service over a person who was found by a court of inquest to have committed suicide while in a state of temporary insanity.

2. The subjoined letter* from the Reverend C. H. Deane sets forth the ground of his refusal :

* To Mr. Knox, dated 2nd January 1874.

"When I answered your memorandum about the interment of the remains of the late Sergeant Spiers of the 18th Hussars, I was not aware that he had committed suicide. If, as I understand, there is no doubt that he poisoned himself, I regret to say that I shall not be able to officiate at his funeral. The Rubric before the burial service distinctly forbids it to be used for any that 'have laid violent hands upon themselves,' so that I have no option in the matter. The grave will be ready at 5 P. M., but no service can be used."

3. The view taken of the question by the Right Reverend the Bishop of Madras is stated in the subjoined letter :†

† To the Chief Secretary to the Government of Fort St. George, No. 483, dated 24th March 1874.

"I am directed by the Right Reverend the Bishop of Madras to acknowledge your communication of the 17th ultimo, forwarding copy of a letter from the Deputy Adjutant General, transmitting correspondence relative to the Reverend C. H. Deane's refusal to read the funeral service over the late Sergeant Spiers, 18th Hussars, who committed suicide.

"2. In reply I am desired to state that Mr. Deane seems to have been requested to perform the funeral without having been furnished with the customary death-report or any intimation that it was a case of suicide.

"3. The coroner's warrant in itself appears to be 'no more than a certificate that the body is not demanded by the law, and that therefore the relations may dispose of it as they please.'—(Wheatley on the Book of Common Prayer.) It does not, therefore, indicate the duty of a clergyman, or place him under legal obligation to give to a body Christian burial.

"4. In keeping with this view, the Government notification in *Fort St. George Gazette*, June 11th, 1850, page 623, when it intimates that 'the Reverend chaplains will in future consider the warrant of the coroner for the interment of a body on which an inquest has been held to be a sufficient authority for their performance of the buril service over it,' adds, 'if it would be their duty, under ordinary circumstance, to perform that service.'

"5. What is the duty of a clergyman when requested to bury a person who has committed suicide is to be ascertained partly from the Rubrics of our church, which are binding upon the clergy and have the force of law; and partly from the limitations of recognised legal commentators.

"6. The Rubric at the opening of 'the order for the burial of the dead forbids a clergyman to use that service for any that have laid violent hands upon themselves.'

"7. In Burn's 'Ecclesiastical Law' it is laid down: 'Of this sort [suicide] are to be understood not all who have procured death unto themselves, but who have done it voluntarily, and consequently have died in the commission of a mortal sin; and not idiots, lunatics, or persons otherwise of insane mind.'

"8. In the same book it is also stated that 'the proper judges whether persons who died of their own hands were out of their senses, are doubtless the coroner's jury.'

"9. In the case under consideration it appears that the Reverend Mr. Deane having regard only to the Rubric and *foro conscientiæ* accounting himself responsible for the interpretation of it, refused to bury the corpse even when he knew that the coroner's jury had returned a verdict of 'temporary insanity.'

"10. In this refusal, I am instructed to state that Mr. Deane has not, so far as the Bishop can ascertain, violated any law, but he has departed from a recognised custom in not accepting the verdict of the coroner's jury as a justification for the using of the church's service over the remains of Sergeant Spiers.

"11. Mr. Cripps, in his 'Practical Treatise on the law relating to the Church and the Clergy' [Ed. 1869],* states: 'No case appears ever to have occurred in which a clergyman who has refused to bury the corpse of one who has committed suicide in insanity has been punished by the Ecclesiastical Law.' At the same time he adds: 'It must be doubtful whether a departure from a custom of such acknowledged propriety would not be visited with ecclesiastical punishment.'

* Page 793.

"12. In the absence of any court competent to visit with ecclesiastical punishment, the Bishop desires me to point out that it is very painful to a laborious and conscientious clergyman, such as Mr. Deane is, to deny the last offices of the church to one who has been under his spiritual charge, and it must, the Bishop thinks, be allowed that there was much in the circumstances of the present case to support the conclusion at which Mr. Deane arrived. I am, therefore, directed to say that His Lordship is disposed to take a lenient view of Mr. Deane's action, and the more so as those who are endeavouring to check the prevalence of intemperance in the army can ill-afford to lose any aid which a clergyman in the honest discharge of his duty can lawfully render."

4. The Government of Madras referred the whole correspondence for the information and orders of the Government of India.

5. The following brief statement of the English Law will be found sufficient for the present purpose:—By Common Law Christian persons are entitled to burial with the rites of the church. The Statutes passed from time to time for the uniformity of public worship have proceeded upon, though not expressly dealing with the state of things. The 68th of the Canons of 1603 recognises it and enjoins the clergy to act upon it. In that Canon occurs the exception of persons excommunicated for some grievous and notorious crime, and of whose repentance no testimony could be given. The Canons of 1603 are no part of the Statute Law, and it is only in a qualified sense that they are part of the law at all. But this Canon has been taken as truly expressing the ancient Common Law of the Church. The Books of Common Prayer have been embodied into the Statute Law by the various Acts of Uniformity, and Rubrics are authoritative guides when they speak on the question when the services are or are not to be used.

6. Down to the year 1661 there was no Rubric forbidding the performaace of the burial service over any persons except persons excommunicated. The Rubric now in force was framed in the year 1661 and received the force of law from the Uniformity Act of 1662. It prescribes that "the office is not to be used for persons unbaptised or excommunicated, or who have laid violent hands on themselves."

7. The question now is whether the expression "have laid violent hands on themselves" includes all who have committed the overt act of suicide, or only those who have done so deliberately being in their sound senses and in a state in which moral responsibility attaches to them.

8. In Mr. Cripps'* Treatise the following statement is made:—

* Page 793.

The uniform practice, however, so far as it has been able to be ascertained, is in accordance with the reasoning and opinion of Dr. Burn, and it must be doubtful whether a departure from a custom of such acknowledged propriety would not be visited with ecclesiastical punishment.

9. The opinion of Dr. Burn will be found in his work on Ecclesiastical Law, Vol. I, p. 265. After referring to the ancient Canon which forbade Christian burial to those who violently put themselves to death, and stating that this rule was understood to apply to those who did the act voluntarily, Dr. Burn intimates that the Rubric should not be construed as severer than the preceding Ecclesiastical Law, and therefore should not apply to persons of insane mind.

10. In the year 1809 the Court of Arches, speaking of the treatment of suicides, put it on the ground that they are supposed to die in the commission of mortal sin, and to have renounced Christianity. *Kemp* versus *Wickes*, 3 Phillimore, pp. 272, 273.

11. The Government of India have not been referred to, and do not know of any authority for holding that the words of the Rubric apply to persons who are not responsible for their actions. It is certain that the practice has not been to apply those words in that way.

12. Under the circumstances the Governor-General in Council comes to the following conclusions:—

(a) It is reasonable in this matter to regulate the conduct of clergymen of the Church of England, who serve the Government of India, by the law and practice of the Church of England.

(b) There is no authority for holding that the Rubric under consideration applies to those who have caused their own death when in a state of mental insanity. For holding the contrary there is the authority of commentators and of judicial *dicta*. There is also the much greater authority derived from a usage which is very widespread and long continued, if indeed it is not quite unbroken. Testing the question by reason, it is only reasonable to hold that the framers of this Rubric did not intend as regards the burial of suicides to alter the law and practice that they found in existence or to visit with what must be considered as an ecclesiastical penalty, an act for which the doer is not responsible.

(c) Sincere respect is due to the scruples felt by conscientious men in performing a service of extreme solemnity. Nevertheless, it would not be reasonable that such scruples should prevail against the ancient law and practice of the Church of England which has been handed down to the present time, and which plainly authorises the use of the burial service over persons who have caused their own death while in a state of insanity.

13. The Governor-General in Council must therefore require from all clergymen connected with the Government their conformity to this ruling.

14. The next point for consideration is the rule requiring chaplains to read the funeral service over the bodies of persons who, having died in the profession of the Roman Catholic faith, have been refused burial by the priests of that church. It is stated by the Bishops of Calcutta and Madras that the clergy of the Church of England look upon the rule as bearing hardly upon them, and they desire to have it reconsidered.

15. This rule was laid down in the year 1855 under the belief that the case was governed by positive law, *viz.*, the 68th of the Canons of 1603. But on reconsideration of the matter the Governor-General in Council is of opinion—*1st*, that the Canon in question which is founded on the English parochial system cannot for the purpose now under consideration be applied to the very different circumstances of an Indian station; and *2ndly*, that even if it were applicable, it would not prevent the Government from establishing a different rule of conduct for Indian chaplains if found expedient.

16. The Governor-General in Council further thinks that for the case now under review a different rule is expedient. The chaplain of an Indian station does not stand to the residents in the station in the relation which the parson of an English parish bears to his parishioners. It was expressly so ruled by the Court of Directors in their despatch on this subject bearing date the 30th October 1844. Chaplains have been ordered to abstain from endeavours to influence the religious tenets of Roman Catholic soldiers, and in one case a chaplain was compelled to resign the service for persisting in such endeavours.

17. As regards the chaplains themselves, it does not seem consistent that they should be compelled to perform duties towards the corpse of a man whom when living they were

forbidden to approach in any pastoral relation, and the Governor-General in Council admits that the dissatisfaction which the chaplains have felt with the order of 1855 rests on reasonable grounds.

18. As regards other persons, it can hardly be agreeable to the feelings of either Protestants or Roman Catholics that the chaplain should be called in to supply a service which the priest has refused. To Protestants it must seem that in so acting their church is lax and careless about the performance of its solemn rites. To Roman Catholics it can hardly be otherwise than offensive that a stranger, who in their eyes has no authority should affect to give to a member of their church what the recognised authority of that church has thought fit to withhold. And neither community can wish it on account of any advantage to the dead man; not Prostestants, because the whole notion of such an advantage is contrary to their tenets; and not Roman Catholics, because they do not attribute any spiritual character to the chaplain.

19. For the above reasons the Governor-General in Council is pleased to revoke the order issued in the year 1855, and he will request the military authorities to make arrangements for the decent burial of Roman Catholic soldiers to whom the rites of their church have been refused by the priests.

Office memorandum from the Military Department, No. 810, dated the 16th November 1875, forwarding, for an expression of opinion, a draft General Order which His Excellency the Commander-in-Chief proposes to issue on the subject in accordance with the above rules.

RESOLUTION.—On a reconsideration of the subject, the Government of India think it necessary to modify the rules contained in the Resolution of 8th September 1875, so far as regards the burial of deceased Roman Catholics. The Government of India have now decided :—

1st, that at stations where there is a Roman Catholic priest drawing an allowance from Government, he shall be held bound to read the burial service over the body of every deceased Roman Catholic soldier brought for burial, unless he be excused from doing so by the Rubrics and Canons of the Roman Catholic church: and that when the Roman Catholic priest refuses to read the burial service over the body of a deceased Roman Catholic soldier, the military authorities shall make proper arrangements for the decent interment of the corpse;

2ndly, that where there is no Roman Catholic priest paid by the State the Protestant chaplain shall, if requested by the friends of the deceased, or by the officer commanding, be bound to bury the deceased according to the rites and ritual of the Church of England, except in either of the three cases in which Protestant chaplains in India are excused from burying a deceased Protestant, viz, dying unbaptised even by lay baptism; excommunicated by the major excommunication; or declared to be *felo de se*; and that when a Protestant chaplain refuses to officiate at the burial of a deceased Roman Catholic soldier, on either of the three abovementioned grounds, the military authorities shall, as in the case of refusal by a Roman Catholic priest, make proper arrangements for the decent interment of the corpse;

3rdly, that whenever, with or without furnishing any explanation of his reasons, a Roman Catholic priest paid by the State or a Protestant chaplain refuses to perform the funeral rites of his church over the body of a deceased Roman Catholic soldier, the circumstances of the case should be fully reported by the Military authorities for the consideration and orders of the Government.

2. The Governor-General in Council is accordingly pleased to direct the modification in the above sense of the provisions of paragraphs 15 to 19 inclusive of the resolution, dated 8th September 1875.

NOTE.—(1) The expression "proper arrangements for the decent interment of the corpse" in Rules 1 and 2 means that when both the Roman Catholic and Protestant chaplains refuse burial in a case of suicide by a Roman Catholic soldier whilst of unsound mind, the burial service should be read over the body by the officer commanding the deceased's company.

Letter to the Government of Madras, No. 317, dated the 31st October 1877.

(2) The intention of the passage "bound to bury" the deceased according to the rites and ritual of the Church of England' in rule 2 is, that the service of the Church of England should be read over the body, if the Prostant chaplain is requested by the friends of the deceased to do so; but the rule does not in any way reimpose on Protestant chaplains the burden of reading the burial service over either soldiers or civilians to whom a Roman Catholic chaplain has refused burial. There is nothing to prevent a chaplain burying anyone if he chooses to do so, provided they are not unbaptised "even by lay baptism," excommunicated by the major excommunication, or declare to be *felo de se*, only the Protestant chaplain is no longer bound to do so.

Letter to the Government of Madras, No. 317, dated the 31st October 1877.

(3) The expression "unbaptised even by lay baptism" in rule 2 is equivalent to "unbaptised by either clerical or lay baptism." The meaning intended to be conveyed is that baptism, either by lay or clerical, is sufficient to prevent a person from being regarded as 'unbaptised for the purposes of the rule.

Chief Secy. to the Govt. of Bengal

FINANCIAL DEPARTMENT.

NOTIFICATIONS.

No. 715S.R.—The 25th November, 1909.—In exercise of the powers conferred by the portions of the Bengal Excise Act, 1909 (Bengal Act V of 1909), hereinafter mentioned, the Lieutenant-Governor is pleased to make the following orders:—

SECTION 1, SUB SECTION (*3*).

1. The Act shall come into force on the 1st December, 1909.

SECTION 2, CLAUSE (*13*), SUB-CLAUSE (iii).

2. THE following articles are declared to be "intoxicating drugs," namely:—

(*a*) cocaine, and every preparation or admixture thereof, and

(*b*) novocaine, and every preparation or admixture thereof.

SECTION 3.

3. THE following articles shall be deemed to be *ganja*, *bhang* or *siddhi* and *charas*, respectively:—

ganja—the dried flowering tops of the female hemp plant which have become coated with resin in consequence of being unimpregnated and therefore unable to set seeds freely;

bhang or *siddhi*—the dried leaves of the hemp plant, whether male or female, and whether cultivated or uncultivated;

charas—the resinous matter formed on the flowering tops of the female hemp plant and collected separately.

SECTION 4.

4. With the previous sanction of the Government of India, the Lieutenant-Governor is pleased to declare that the following shall, for the purposes of the Act, be deemed to be "country liquor" and "foreign liquor," respectively:—

country liquor—

(1) plain spirit which has been made in British India from materials recognized in Bengal as bases for country spirit, namely, *mahua*, rice, *gur* or molasses, and on which duty has not been imposed at the rate fixed for the importation of spirit into British India,

(2) *tari*, and

(3) all fermented liquors made from *mahua*, rice, millet or other grain according to native processes;

foreign liquor—

(*a*) beer and spirit, wines and liqueurs, which have been imported into British India and were liable, on such importation, to duty under the Indian Tariff Act, 1894, or the Sea Customs Act, 1878, VIII of 1894. VIII of 1878.

(*b*) beer which has been brewed in India, or imported into British India in a condensed form and afterwards converted into potable beer, and on which excise duty has been imposed at the rate fixed for the importation of beer into British India,

(*c*) rectified spirit which has been made in India and on which excise duty has been imposed at the rate fixed for the importation of spirit into British India,

(*d*) spirit which has been made in India and has been sophisticated or compounded so as to resemble in colour and flavour whisky, brandy, gin or rum,

(*e*) spirit which has been made in India from some special bases (such as malt or toddy) not recognized in Bengal as bases for country spirit, and on which excise duty has been imposed at the rate fixed for the importation of spirit into British India,

(*f*) wine and liqueur which has been made in India and on which excise duty has been imposed at the rate fixed for the importation of wine or liqueur into British India, and

(*g*) denatured spirit.

Clause (*c*).	
9. In addition to the officers mentioned in paragraphs 5 to 8 of this notification, there shall be the officers of the Excise Department named below:—	
(*1*) three Excise Inspectors, and	The Province of Bengal.
(*2*) the following officers, to be appointed by the Excise Commissioner in exercise of the power conferred by clause (*a*) of paragraph 13 of this notification, namely:— (*a*) Excise Deputy Inspectors, (*b*) Excise Sub-Inspectors, (*c*) Excise Petty Officers, (*d*) Excise Peons, (*e*) Distillery Superintendents, and (*f*) Excise Clerks.	The areas to which they are respectively appointed.
Clause (*d*).	
10. The powers and duties assigned by and under the portions of the Act specified below to Excise Officers appointed under clause (*c*) of section 7 shall be exercised and performed also by the Government Officers indicated below, namely:— (*a*) section 66 (power to enter and inspect and power to test and seize measures, etc.)—Salt Officers not below the rank of Sub-Inspector, (*b*) section 70 (power to search without a warrant)—Police Officers not below the rank of officer in charge of a police-station, and Salt Officers not below the rank of Sub-Inspector, (*c*) section 73, sub-section (*2*) (so far as it relates to the investigation of offences punishable under section 46, section 48, section 52 or section 53), section 74, sub-section (*2*) (stopping of proceedings), section 75, sub-section (*5*) (release of persons on bail or on their own bond), and section 83, clause (*a*) (complaints or reports to Magistrate)—Police Officers not below the rank of officer in charge of a police-station, and Salt Sub-Inspectors. 11. The powers and duties assigned by paragraph 8 of this Notification to Excise Deputy Collectors, and the powers conferred upon certain Excise Officers by paragraphs 25 and 26 of this notification, shall also be exercised and performed, in sub-divisions, by Sub-divisional Officers.	Ditto ditto.

SECTION 7, CLAUSE (e).

12. The powers conferred on the Local Government by the portions of the Act specified below are delegated to the Board, namely:—

(1) section 9, clause (a) (power to give permission for the import of an excisable article),

(2) section 12, sub-section (1) (except the proviso thereto), so far as it relates to transport (power to prescribe the quantity of any excisable article for which a pass is required on transport),

(3) section 22, sub-section (1), clauses (a) and (b) (power to grant the exclusive privilege of manufacturing or supplying by wholesale, or of manufacturing and supplying by wholesale, country liquor or any intoxicating drug): Provided that no grant shall be made for any period exceeding five years,

(4) section 42, sub-section (1) (power to prescribe restrictions upon the cancellation or suspension of licenses, permits or passes), and

(5) section 54, clause (a) (power to empower Officers to demand the production of licenses, permits or passes).

13. The powers specified below are delegated to the Excise Commissioner, namely:—

(a) power to appoint Officers of the Excise Department below the rank of Excise Deputy Collector; and

(b) power to appoint, in consultation with the Commissioner of the Division, an Excise Deputy Collector, in the districts of Angul, Balasore, Bankura, Birbhum, Champaran, Darjeeling, Hazaribagh, Jessore, Khulna, Murshidabad, Nadia, Palamau, Puri, Sambalpur and Singhbhum, respectively, to exercise and perform, in addition to his other functions, all the powers and duties referred to in paragraph 8 of this notification.

SECTION 7, CLAUSE (g).

14. The Excise Commissioner may delegate to any Collector, Sub-divisional Officer or Excise Deputy Collector his power, under clause (a) of paragraph 13 of this notification, to appoint Officers of the Excise Department below the rank of Excise Deputy Collector, and his power, under rule 1 made under section 85 of the Act, to promote, to transfer, and to suspend, reduce, dismiss or otherwise punish, such Officers.

15. The Collector may delegate all or any of his powers or duties under the portions of the Act specified below to the following officers, namely:—

(a) section 12, sub-section (2) (power to grant passes for the import, export or transport of any excisable article)—to any Deputy Collector,

(b) section 12, sub-section (2) (power to grant passes for the transport of any excisable article)—to any Sub-Deputy Collector, or to any Officer of the Excise Department who is not below the rank of Sub-Inspector or who is in charge of a distillery or warehouse:

Provided that no delegation shall be made under this clause to any Officer below the rank of Sub-Deputy Collector or Deputy Inspector of Excise without the previous sanction of the Excise Commissioner,

(d) section 18, clause (f), and section 20, clause (d) (power to grant permits to use *tari* for the manufacture of bread)—to any Deputy Collector or Sub-Deputy Collector, or any Excise Officer not below the rank of Sub-Inspector,

(e) section 19, sub-section (1) (power to grant permits to possess excisable articles in excess of the quantity declared to be the limit of a retail sale) —to any Deputy Collector or Sub-Deputy Collector, or any Excise Officer not below the rank of Sub-Inspector,

(g) section 68 (issue of warrant of arrest)—to any Deputy Collector or Sub-Deputy Collector,

(h) section 69 (issue of search-warrant)—to any Deputy Collector or Sub-Deputy Collector,

(j) section 73, sub-section (1) (investigation of offences)—to any Deputy Collector.

SECTION 11, CLAUSE (b).

16. The transport of country spirit is prohibited in the following circumstances, namely:—

(1) when manufactured in an outstill—its transport to any area in which the sale of distillery spirit is allowed, and

(2) when manufactured in a distillery—its transport to any area in which a higher duty is levied, if the special permission of the Collector to such transport has not been obtained.

SECTION 21.

17. The distance of two miles is prescribed as the distance from the limits of military cantonments within which no license for the manufacture or sale of liquor shall be granted without the previous consent of the Commanding Officer.

SECTION 27.

18. Duty is imposed on country spirit at the rates respectively specified below:—

SECTION 60.

24. Every proceeding under the Act before an Excise Deputy Collector, a Subdivisional Officer, or any Deputy Collector exercising the powers of a Collector shall be deemed to be a "judicial proceeding" within the meaning of section 228 of the Indian Penal Code. XLV of 1860.

SECTION 66, CLAUSE (*c*), SECTION 70, and SECTION 75, SUB-SECTION (*5*).

25. Any Excise Officer not below the rank of Sub-Inspector may exercise the powers conferred by sections 66 and 70, and by section 75, sub-section (*5*), of the Act.

SECTION 73, SUB-SECTION (2).

26. Excise Deputy Inspectors and Excise Sub-Inspectors are empowered to investigate any offence punishable under the Act.

SECTION 74, SUB-SECTION (2).

27. If any Excise Sub-Inspector considers that he ought to stop further proceedings against any person concerned, or supposed to be concerned, in an offence, he shall forthwith send a report to the Collector or Excise Deputy Collector (or, in a sub-division, to the Sub-divisional Officer) stating all the facts relating to the initiation of proceedings and his reason for thinking that further proceedings should be stopped, and shall not stop such proceedings unless the Collector or Excise Deputy Collector (or Sub-divisional Officer) authorizes him to do so.

SECTION 90.

28. The excisable articles named below are exempted from the provisions of the Act specified below, namely :—

(1) *pachwai* is exempted from the provisions of the Act relating to manufacture and possession, when it is manufactured and possessed—

(i) by any person in the Sonthal Parganas, or

(ii) by persons belonging to aboriginal tribes, in the Chota Nagpur Division or in the Banka sub-division of the Bhagalpur district, or

(iii) by persons belonging to aboriginal tribes in the Bankura, Birbhum, Burdwan or Midnapore district, during such portion of the *Bandhana* festival as may be notified in this behalf by the Collector, or

(iv) up to a limit of twelve seers undiluted, by persons belonging to hill tribes and other aboriginal tribes in the Darjeeling district ;

(2) all excisable articles upon which the full tariff or excise duty has been paid, and which are contained in medicinal preparations intended *bonâ fide* for medicinal purposes [other than preparations referred to in clause (4) of this paragraph] are exempted from the provisions of the Act relating to possession and sale ;

(3) perfumed spirit, when manufactured from duty-paid foreign spirit that has not been denatured, is exempted from the provisions of the Act relating to possession and sale ; and

(4) medicated wines and similar preparations, containing foreign liquor, are exempted from the provisions of the Act relating to sale, subject to the following conditions, namely :—

(a) if they contain alcohol equivalent to 20 per cent. and not more than 42 per cent. of proof spirit, they shall be sold only by —

(i) persons licensed under the Act to sell foreign liquor, or

(ii) persons who carry on business as chemists, druggists, apothecaries or keepers of dispensaries, or who are specially approved by the Collector, and who hold a special license granted by the Collector under the Act,

(b) if they contain alcohol equivalent to more than 42 per cent. of proof spirit, they shall be sold only by persons licensed under the Act to sell foreign liquor,

(c) if they have been manufactured in Bengal, they must, before sale by the manufacturer, be submitted to the Excise Commissioner for determination of the percentage of proof spirit contained in them, and on such determination being made the Excise Commissioner shall decide whether sub-clause (a) or sub-clause (b) of this clause applies to them,

(d) a licensee holding a license for the sale of preparations referred to in sub-clause (a) of this clause must prove to officers authorized to inspect shops that the preparations kept by him for sale do not contain alcohol equivalent to more than 42 per cent. of proof spirit,

(e) the proof required by sub-clause (d) of this clause shall be either—

a certificate from the Collector of Customs, Calcutta, or other port of import, or a certificate of purchase from the importer, together with a copy of the certificate of the Collector of Customs, or

if the preparations were manufactured in Bengal, a certificate from the Excise Commissioner, or

if the preparations were manufactured in any other part of India, a certificate from the chief Excise Authority of that part.

H. WHEELER,
Secretary to the Govt. of Bengal.

No. 716S.R.—The 25th November 1909.—In exercise of the power conferred by section 85 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), the Lieutenant-Governor is pleased to make the following rules.

APPOINTMENTS, TRANSFERS AND PUNISHMENTS.

1. The power to promote, to transfer, and to suspend, reduce, dismiss or otherwise punish, officers of the Excise Department below the rank of Excise Deputy Collector shall rest with the Excise Commissioner.

APPEALS.

2. An appeal shall lie to the Collector from any order of any officer subordinate to him and discharging functions under the Act or under any rule or order made under the Act.

3. An appeal shall lie to the Excise Commissioner from any original order made by the Collector (but not from any original order made by an officer discharging functions of the Collector) and from any order made by the Collector on appeal.

4. An appeal shall lie to the Board from any order (except orders referred to in section 35 of the Act) made, whether on appeal or otherwise, by the Excise Commissioner:

Provided that when an order made by a Collector, whether on appeal or otherwise, is upheld by the Excise Commissioner, no further appeal shall lie.

5. Every memorandum of appeal must be presented within one month from the date of the order appealed against.

6. Every memorandum of appeal shall be accompanied by the order appealed against, in original, or by an authenticated copy of such order, unless the omission to produce such order or copy is explained to the satisfaction of the appellate authority.

IMPORT, EXPORT AND TRANSPORT.

7. The import, export and transport, respectively, of the excisable articles hereinafter specified shall be subject to the following rules, in addition to the restrictions imposed by sections 9, 10 and 12 and any prohibition made under section 11 and any rules made by the Board under section 86, clause *(12)*, of the Act.

FOREIGN LIQUOR.

Import of foreign liquor under bond for payment of excise duty.

8. The import of foreign liquor under a bond for payment of the duty imposed under section 27 may be made only by a vendor holding a license for the sale of foreign liquor and after he or his agent has—

(*a*) executed a bond (which may be either a general or a special bond), in favour of the chief Revenue-authority of the district or place of export, for the payment of the said duty, and

(*b*) obeyed all rules in force in the district or place from which the export was made.

9. Foreign liquor shall not be imported under a bond as aforesaid unless—

(*a*) the consignment is accompanied by a pass, granted by the chief Revenue-authority of the exporting district or place, or the officer in charge of the distillery, brewery or warehouse from which it was taken, in such form as may be prescribed for use in the exporting district or place, and

(*b*) the Collector of the importing district has received a copy of the said pass from the chief Revenue-authority of the exporting district or place, or from the officer in charge of the said distillery, brewery or warehouse.

10. *(1)* Whenever any foreign liquor is imported under a bond as aforesaid, it must, on arrival in Bengal, be taken direct to the distillery or excise warehouse specified in this behalf in the pass referred to in rule 9.

NOTE.—The excise godown in Calcutta, and liquor warehouses at district or sub-divisional head-quarters, have been fixed by the Excise Commissioner, Bengal, for the storage of such liquor.

(2) On the arrival at a distillery or excise warehouse in Bengal of any such liquor, it shall be tested and measured by the officer in charge of the distillery or warehouse, and shall be taken into store and entered in his accounts.

(3) As soon as may be after such arrival, the officer in charge of the distillery or warehouse shall certify on the importer's copy of the pass full details regarding the liquor received, in such form as may be prescribed in the pass or required by the authorities of the exporting district or place.

Export of foreign liquor to other Provinces in British India, under bond for payment of excise duty.

11. When any person desires to remove foreign liquor from any distillery, brewery or excise warehouse for export to any other Province in British India, under a bond for the payment of excise duty, he must execute a bond, in the prescribed form, before the Collector of the district in which the distillery, brewery or excise warehouse is situated.

(2) Such bond may be either a general or a special bond.

(3) The Collector shall sign the bond on behalf of the Secretary of State, as a party to the instrument.

(4) The Collector shall then intimate the fact of the execution of the bond to the officer in charge of the distillery, brewery or excise warehouse, who shall, after the particulars thereof have been entered in the prescribed bond register, issue the liquor as if duty had been paid.

12. No liquor shall be so issued until it has been measured and proved by the officer in charge of the distillery, brewery or warehouse.

13. (1) A pass, in triplicate, shall be prepared by the officer in charge of the distillery, brewery or excise warehouse when any liquor is issued under clause (4) of rule 11.

(2) One copy of the pass shall be delivered to the exporter, the second shall be forwarded to the Collector of the district to which the liquor is to be taken, and the third shall be retained for record.

14. (1) Each cask or other vessel containing liquor issued from a distillery, brewery or excise warehouse under clause (4) of rule 11 shall bear marks showing clearly the name of such distillery, brewery or warehouse, and the number of the cask or other vessel, and the nature, quantity and strength of its contents.

(2) Each such cask or other vessel shall be sealed by the officer in charge, and a distinct impression of the seal shall be affixed on the pass forwarded to the Collector of the importing district under clause (2) of rule 13.

15. Accounts of all exports shall be kept, in the prescribed form, by the officer in charge of the distillery, brewery or warehouse.

Export of foreign liquor to Native States or foreign territory in India.

16. No foreign liquor shall be exported to any Native State or foreign territory in India unless the duty imposed thereon under section 27 has been paid.

Transport of foreign liquor under bond for payment of excise duty.

17. Rules 11 to 15 shall apply, *mutatis mutandis*, to the transport between distilleries, breweries and excise warehouses of foreign liquor on which full duty has not been paid under the Act

COUNTRY SPIRIT.

Import of country spirit.

18. (1) Country spirit may be imported only with the permission of the Excise Commissioner, and under a bond for the payment of excise duty, and by—

(a) a person to whom an exclusive privilege for the supply or sale of such spirit has been granted under section 22, or

(b) a licensed wholesale dealer in country spirit.

(2) Rules 8 to 10 shall apply to such imports.

Export of country spirit.

19. (1) Country spirit may be exported only under a bond for the payment of excise duty and with the permission of the Excise Commissioner, which will not be given unless the authorities of the place of import allow the importation of such spirit therein.

(2) Rules 11 to 15 shall apply, *mutatis mutandis*, to such exports.

Transport of country spirit.

20. Rules 11 to 15 shall apply, *mutatis mutandis*, to the transport of country spirit between distilleries and excise warehouses.

GANJA.

Import of ganja for use in Bengal.

21. *Ganja* for use in Bengal may be imported only by licensed wholesale vendors of *ganja*, and only—

(a) from Naugaon in the district of Rajshahi, into any part of Bengal, or

(b) from Khandwa in the Central Provinces, into the Sambalpur district.

22. Such import may be made only after the importer or his agent has—

(a) executed a bond (which may be either a general or a special bond), in favour of either the Collector of the importing district or the Collector of Rajshahi or the Deputy Commissioner of Nimar, as the case may be, or such other officer as the Local Government of Eastern Bengal and Assam or the Central Provinces, as the case may be, may direct, for the payment of the duty imposed under section 27, and

(b) obeyed all rules made by the authorities of the Province from which the import is made.

23 (1). A licensed wholesale vendor desiring to import *ganja* must apply for a pass to the Collector, who, if he is satisfied that there is necessity for such import, shall grant him a pass in the prescribed form.

(2). Two copies of the said pass shall be sent by the Collector immediately to the Sub-divisional Officer of Naugaon or Khandwa, as the case may be.

24. Such import shall not be made unless the importer has obtained from the proper authority in the exporting district a pass containing the following particulars, namely:—

(a) the weights both of the *ganja* alone and of the *ganja* with its straw and covering;
(b) the number of bales or bags of each kind of *ganja* protected by the pass,
(c) the distinguishing marks by which such bales or bags may be identified,
(d) the name of the person to whom delivery of the *ganja* was given, and
(e) the route by which the *ganja* is to be conveyed.

25. A pass referred to in rule 23 or rule 24 shall not have effect for more than one month from the date on which it was granted, unless its currency be extended by either the Collector of the importing district or the Sub-divisional Officer of Naugaon or Khandwa and, if the extension is made by either of such Sub-divisional Officers, unless it be notified to the Collector of the importing district.

26 (1). On arrival in Bengal, the *ganja* shall immediately be taken direct to the excise warehouse specified in this behalf in the pass referred to in rule 23 or rule 24.

(2) Such warehouse must be a Government warehouse, where there is one, or, where there is no Government warehouse, then a private warehouse licensed by the Collector with the approval of the Excise Commissioner.

(3) Every licensed wholesale vendor must pay such rent for the use of a Government warehouse as may be fixed by the Collector.

27. Either the Excise Deputy Collector or such other Excise Officer as may be authorized by the Collector in this behalf shall, upon the arrival of the *ganja* at the warehouse, examine, weigh and store it, and shall send to the officer who permitted the export such intimation of the arrival of *ganja* as may be required by any rules in force in the place of export.

Import of ganja for export to the Tributary States in Sambalpur.

28. *Ganja* may be imported into Bengal from the Government warehouse at Khandwa in the Central Provinces for export to the Tributary States of Bamra, Kalahandi, Patna, Rairakhal and Sanpur, in Sambalpur, only if it is covered by a pass granted by the Political Agent and if the cost of producing and importing and exporting the *ganja* has been paid.

28A. *Ganja* imported under rule 33A may be exported to the Native States in Orissa mentioned in the margin of rule 33, only if it is covered by the pass and permit therein referred to.

Export of ganja to other Provinces in British India.

29. No *ganja* shall be exported to any other Province in British India unless it is sent direct from an excise warehouse.

30. Such export shall be allowed only on the production by the exporter of an authority from the Collector of the district to which the export is to be made.

31. (1) If the export is to be made upon payment of duty, the Collector, or such officer as may be appointed by him in this behalf, shall, on production of the authority referred to in rule 30 and also of a chalan showing the payment of the duty imposed under section 27, issue a pass authorizing the export of the *ganja* and also issue the *ganja* specified in the pass.

(2) The pass shall also specify the route by which the *ganja* is to be conveyed.

32. (1) If the export is to be made on the execution of a bond for payment of the duty imposed under section 27, the exporter must execute a bond (which may be either a general or a special bond), in favour of either the Collector of the exporting district or the Collector of the importing district.

(2) On proof of the execution of such a bond, the Collector, or the officer appointed under rule 31, shall issue a pass to authorize the export of the *ganja*, and shall send a copy of the pass by post to the Collector of the district to which the *ganja* is to be exported.

(3) The quantity of *ganja* specified in the pass shall then be issued to the exporter for despatch to the warehouse specified in the pass.

(4) The pass shall also specify the route by which the *ganja* is to be conveyed.
(5) The bond shall not be discharged until intimation of the arrival of the *ganja* has been received by the Collector of the exporting district from the Collector of the importing district.

Export of ganja to seventeen Native States in Orissa.

33. *Ganja* may be exported to any of the Native States in Orissa noted in the margin, if it is taken from an excise warehouse in the district of Angul, Balasore, Cuttack or Puri and is covered by a pass granted by the Collector of the district and a permit (either general or special) granted by the Superintendent of the Feudatory States or the Political Agent of the State.

1	Athgarh.	9.	Khandpara.
2.	Athmallik.	10.	Mourbhanj
3.	Baramba.	11.	Narsingpur.
4.	Boad.	12.	Nayagarh.
5.	Daspalla.	13.	Nilgiri

7.	Hindol.	15.	Rampur.
8.	Keonjhar.	16.	Talcher.
		17.	Tigharia.

33A. *Ganja* may be imported into Bengal from the Government warehouse at Naugaon for export to any of the States mentioned in the margin of rule 33, only if it is covered by a permit (either general or special) granted by the Superintendent or the Political Agent of those States, and by a pass granted by the proper authorities at Naugaon.

Export of ganja to the Orissa Feudatory States of Bonai and Gangpur and to the Chota Nagpur Feudatory States of Kharswan and Seraikhela.

34. Rajshahi *ganja* may be exported to the Orissa Feudatory States of Bonai and Gangpur or the Chota Nagpur Feudatory States of Kharswan and Seraikhela, only if it is taken from the *ganja* warehouses at Purulia or Chaibassa.

Export of ganja to the Native States of Nepal, Bhutan and Sikkim.

35. *Ganja* may be exported to the Native State of Nepal, Bhutan or Sikkim only if it is taken from an excise warehouse in one of the bordering districts in Bengal, namely, Bhagalpur, Champaran, Darbhanga, Darjeeling, Muzaffarpur and Purnea.
36. *Ganja* shall be issued from such warehouses for such export only to *ganja* vendors of the State concerned who produce a license or other authority from that State to purchase *ganja*.
37(*1*) The officer in charge of the warehouse shall, on production of proof of payment of the duty imposed under section 27, issue a pass to cover the consignment, and shall issue the *ganja* accordingly.
(*2*) The said pass shall be returned by the exporter to the officer in charge, within the period specified therein.
38. In case of habitual neglect or delay by any exporter in returning passes, the Collector may either stop the further issue of *ganja* to such exporter, or take such other steps, with the approval of the Excise Commissioner, as may be necessary to enforce the timely return of passes.

Export of ganja to French Chandernagore.

39(*1*) *Ganja* may be exported to French Chandernagore from the Calcutta warehouse only.
(*2*) Rules 36 to 38 shall apply to such exports.

Export of ganja to the Tributary States in Sambalpur.

40. *Ganja* imported under rule 28 may be exported to the States therein mentioned only if it is covered by the pass therein referred to and if arrangements approved by the Political Officer and the Collector are made for its safe custody in transit through British territory.

Export of ganja by sea to countries outside British India.

41. When any person desires to export *ganja* by sea to a country outside British India, he must apply to the Collector of the Calcutta district for permission to export the *ganja*, and when the duty imposed under section 27 has been paid the Collector shall grant him a pass, in the prescribed form, and shall send a copy thereof to the Collector of Customs, Calcutta.
42. The *ganja* shall then be delivered to the exporter from the excise warehouse in Calcutta, and shall immediately be taken over to the Customs authorities for shipment.
43. The Collector of Customs, Calcutta, shall return the pass to the Collector of the Calcutta district, after noting thereon the quantity actually exported.

BHANG OR SIDDHI.

Import of bhang.

44(*1*) *Bhang* may be imported only by licensed wholesale vendors of *bhang* in the districts of Champaran, Muzaffarpur and Saran, and only from the district of Gorakhpur in the United Provinces.
(*2*) Rules 22 to 27 shall apply, *mutatis mutandis*, to such imports.

Export of bhang.

45. Rules 29 to 32 shall apply to exports of *bhang* to other Provinces in British India.

46. Rule 33, or rule 34, or rules 35 to 38, as the case may be, shall apply to exports of *bhang* to Native States.

CHARAS.

Import of charas.

47. *Charas* may be imported only by licensed vendors of *charas* and only from bonded warehouses in the Punjab.

48. A licensed vendor desiring to import *charas* must obtain from the Collector of the importing district a permit in such form, and pay therefor such fee, as may be prescribed by the Board.

49. Such import may be made only if the importer or his agent has—

(*a*) obeyed all rules made by the authorities of the Punjab,

(*b*) obtained a pass from the proper authority in the exporting district, and

(*c*) immediately on receiving the *charas* from the said bonded warehouse, conveyed it to the nearest railway station and consigned it by railway to the Collector of the importing district and sent the railway receipt to such Collector in a registered cover.

50. No quantity of *charas* in excess of the quantity specified in the permit granted under rule 48 shall be imported.

51(*1*). The Collector of the importing district shall depute an Excise Officer to take delivery of the *charas* from the railway station, and the said officer shall produce the *charas* before the Excise Deputy Collector, or such other officer as the Collector may specify, for examination, weighment and comparison with the pass received from the exporting district.

(*2*) When the *charas* has been examined under clause (*1*) of this rule and the import duty has been fully paid, it shall be made over to the importer for sale.

(*3*) Intimation of the arrival of the *charas* and of the realization of the full duty thereon shall immediately be sent by the examining officer to the officer in charge of the bonded warehouse in the Punjab from which the drug was exported.

COCAINE AND NOVOCAINE.

Export and transport of cocaine or novocaine.

52. The export and transport of cocaine or novocaine, in quantities in excess of the quantity declared under section 5 to be the limit of a retail sale, may be made only by a licensed chemist or druggist, and only on the production—

(*a*) in the case of export to a district in British India—of permission from the Collector of that district, or

(*b*) in the case of export to a Native State or foreign territory in India—of permission from the proper authority therein, or

(*c*) in the case of transport within a district—of a permit granted by the Collector, or

(*d*) in the case of transport from one district to another—of a permit granted by the Collector of the latter district.

DURATION AND NUMBER OF LICENSES.

53. Licenses for the wholesale or retail vend of excisable articles may be granted for one year, from the 1st April to the 31st March, subject to the following provisions:—

(1) licenses for the retail vend of country spirit, *ganja*, *bhang* or *charas*, in the Calcutta district, and subsidiary licenses for the retail vend of foreign liquor in that district, may be granted for three years, beginning on the 1st April;

(2) licenses for the retail vend of *pachwai* may be granted for any number of years up to three, beginning on the 1st April, in cases where the Excise Commissioner considers this advisable;

(3) if any license be granted during the course of the financial year, it shall be granted only up to the 31st March next following;

(4) season licenses for the sale of either fresh or fermented *tari* may be granted for periods fixed by the Collector;

(5) temporary licenses may be granted to provide for the supply of excisable articles on temporary and special occasions, *e.g.*, fairs, regimental camps of exercise, etc., and shall be limited to the period during which such temporary or special occasions last;

(6) wholesale licenses for the supply and sale of excisable articles may be granted for any number of years not exceeding five, as the Board may decide in each case.

54. The number of licenses which may be granted for any local area shall be regulated by the needs of the people of that area, and no license for the sale of any excisable article in any local area shall be granted unless it is required either to meet an ascertained demand for such article or to counteract supply through illicit sources.

55. The general principles below stated shall be borne in mind, and shall be applied by Collectors so far as possible in fixing the number of licenses to be granted for the retail sale of liquor for consumption on the premises of the vendor:—

Liquor shops should not be so sparsely distributed as to give to each a practical monopoly over a considerable area, or at least such a monopoly should only be allowed when prices can be effectively fixed. At the same time, two or more shops should not be equally convenient to a considerable number of persons. In other words, liquor shops need not be so limited in number as to make it practically impossible for a resident in a particular area to get his liquor except from one particular shop; but it should only be possible for him to get his liquor from two different shops at the cost of considerable inconvenience, and he ought to have as little freedom of choice in the matter as possible.

LOCATION OF SHOPS.

56. (1) No new shop shall be licensed, for the consumption of liquor on the vendors' premises,—

(a) in a market-place, or
(b) at the entrance to a market-place, or
(c) in close proximity to a bathing ghât, school, hospital, place of worship, factory, or other place of public resort, or
(d) in the congested portion of a village.

(2) So far as practicable, an established liquor shop licensed for the consumption of liquor on the premises should not be allowed to remain on a site which would not, under clause (1) of this rule, be permissible for the location of a new shop.

(3) In areas inhabited by aboriginal tribes, country spirit shops shall not be licensed to be placed immediately on the side of a main road or in any other prominent position that may place temptation in the way of the aborigines.

57. In granting licenses for new shops, and, as far as practicable, in granting licenses for established liquor shops, the Collector shall have regard to the following principles:—

(a) a liquor shop should not be inaccessible to consumers, but it should not be in such a situation as to obtrude itself on the attention of the public or to render persons passing by subject to annoyance from persons drinking;
(b) in towns, the position of a liquor shop should be so far public that persons entering it should not escape observation, and it should be such as to render supervision easy, but it should not be so prominent as to compel attention, *e.g.*, by occupying a whole side of a public square;
(c) a liquor shop should never occupy a position to which the near neighbours object on grounds which, upon inquiry, appear to be sufficient and free from malice or ulterior motives.

58. Licenses for the retail sale of liquor at any place within two miles of the border of another district shall not be granted unless the Collectors of both districts concur, or, if they fail to concur, unless the Excise Commissioner so directs.

59. No outstill license shall be granted for any place within five miles of any distillery area situated either in Bengal or in any adjoining British Province, except under very special circumstances, *e.g.*, the existence of a large mart.

60. Except with the previous sanction of the Local Government, which will only be granted in exceptional cases, shops shall not be licensed for the retail sale of any excisable article within three miles of the border of any of the following Tributary States, namely:—

(1) Athgarh,	(9) Gangpur,	(17) Nayagarh,
(2) Athmallik,	(10) Hindol,	(18) Nilgiri,
(3) Bamra,	(11) Kalahandi,	(19) Pallahara,
(4) Baramba,	(12) Keonjhar,	(20) Patna,
(5) Boad,	(13) Kharsowan,	(21) Rairakhol,
(6) Bonai.	(14) Khondpara,	(22) Ranpur,
(7) Daspalla,	(15) Mourbhunj,	(23) Seraikhela,
(8) Dhenkanal,	(16) Narsinghpur,	(24) Sonepur,
(25) Talcher,	(26) Tigheria.	

NOTE.—The Chiefs of the Native States noted above are also expected to observe the above distance limit as regards shops in their territories.

61. Licenses for the sale of foreign liquor for consumption on the vendors' premises shall only be granted in places where there is a proved demand on the part of a class of drinkers accustomed to foreign liquor, *e.g.*, in large industrial centres, or in towns where there is a population specially accustomed to drinking such liquor.

PROHIBITION OF GRANT OF RETAIL LICENSES TO CERTAIN PERSONS.

62. Licenses for the retail sale of any excisable article shall not ordinarily be granted—
(a) to any persons who have been convicted by a Criminal Court of a non-bailable offence, or
(b) to former licensees who are in arrears to Government, or whose conduct has been found to be unsatisfactory, or who have been found guilty of any serious breach of conditions of their licenses.

63. No license shall be granted to an outstill licensee for the retail sale of distillery spirit or *tari* in a shop within five miles of his outstill.

64. No license shall be granted to a distillery shop licensee for the retail sale of outstill spirit or *tari* in a shop within five miles of his distillery shop.

PROHIBITION OF SALE TO CERTAIN PERSONS.

65 (1) No excisable article shall be sold—
(a) to any Railway servant at the time on duty, to any Excise, Salt or Police Officer below the rank of Sub-Inspector being in uniform, any European vagrant under Police escort, or any insane person, by any licensed vendor or by the agent or servant of any licensed vendor, or
(b) to any soldier, whether in uniform or not, or any member of a soldier's family, or any camp-follower, by any licensed vendor or the agent or servant of any licensed vendor, unless such licensed vendor has been approved by the General Officer Commanding the Division or the Officer Commanding a Cantonment or Camp.

(2) In this rule,—
(i) "soldier" does not include a commissioned officer, a volunteer, or a soldier in civil employ, and
(ii) "camp-follower" means a person (other than a soldier or a private servant) whom the person selling an excisable article knows or has reason to believe to have a right to be in cantonments.

ASCERTAINMENT OF LOCAL OPINION PRIOR TO THE GRANT OF CERTAIN LICENSES FOR THE SALE OF LIQUOR.

Licenses for the retail sale of spirit for consumption in the vendors' premises.

66. (1) By the 15th November the Collector shall prepare a list showing what licenses it is proposed to grant for the retail sale of spirit, for consumption on the vendors' premises, for the next period of settlement.

(2) The said list shall specify, as accurately as may be possible, the locality of the premises to be licensed, and shall distinguish proposed new licenses from existing licenses which it is proposed to renew.

67. Before the 1st December, the Collector shall—
(a) affix the notice required by clause (a), and proclaim the notice required by clause (b), of section 31, and
(b) send to the Chairman of each Municipality an extract reproducing so much of the said list as relates to shops in the Municipality for the sale of spirit for consumption on the vendors' premises, and
(c) send to the Commanding Officer of each cantonment an extract reproducing so much of the said list as relates to shops within the limits of the cantonment or within a distance of two miles from those limits, and
(d) give such opportunity as he thinks to be required for the expression of opinion—
(i) by Railway authorities, on proposals for the grant of licenses for shops near railway stations;
(ii) by forest officers, on proposals for the grant of licenses for shops for supplying spirit to aboriginal tribes inhabiting forests; and
(iii) by large employers of labour in tea gardens, mills, factories and coal mines, on proposals for the grant of licenses for shops for supplying spirit to their labourers.

68. The Chairman of each Municipality shall cause a copy of the extract sent to him under rule 67, clause (b), to be conspicuously affixed at the central office of the Municipality for a period of not less than seven days expiring before the 14th December, and shall send to each member of each Ward Committee (if any), not later than the 5th December, a copy of so much of the extract as relates to shops situated in his Ward.

69. All objections and opinions with respect to proposals contained in the list referred to in rule 66 must be sent so as to reach the Collector by the 15th December;

and the Commanding Officer of each cantonment must inform the Collector by the same date whether he consents to the proposals contained in the extract sent to him under rule 67, clause (c).

70. (1) In towns with a population of 20,000 or more, a local Committee, constituted in such manner as the Local Government may direct, shall, unless the Local Government in any case otherwise directs, be formed, by the 15th December, to consider and advise the Collector upon the proposals contained in the list referred to in rule 66 regarding number of licenses and location of shops.

(2) The Collector shall record the opinion of the Committee upon the proposed number of licenses and location of shops and upon the objections which he has received by the said date; and, if that opinion is not accepted by him, he shall record his reasons for disagreement.

71. Between the 20th and the 31st December the Collector shall submit the list referred to in rule 66, as revised by him under section 34, and the objections and opinions which he has received by the 15th December, and a report of the proceedings of the Committee referred to in rule 70, and his own opinion,—

(a) in the case of shops outside the Calcutta district, to the Commissioner of the Division, and
(b) in the case of shops in the Calcutta district, to the Excise Commissioner.

72. On or before the 15th January, the Commissioner of the Division shall forward to the Excise Commissioner the list, objections, opinions and report so submitted to him, with his own opinion and recommendations (if any).

Other licenses for the sale of liquor.

73. Subject to any orders hereafter made by the Board under section 36, rule 66, rule 67 [except clause (a)] and rules 68 to 72 shall apply also to the following licenses, namely:—

(*1*) hotel, restaurant and bar licenses for the "on" sale of foreign liquor;
(*2*) retail licenses for the sale of foreign liquor for consumption on the premises of the vendor or for both "on" and "off" consumption;
(*3*) country spirit retail licenses;
(*4*) outstill licenses;
(*5*) *pachwai* licenses; and
(*6*) fermented *tari* licenses:

Provided that, in the case of *pachwai* licenses and fermented *tari* licenses which it is proposed to grant outside municipalities, an abstract of the revised list referred to in rule 71 shall be submitted to the Commissioner of the Division, instead of a full list, unless the Commissioner specially directs the submission of a full list.

RESTRICTIONS ON THE EXERCISE OF POWERS CONFERRED BY SECTIONS 66 AND 67.

74. No Excise Officer below the rank of Deputy Inspector, and no Salt Officer. shall exercise any of the powers conferred by section 66 (entry, inspection, testing, seizure, &c.) in respect of any licensed place of manufacture or storage which is under the charge of an Excise Officer, unless he is specially authorised in writing by the Collector to do so.

75. (*1*) Officers below the rank of Sub-Inspector in the Excise, Police or Salt Department, or of Preventive Officer in the Customs Department, or of Gumashta of the Opium Department, or of Kanungo in the Land-revenue Department may exercise in open places only the power conferred by section 67 (arrest without warrant, seizure and search).

(*2*) The expression "open places" in this rule means "open" in the ordinary sense, as opposed to "closed", but does not include a dwelling-house.

76. Any officer who, outside his local jurisdiction, arrests any person or seizes any article under section 67 shall without delay make over such person or article to an Excise Officer having local jurisdiction, or to the Officer in charge of the nearest police-station.

INFORMATION AND AID TO EXCISE OFFICERS.

77. The information which officers referred to in section 71 are required to give of breaches of provisions of the Act shall be given to the Collector or the Sub-divisional Officer or to the nearest Excise Officer having jurisdiction to investigate the offence.

78. No Excise Officer below the rank of Sub-Inspector shall request any officer referred to in section 71, sub-section (*1*), to aid him in carrying out the provisions of the Act or of any rule, notification or order made, issued or given under the Act.

79. (1) When any Excise Officer not below the rank of Sub-Inspector requires the aid of any officer referred to in section 71, sub-section (1), in making any arrest or search under the Act, he shall send,—

(a) if the aid of the police is required—to the officer in charge of the police-station within the limits of which the arrest or search is to be made, or
(b) if the aid of any other officer referred to in the said sub-section is required—to the nearest superior officer of the Department or body which he serves,

a requisition (which shall be in writing, if the exigencies of the occasion permit) stating the nature of the aid required and the reasons for which it is required.

(2) If any officer to whom a requisition is sent under clause (1) of this rule feels unable to render the aid required, he shall forthwith inform the officer who sent the requisition of his reasons for withholding it, and shall, if necessary, refer to his immediate superior for instructions.

80. A village chaukidar or daffadar shall not be required to aid Excise Officers in carrying out any provisions of the Act, or of any rule, notification or order made, issued or given under the Act, except in the matter of making an arrest, search or seizure or a distraint of movable property within the village, union or circle for which he is appointed.

GRANT OF EXPENSES TO WITNESSES.

81. Expenses of witnesses appearing under summons or produced before any Court in Excise cases may be granted by the Court, or by the Collector, in accordance with the following rules, namely :—

(a) in the case of Government servants—rules 103 to 107 in the Bengal Treasury Manual, 1906, and
(b) in the case of other persons—the rules made by the High Court for the grant of expenses to witnesses in criminal cases.

GRANT OF COMPENSATION.

82. Compensation for loss of time may be granted, to persons referred to in section 85, clause (n), by the Collector or by the Magistrate before whom they are charged.

2. Such grants shall be made under the same conditions as grants of expenses under the rules referred to in clause (b) of rule 81, and shall be subject to the maximum limit prescribed by those rules for the grant of expenses.

NOTIFICATION.

No. 3157J.—The 25th November 1909.—IN supersession of all previous orders on the subject, the following rules made by the Lieutenant-Governor under Rule 9, Order XXVI, Schedule I, of the Code of Civil Procedure, 1908, relating to the issue of commissions to qualified pleaders, are published for general information.

The rules shall come into force on the 1st April 1910.

Issue of Commissions.

1. When a commission issued by a Civil Court under Rule 9, Order XXVI, Schedule I, of the Code of Civil Procedure, 1908, is of such a nature as to require that the person executing it should have some knowledge of surveying, it should ordinarily be issued only to a person who holds a certificate of proficiency in surveying granted in accordance with these rules, or the rules promulgated with Government Resolutions No. 2047J.—D., dated the 9th October 1901, and No. 2724J.—D., dated the 24th September 1904, which were published in the issues of the *Calcutta Gazette* of the 16th October 1901, and 28th September 1904, respectively, provided that a Civil Court is not precluded from issuing a commission to salaried amins in districts in which they still exist.

2. Certificates of proficiency in surveying will be granted to pleaders desirous of qualifying themselves for execution of commissions under Rule 9, Order XXVI, Schedule I, of the Code of Civil Procedure, 1908, on their passing the examination held annually for the purpose at the places mentioned in rule 6 below.

Constitution and functions of the Examination Board.

3. The examination will be conducted by an Examination Board which will be composed as follows:—

(1) A High Court Judge to be nominated by the High Court	*President.*
(2) A District Judge to be nominated by the High Court ...	*Member.*
(3) The Principal of the Civil Engineering College, Sibpur	*Member and Secretary.*
(4) Director of Surveys, Bengal	*Member.*
(5) Superintendent of Provincial Surveys, Eastern Bengal and Assam	*Member.*
(6) The Principal of the Dacca School of Engineering ...	*Member.*
(7) The Head Master of the Bihar School of Engineering ...	*Member.*

4. Certificates will be issued over the signature of the Secretary of the Board.

5. The Board will, through their Secretary, arrange to conduct the examination, to appoint examiners and receive their reports, to issue instructions to the candidates, to record marks and announce results, to receive examination fees and to pay the examiners and contingent expenses. The Board will also determine the scale of remuneration to be given to the examiners, in consultation with the Government of Bengal and the Government of Eastern Bengal and Assam.

Rules for the Examination of Pleaders for Certificates of proficiency in Surveying.

6. An examination for these certificates will be held once annually in the month of February, or at such time as may be notified, at the following centres:—

The Civil Engineering College, Sibpur ...	In Bengal.
Bankipore	In Bengal.
Cuttack	In Bengal.
Dacca	In Eastern Bengal and Assam.

7. Candidates practising in courts situated in the various districts of Bengal will be examined at the places enumerated below:—

Candidates practising in the Burdwan and Presidency Divisions, at the Civil Engineering College, Sibpur; candidates practising in the Patna Tirhut, Bhagalpur and Chota Nagpur Divisions, at Bankipore; and candidates practising in the Orissa Division, at Cuttack.

Candidates practising in Courts in Eastern Bengal and Assam will be examined at Dacca.

8. The maximum number of names that will be registered for the examination is 20 each at the centres at the Civil Engineering College, Sibpur, Dacca and Bankipore, and 10 at Cuttack.

9. In the event of more than 20 or less than 5 names being registered for examination at any one centre, the Secretary will have power to direct candidates to proceed for examination to one of the other centres, provided that this does not increase the number appearing at that centre to more than 20, or in the case of Cuttack, to more than 10.

10. In the event of more candidates than provided for in rule 8 (practising in courts in Bengal or in Eastern Bengal and Assam) being registered for examination in any year, the number admitted to the Civil Engineering College or Dacca centres may be increased for that year. Should the number of candidates for examination at either of those centres be too great (in the opinion of the officer controlling the examination) to be examined at one time he may arrange for two separate examinations in the field tests.* All candidates must appear at the same paper examination

11. The registration of candidates for the examination will be conducted by the Secretary of the Examination Board.

12. No candidate will be admitted to the examination unless he has been enrolled as a pleader, and—

(*i*) has obtained credit for attendance at the special course of instruction not less than one year and not more than four years previous to the date of the examination, or

(*ii*) has been registered for admission to the Intermediate Engineering Examination of the Calcutta University, or

(*iii*) has passed the Sub-Overseer Examination, or

(*iv*) has obtained the Surveyor's Certificate of one of the Government Survey Schools, or

(*v*) be specially exempted from the operation of this rule by the Board controlling the examination

* The reason why it is not possible to hold a second examination at the other centres (*vide* Rule 10) is that they have not so large a number of teachers and the holding of the examination necessitates the closing of the school while it is preceeding.

13. No candidate will be admitted to this examination more than three times.

14. Candidates for admission to the Practical Examination will, after they have had their applications on the prescribed form countersigned by the District Judge, forward them to the Secretary of the Examination Board so as to reach the Civil Engineering College, Sibpur, before 15th December. Each application must be accompanied by a receipt from the local treasury certifying that the examination fee of Rs. 50 has been paid into the treasury; unless such receipt be received the candidate's name will not be registered.

15. Each examination is complete in itself. A candidate will be required to pass the examination in every test and will not be exempted from a test on the ground that he satisfied the examiner in it previously.

16. No certificates of partial success will be issued.

17. The examination will comprise the following tests:—

I. A paper on practical surveying (3 hours).
*II. A practical test in chain surveying, during which the candidate's knowledge of the use of a prismatic compass will be tested.
III. A practical test in plane tabling.
IV. A practical test in levelling.
V. An oral and practical test in the adjustment and care of surveying instruments.
VI. Plotting and calculations in connection with the work done in the field.

Tests Nos. II, III and IV will be such as can be completed by the candidate within four hours.

Rules as to special course of practical instruction.

18. Classes will be arranged at the Civil Engineering College, Sibpur, the Bihar School of Engineering, Bankipore, the Cuttack Survey School and the Dacca School of Engineering, for six weeks in the months of January and February each year. The course will consist of four hours' field work and two hours' class work daily.

19. The heads of these institutions will fix the exact dates in each season, and the sites of training, and inform the candidates after the candidates are allotted under rule 29.

20. The classes will be held under canvas and the necessary tents for this purpose will be provided by Government.

21. A separate Instructor for each class will be appointed by the head of each institution for eight weeks in each season.

22. Attendance will not be marked any day unless the pleader attends for the full working hours, and if a pleader does not work satisfactorily he will be marked as absent.

23. The Instructor will keep a careful register of attendance, and no candidate will be considered to have completed a satisfactory course unless he has been entered according to rule 22 as attending on 80 per cent. of the full number of working days, nor will he be allowed to appear at the practical examination unless he so attends.

24. The teacher of the class will not be permitted to give private certificates for this course.

25. A statement showing the total attendance of each pleader will be prepared by the teacher in charge and forwarded to the Principal, Civil Engineering College, Sibpur, for registration through the controlling officer.

26. The Instructor will arrange for tents, coolies and instruments under the supervision of the head of the institutions concerned.

27. The fee for the course will be Rs. 100 payable in advance.

28. Any candidate who desires to undergo the course of training must apply to the Secretary of the Examination Board for survey studies not later than 15th November in each cold season. The application must be endorsed by the District Judge. It should state the centre which the candidate wishes to join, *i.e.*, Sibpur, Bankipore, Cuttack, or Dacca, and should be accompanied by a remittance of the amount of the fee prescribed for the course.

29. The Secretary will allot candidates, consulting their wishes as far as possible: giving not more than 24 and not less than 8 to a class. If the number of candidates exceeds 72, he may arrange a second course at one centre. He will then inform the heads of the institutions as to the numbers in each of the classes, and the candidates as to the centres which they should attend.

30. Pleaders are expected to make their own arrangements for residence at the respective centres to which they are allotted.

31. The following is the syllabus of instruction:—

(*a*) *Practical work*—

2 weeks on chain surveying;
1 week on prismatic compass;
2 weeks on plane tabling; and
1 week on levelling.

* If in the candidate's opinion the Test Area fixed for Test No. II cannot be done by means of a chain survey, he may use the method of Prismatic Compass Surveying, justifying by a note in his field-book his rejection of the former method.

(*b*) *Class work*—
Use of mathematical instruments.
Construction on scales.
Mensuration of areas.
Plotting.
Variation of compass.
Preparation of field-books from maps.
Elementary principles of levelling.
Plotting of level sections.

Secretary.

NOTIFICATION.

No. 5964B.

THE following instructions for the working of the rules issued by Government under Notification No. 338S.R., dated the 2nd April 1909, for the payment of duty on salt within a period not exceeding six months from the date on which such payment is due under the law and for furnishing security for such payment, are published for the guidance of officers engaged in the administration of the Salt Department in Bengal and for general information.

INSTRUCTIONS FOR THE ISSUE OF SALT ON CREDIT IN BENGAL.

Persons desirous of availing themselves of the benefits of the credit rules should apply in person or by duly authorised agent to the Collector of Customs, Calcutta, or the Collector/Deputy Commissioner of the district, as the case may be, for the issue of salt on credit. Such applications should be in the annexed form A which can be procured from the officer named above and should be accompanied by the securities to be deposited, and, in the case of Agents, also by a power-of-attorney duly stamped and registered, a copy of which must be lodged with the officer to whom application is made.

2. The grant of credits is discretionary and may be refused to any one without cause assigned. No credit is to be granted or renewed, until the depositor has signed a copy of the rules issued by the Local Government.

3. On the receipt of an application in form A, the Collector should examine the securities tendered and see that their aggregate value is not less than Rs. 500, that the chain of endorsements is complete and in proper form, and that they have been duly endorsed by the depositor in his favour.

4. All securities for which the Public Debt Office issue interest Payment Warrants should be forwarded to the Accountant-General, Bengal, for disposal; other securities (*e.g.*, Postal

Savings Bank Pass-books) should be retained in the strong room safe in the custody of the treasury officer.

5. The agreement prescribed by rule 2 of the rules annexed to Government Notification No. 338S.R., dated the 2nd April 1909, should be written upon eight-annas stamp paper.

6. The particulars of the securities and the names of the depositors should be entered in the register in the annexed form B, and, in districts outside Calcutta, also in register form C. A receipt in the annexed form D should then be furnished to the applicant. In fixing the amount of credit to be granted a deduction of six per cent. should be made from the market value of the securities as ascertained from the newspapers at the time when the credit is granted, and credit allowed up to the duty covered by the balance.

7. The value of the securities should be verified once a month by the treasury officer by comparison with the money market reports in the newspapers.

8. In Calcutta the Salt credit accounts will be worked in a similar manner to the Personal (or Floating) Deposit Accounts now maintained in the Calcutta Custom House.

9. In mufassal districts orders for the delivery of salt under the credit system should be in the annexed form E which should be kept like cheque books in the personal custody of the treasury officer. The original should remain in the Collectorate, the foil should be sent by post by the treasury officer to the officer in charge of the depôt/warehouse from which the salt is to be delivered and the counterfoil made over to the merchant who applies for credits. Before signing delivery orders the treasury officer should satisfy himself that the merchant's credit is sufficient.

10. When an application is made for a duplicate credit order on the plea that the original has been lost, the officer granting the credit should ascertain from the officer in charge of the depôt/warehouse on which the order issued whether it has been presented and salt received on it, and direct him to impound it if presented thereafter After receipt of that officer's reply to the effect that the

order has not been presented, a duplicate order may be issued on payment of a fee of Re. 1 and the merchant be warned that frequent carelessness of this kind will entail stoppage of credit.

11. To enable officers issuing salt on credit to verify the signatures of the credit-issuing officers, the treasury officer will forward at the time of the first issue of credits on any $\frac{\text{depôt}}{\text{warehouse}}$ a sample of his signature. This precaution is necessary for the prevention of fraud.

12. The date on which credits fall due should be noted and watched in form B, referred to above. The greatest possible care should be taken by every officer granting credits to insist on all accounts being adjusted punctually at the end of the period of credit. The account current will be open to the inspection of the depositor on week days during office hours, when, if he wishes, he should be permitted to take a copy of it.

13. The Collector of Customs, Calcutta, should for the present publish the credit rules once every three months in the *Calcutta Gazette*, with a note briefly illustrating the advantages thereof. This should be done until the system is well understood by all native merchants. A notice to the same effect should also be permanently exhibited on the notice board of the Calcutta Custom House. Collectors should publish similar notices in the Collectorates and Sub-divisional Offices, and for this purpose should obtain vernacular translations of the rules and instructions from the Translators to Government. Opportunity should also be taken to explain to those interested the objects with which the system has been introduced and the benefits it is calculated to confer on them.

The following are the conditions of sale:—

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for

which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4. Each lot shall contain five chests.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs 300 per chest.
On bids of Rs. 1 600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

5. A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the after-noon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6. The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7. The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8. No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the 5th day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9. The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10. Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

11. No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12. The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue:—

No. 1, Certificate of the opium advertised for sale;

No. 2, Report of the examination of such opium.

17. The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1908-09, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue.

18. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

SRIGOPAL BHATTACHARJEE,

Secretary.

CALCUTTA,

The 26th November 1909.

BOARD OF REVENUE, L. P.

NOTIFICATION.

No. 5977B.

THE HON'BLE MR. W. C. MACPHERSON, C.S.I.

IN exercise of the powers conferred by section 86 of the Bengal Excise Act, 1909 (Bengal Act V of 1909), the Board make the following rules:—

DEFINITIONS.

1. (*a*) "Commissioner" means the Excise Commissioner.

(*b*) London Proof (L. P.) means the strength of proof as ascertained by means of Sykes' hydrometer and denotes that spirit which at the temperature of 51° Fahrenheit weighs exactly $\frac{12}{13}$th parts of an equal measure of distilled water.

(*c*) "To gauge" means to determine the quantity of spirit contained in, or taken from, any cask and other receptacle, or to determine the capacity of a cask or other receptacle.

(*d*) "To prove" means to test the strength of spirit by a hydrometer or other instrument prescribed by the Commissioner.

(*e*) "Wash" means material for distillation which is under, or has undergone, fermentation by natural or artificial means.

(*f*) "Compounding" means the artificial preparation of foreign liquor by the addition to, imported or locally made spirit of flavouring or colouring matter, or both.

(*g*) "Blending" means the mixture of spirits or wines of different strengths or of different qualities.

(*h*) "Bottling" means bottling as defined in section 2 clause, (*3*) of the Bengal Excise Act, 1909.

LICENSING AND REGULATION OF DISTILLERIES.

2. Any person desiring to obtain a license to work a distillery in any place in Bengal shall apply in writing to the Commissioner stating the following particulars:—

(1) The name or names of the person or persons applying; if a firm, the name of every partner of the firm; and if a company, the registered name thereof.

(2) The purpose for which the distillery is proposed to be opened, specifying in detail the nature of the business which the applicant desires to carry on therein.

(3) The name of the place in which, the site on which, and the buildings in which, the distillery is to be constructed or worked.

(4) The number and full description of the stills, vats and other permanent apparatus which the applicant wishes to work or set up, and the size and capacity of such stills, etc.

(5) The date from which, in the event of a license being granted to him, the applicant proposes to commence working the distillery

(6) The amount of security which the applicant is ready to furnish for the due performance of the conditions on which a license may be granted to him.

(7) Correct plan of the buildings which he intends to use, or to construct for his distillery, and a plan showing the position of stills, vats and other permanent apparatus therein, and a list of store-rooms, warehouses, etc., connected therewith.

3(*a*). On receipt of the application, and after consulting the Collector of the district in which the distillery is proposed to be opened regarding the suitability of the site, and buildings if there be any already, and on any other points and on receipt of the Collector's opinion, and after such further enquiry as he deems necessary, the Commissioner shall decide whether the license for the opening of the distillery should be granted or not. The number of distilleries which can be allowed to be opened in the Province, mainly for the supply of country spirit, is limited, and in deciding whether a license for the working of a distillery is to be granted or not, the Commissioner will take into full consideration the purpose for which it is proposed to open the distillery and the demand or necessity for such a distillery.

(*b*) Distilleries may be opened for—

(1) supply of country spirit,

(2) supply of foreign liquor,

(3) supply of spirit for the manufacture of chemicals, medicated articles, etc., or for other industrial purposes,

(4) for any or all of the above purposes combined.

(*c*) If the Commissioner sanctions the opening of a distillery he shall so inform the applicant and the Collector of the district in which the distillery is to be opened.

(d) The applicant shall then be called upon to make arrangements for the construction of the distillery. Upon completion of the building and after the stills and other appliances and apparatus have been set up, he will file two fresh copies of the plans before the Collector who shall cause them to be verified in any manner he thinks proper, and then submit one copy to the Commissioner for examination and for comparison with the plans first submitted, and for any further verification he may think necessary. After final approval by the Commissioner, the Collector will be instructed to grant a license to the applicant in the prescribed form. The applicant shall be bound to conform to the wishes of the Commissioner regarding any addition or alteration to the buildings or plans which he considers necessary, whether before or after the final plans are submitted, for the proper security of the revenue or to render illicit practices impracticable.

(e) No addition or alteration to the buildings, stills or other permanent apparatus as shown in the plans finally submitted by the applicant shall be made without the previous sanction of the Commissioner obtained through the officer in charge and the Collector. If the Commissioner so directs, such additions or alterations may be permitted by the Collector subject to the Commissioner's approval. When any such additions or alterations are made fresh plans must be submitted to the Commissioner through the Collector with a certificate from the officer in charge that they are correct.

4. The license for a distillery must be renewed annually. Such renewal will be granted by the Collector subject to the approval of the Commissioner.

5. Every proprietor or manager of a licensed distillery must give at least 15 days' notice in writing to the Collector of the date on which he proposes to commence working the distillery and at least one month's notice before he ceases to work it.

6. (a) Distillers shall so arrange their stills that spirit shall discharge into closed and locked receivers of such pattern that no spirit can be removed from them unless they are unlocked. Every pipe used for conveying spirit or feints must be so fixed and placed that the officer in charge can examine it throughout its whole course. They shall also provide and maintain suitable and secured fastenings, where necessary, to all stills, spirit-receivers, fermentation rooms, store-rooms pipes, etc., to the satisfaction of the Commissioner, for the attachment of locks to be provided by Government. The keys of all such locks shall be retained by the officer in charge. Distillers, if they so desire, may put their own locks also on all stills, receivers, etc., but shall be bound to remove those locks when required by the officer in charge to allow free inspection.

(b) The stills, receivers and vats shall be so arranged that the spirit may be conveyed from the receivers to the store-room by gravitation through pipes having sealed flanges or may be pumped through closed pipes. With special permission spirit collected in the receivers may be conveyed to the store-room in casks.

7. Spirit shall be stored in sound casks or vats. No cask or vat shall be used for storage of spirit or for conveyance of spirit from the receivers to the store-room, until it has been examined and registered by the officer in charge or by such other officer as the Collector may depute for the purpose. Each cask or vat shall bear a serial number painted or cut thereon, and shall be so placed as to admit of the contents being accurately gauged; its external parts must also be clearly visible. It must also be fitted with a proper dipping rod for gauging.

8. The distiller shall not cause or allow the dipping place or level of any vessel to be altered or any device to be used to deceive the officer in charge in taking the gauge of any vessel or to prevent him from taking a true account of all wash or spirit in any vessel.

9. All spirit collected in the receiver shall be transferred or conveyed into the spirit store-room without unnecessary delay, provided that no spirit shall be so transferred between 6 P.M. and 6 A.M.

10. The Commissioner shall appoint such officers and establishment as he thinks fit to the charge of a distillery. The cost of this establishment is payable by the distiller monthly in advance.

11. The distiller shall provide suitable quarters for the officer in charge and other establishment in close proximity to the distillery. He shall also supply such office furniture, as may be required for the use of the officer within the distillery.

12. Government shall not be held responsible for the destruction, loss or damage, by fire, theft or any other cause whatsoever, occurring to any spirit stored in the distillery or in gauging, weighment or proof. In case of fire or other accident the officer in charge of a distillery shall immediately attend to open it at any hour by day or night.

13. The distiller shall only distil wash that has been made at the distillery and no wash, except spent wash from which all alcohol has been extracted, shall be allowed to pass out of the distillery.

14. The materials, or bases, to be used in distilling country spirit shall only be of such descriptions as are generally approved by the Commissioner. All materials used must be of good quality and no ingredients noxious to health shall be added to the spirit intended for human consumption.

15. Before the license to work the distillery is granted by the Collector the distiller shall execute a bond in the prescribed form pledging the premises, stills, all apparatus and utensils, employed in the manufacture of spirit for the due discharge of all payments which may become due to Government. In lieu of executing such a bond the distiller may deposit Government promissory notes of such value as the Commissioner may direct.

16. The distiller shall keep accurate and regular daily accounts showing (1) the quantity and description of materials used, (2) quantity of wash and spirit manufactured, (3) quantity of wash used, (4) quantity of spirit passed out, and (5) quantities of wash and spirit in store. Under the last head the quantity of spirit remaining in stock in each cask, vat or other receptable shall be shown. Such accounts shall be open at all times to inspection by the Excise officer in charge or other Excise officer authorized by the Collector.

17. It shall be the duty of the distiller to bring any breach of the Excise law or of any of the rules framed thereunder committed by any person in his employ to the notice of the Excise officer in charge who shall report the matter to the Collector. The distiller shall be bound to comply with the orders of the Collector thereon.

18. The officer in charge may eject and exclude from the premises any person whom he finds to have committed or to be about to commit any breach of the Excise law or rules or who is intoxicated or disorderly. Any such action taken by such officer shall be immediately reported to his official superior.

19. The use within the distillery of any naked lights of any description is prohibited.

20. Without prejudice to the procedure prescribed for recovery of dues by section 89 of the Act, all sums due to Government may be recovered from the amount of deposit made by the distiller or by sale of the premises, stills, and other things pledged under the bond. On the expiry of the license either on account of expiry of the term or on account of cancellation or suspension, the Commissioner can take over or permit the distiller's successor to take over the balance of liquor in the distillery at cost price or may allow the distiller to remove all liquor remaining within the distillery on payment of full duty within a period of one month from the date of expiry. If in the latter case the distiller fails to so remove the liquor it shall be liable to forfeiture at the discretion of the Commissioner.

21. The distiller shall be bound by the provisions of the Excise Act, and by all rules, for management of distilleries or for issue of spirit therefrom which may be prescribed under the Excise Act from time to time and by all special orders which may be issued by the Commissioner regarding any particular distillery.

22. An account shall be taken of the distiller's stock of spirit at such intervals, not being greater than three months, and in such manner as the Commissioner may direct; and the distiller shall pay to Government duty at the rate prescribed for the manufacture of spirit, on all spirit which may not be forthcoming and for which he shall be unable to account to the satisfaction of the Commissioner in excess of a wastage allowance of 1½ per cent. calculated on the number of proof gallons, passed into the store-room. Wastage for the purpose of collection of duty on the excess as aforesaid shall be calculated annually, that is, at the end of the year for which the license is in force:

Provided that if it shall be proved to the satisfaction of the Commissioner, or of such officer as he may specify, that such deficiency in excess of 1½ per cent. has been caused by accident or other unavoidable cause, the payment of duty at the above rate on such deficiency shall not be required.

23. If any saccharine or other matter of such a nature as to obscure the indications of the hydrometer shall be introduced into spirit, duty shall be calculated on the quantity and strength of such spirit as ascertained before the introduction of such matter. No allowance shall be made for wastage in such spirit after the addition of such matter and before removal from the distillery. Such spirit shall be kept in a separate receptacle.

24. To allow the officers in charge sufficient rest from their work no distillation shall ordinarily be carried on by the distiller on Sunday. If it is necessary to carry on distillation on a Sunday, the distiller should stop distillation on some other day in the week to afford rest to the officers in charge. Such stoppage of distillation and other work in the distillery shall be for not less than four days during a month. The distiller shall so arrange his operations in the distillery that the officers in charge need not be on duty for more than eight hours per diem. If it becomes necessary for such officers to remain on duty for more than the prescribed time, the distiller shall be liable to pay such extra charges for such attendance as may be fixed by the Commissioner.

25. For taking periodical stock, the gauging of spirit in vats or casks may be done by dip-rod measurement, weighment, or by such other method as may be prescribed by the Commissioner. Whenever by bung-rod measurement the deficiency in any cask is found to be excessive, the whole contents of the cask shall be promptly measured by gallon measures and the actual deficiency accurately ascertained.

26. Distillers who desire to manufacture foreign liquor for sale must take out separate vend licenses.

27. Manufacturers of foreign liquor must take out separate compounding and bottling licenses in accordance with the rules framed therefor, if such operations are carried on.

28. All processes connected with bottling, flavouring, blending or colouring foreign liquor must be conducted in a separate building within the distillery enclosure.

ISSUE OF SPIRIT FROM DISTILLERIES.

29. No spirit shall be removed from any distillery unless it has been gauged and proved by the officer in charge. If removed on payment of duty, the gauging must be by

actual measurement or by weighment: if removed under bond, the gauging may be by bung-rod.
